Witchcraft and the Otherworld Susan Greenwood,2020-08-02 Anthropology's long and complex relationship to magic has been strongly influenced by western science and notions of rationality. This book takes a refreshing new look at modern magic as practised by contemporary Pagans in Britain. It focuses on what Pagans see as the essence of magic: a communication with an otherworldly reality. Examining issues of identity, gender, and morality, the author argues that the otherworld forms a central defining characteristic of magical practice. Integrating an experiential ethnographic approach with an analysis of magic, this book asks penetrating questions about the nature of otherworldly knowledge and argues that our scientific frameworks need re-envisioning. It is unique in providing an insider's view of how magic is practised in contemporary western culture.

Prolegomena to the Study of Greek Religion Jane Ellen Harrison,2021-03-09 Jane Harrison examines the festivals of ancient Greek religion to identify the primitive substratum of ritual and its persistence in the realm of classical religious observance and literature. In Harrison's preface to this remarkable book, she writes that J. G. Frazer's work had become part and parcel of her mental furniture and that of others studying primitive religion. Today those who write on ancient myth or ritual are bound to say the same about Harrison. Her essential ideas, best developed and most clearly put in the *Prolegomena*, have never been eclipsed.
