## **Rings Of Continuous Functions:**

Rings of Continuous Functions Leonard Gillman, Meyer Jerison, 2017-11-29 Designed as a text as well as a treatise the first systematic account of the theory of rings of continuous functions remains the basic graduate level book in this area 1960 edition Rings of Continuous Functions L. Gillman, M. Jerison, 2014-01-15 *Rings of Continuous Function* Aull, 2017-07-07 **Rings of Continuous Function** Aull, 1985-03-27 This timely work is the first book in several years to review and update important developments in the study of rings of continuous functions Integrating the recent efforts of leading mathematicians *Rings of Continuous Functions* presents chapters with varying emphasis on algebra analysis and general topology with particular focus on category theory cardinality axioms and set theory Additionally historical perspectives and a review of early contributions by leading Soviet mathematicians such as P S Aleksandrov and A N Tychonov help provide a full up to date understanding of current knowledge An unparalleled overview of the state of the art *Rings of Continuous Functions* will be an invaluable reference for topologists algebraists analysts and geometers active in the field and an excellent introduction for interested nonspecialist mathematicians Also research problems raised in each chapter and in a special final chapter offer provocative avenues for further research facilitated by more than 300 literature citations Book jacket *Rings of Continuous Functions* Carolyn Connell, 1971 **Rings of continuous functions, by L. Faculty of Arts and Sciences. Department of Mathematics, 1994 When studying the ring  $C(X)$  of all continuous functions from a topological space  $X$  to  $\mathbb{R}$  the concepts of  $z$ -ideals and  $z$ -filters play a crucial role However most of the advantages of the subsequent theory are lost when the ring  $C(X)$  of all continuous and bounded functions is considered In order to get a similar theory applicable to  $C(X)$  it is necessary to consider new concepts of  $e$ -ideals and  $e$ -filters This approach was outlined in some problem sections of the source book The main purpose of the thesis is to present solutions to the above mentioned problems Ordered Algebraic Structures W.C. Holland, Jorge

Martínez, 2012-12-06 The conference on Ordered Algebraic Structures held in Curaçao from the 26th of June through the 30th of June 1995 at the Avila Beach Hotel marked the eighth year of activities by the Caribbean Mathematics Foundation abbr CMF which was the principal sponsor of this conference CMF was inaugurated in 1988 with a conference on Ordered Algebraic Structures During the years between these two conferences the field has changed sufficiently both from my point of view and I believe that of my co organizer W Charles Holland to make one wonder about the label Ordered Algebraic Structures itself We recognized this from the start and right away this conference carried a subtitle or if one prefers an agenda we concentrated on the one hand on traditional themes in the theory of ordered groups including model theoretic aspects and on the other hand on matters in which topology more precisely C X style topology and category theory would play a prominent role Plainly ordered algebra has many faces and it is becoming increasingly difficult to organize an intimate conference such as the ones encouraged in the series sponsored by CMF in this area on a broad set of themes These proceedings reflect accurately we think the spirit of the conferees but it is not a faithful record of the papers presented at the conference
