BLACK AMERICANS AND U.S. FOREIGN AFFAIRS, 1935-1960

RISING WIND

Rising Wind Black Americans And Us Foreign Affairs 1935 1960

Elizabeth Schmidt

Rising Wind Black Americans And Us Foreign Affairs 1935 1960:

Rising Wind Brenda Gayle Plummer, 1996 African Americans have a long history of active involvement and interest in international affairs but their efforts have been largely ignored by scholars of American foreign policy Gayle Plummer brings a new perspective to the study of twentieth century *The African American Voice in U.S. Foreign Policy Since World War II* Michael L. Krenn, 2019-08-08 Following World War II America was witness to two great struggles The first was on the international front and involved the fight for freedom around the globe as millions of people in Asia and Africa rose up to throw off their European colonial masters In the decades following 1945 dozens of new nations joined the ranks of independent countries Following the Civil War the African American voice in U S foreign affairs continued to grow In the late nineteenth century a few African Americans such as Frederick Douglass even served as U S diplomats to the black republics of Liberia and Haiti When America began its overseas thrust during the 1890s African American opinion was divided

African Americans in U.S. Foreign Policy Linda Heywood, Allison Blakely, Charles Stith, Joshua C. Yesnowitz, 2015-01-30 Bookended by remarks from African American diplomats Walter C Carrington and Charles Stith the essays in this volume use close readings of speeches letters historical archives diaries memoirs of policymakers and newly available FBI files to confront much neglected questions related to race and foreign relations in the United States Why for instance did African Americans profess loyalty and support for the diplomatic initiatives of a nation that undermined their social political and economic well being through racist policies and cultural practices Other contributions explore African Americans history in the diplomatic and consular services and the influential roles of cultural ambassadors like Joe Louis and Louis Armstrong The volume concludes with an analysis of the effects on race and foreign policy in the administration of Barack Obama Groundbreaking and critical African Americans in U S Foreign Policy expands on the scope and themes of recent collections to offer the most up to date scholarship to students in a range of disciplines including U S and African American history Africana studies political science and American studies **The Impact of Race on U.S. Foreign Policy** Michael L. Krenn, 2020-08-26 This book shows that race has played an important role in the nation s foreign relations from the time the first English colonists clambered onto the shores of the North American continent It also shows that the colonists had already progressed rather far in defining themselves in racial terms Race and US Foreign Policy Mark Ledwidge, 2012-02-06 African Americans analysis of and interest in foreign affairs represents a rich and dynamic legacy and this work provides a cutting edge insight into this neglected aspect of US foreign affairs In addition to extending the parameters of US foreign policy literature to include race and ethnicity the book documents case specific analyses of the evolutionary development of the African American foreign affairs network AAFAN Whilst the examination of race in regard to the construction of US foreign policy is significant this book also provides a cross disciplinary approach which utilises historical and political science methods to paint a more realistic appraisal of US foreign policy Including analysis of original

archival evidence this theoretically informed work seeks to transcend the standard mono disciplinary approach which overestimates the separation between domestic and foreign affairs The unique approach of this work will add an important dimension to a newly emerging field and will be of interest to scholars in ethnic and racial studies American politics US foreign policy and US history

The African Foreign Policy of Secretary of State Henry Kissinger Hanes Walton, Jr., Robert Louis Stevenson, James Bernard Rosser, Sr., 2010-01-01 The African Foreign Policy of Secretary of State Henry Kissinger outlines in clear comprehensive terms the details of Secretary of State Henry Kissinger's foreign policy toward Africa and how that policy related to other aspects of his global viewpoint For the first time editors Hanes Walton Jr Robert Louis Stevenson and James Bernard Rosser bring together a diverse collection of public documents speeches and congressional presentations for critical analysis and in depth discussion This book presents an intellectual evaluation of governmental sources to determine the kinds of foreign policy proposals and programs that Kissinger developed for the various crises and problems which were under way in Africa The essays demonstrate how Kissinger used his brand of shuttle diplomacy to set up delicate negotiations to ease the new international tensions and the power rivalry The African Foreign Policy of Secretary of State Henry Kissinger offers important insight that will stimulate debate and be a lively read for those interested in international politics and political science

Waste of a White Skin Tiffany Willoughby-Herard, 2015-01-06 A pathbreaking history of the development of scientific racism white nationalism and segregationist philanthropy in the U S and South Africa in the early twentieth century *Waste of a White Skin* focuses on the American Carnegie Corporation's study of race in South Africa the Poor White Study and its influence on the creation of apartheid This book demonstrates the ways in which U S elites supported apartheid and Afrikaner Nationalism in the critical period prior to 1948 through philanthropic interventions and shaping scholarly knowledge production Rather than comparing racial democracies and their engagement with scientific racism Willoughby Herard outlines the ways in which a racial regime of global whiteness constitutes domestic racial policies and in part animates black consciousness in seemingly disparate and discontinuous racial democracies This book uses key paradigms in black political thought black feminism black internationalism and the black radical tradition to provide a rich account of poverty and work Much of the scholarship on whiteness in South Africa overlooks the complex politics of white poverty and what they mean for the making of black political action and black people's presence in the economic system Ideal for students scholars and interested readers in areas related to U S History African History World History Diaspora Studies Race and Ethnicity Sociology Anthropology and Political Science

The Expanding Boundaries of Black Politics Georgia A. Persons, 2011-12-31 This volume joins the preceding volumes in this distinguished series in presenting contemporary research by leading political scientists addressing topics of interest to those concerned with African American affairs It captures the expanding boundaries of black politics and the persistent interests of the black community at large The anchoring symposium *The Expanding Boundaries of Black Politics* presents the scholarship of a cadre of young

black political scientists actively engaged in the critical tasks of moving forward the study of black politics Their concerns include expanding the boundaries of black politics along the lines of epistemology and methodology especially in regard to core issues and areas within this field In an introductory essay by Todd Shaw the work of these scholars is situated within the context of temporal shifts in scholarly emphases Overlapping issues and concerns across time as well as black political scholarship as defined in the field since its beginning are addressed The second part of this volume entitled **Maximizing the Black Vote Recognizing the Limits of Electoral Politics** concentrates on serious lingering social concerns These include the policy significance of black mayors affecting the concomitant impact of the black vote the boundaries being pushed concerning the conjunction of black theology and sexual identity a gendered analysis of familial policies and the deepening social and economic plight of young black males including felon disfranchisement The **Expanding Boundaries of Black Politics** carries forth the search for an understanding of the relationship between religion the black church and black political behavior cross racial group coalitions as concerns matters of immigration growing multiculturalism and the impact on black politics maximizing the impact of the black vote focusing on voting rights enforcement the black vote in presidential elections and the voice of the Congressional Black Caucus in American foreign policy and persistent social inequalities especially as it concerns ideology federalism and social welfare policy Window on Freedom Brenda Gayle Plummer,2003 Demonstrates how US foreign policy has been embedded in social economic and cultural factors of domestic and foreign origin It argues that the campaign to realize full civil rights for racial and ethnic minorities in the US is best understood in the context of competitive international relations **Race, Law and Society** Ian Haney López,2017-05-15 Race Law and Society draws together some of the very best writing on race and racism from the law and society tradition yet it is not intended to merely reprint the greatest hits of the past Instead from its introduction to its selection of articles this anthology is designed as a how to manual a guide for scholars and students seeking templates for their own work in this important but also tricky area Race Law and Society pulls together leading exemplars of the sorts of social science scholarship on race society and law that will be essential to racial progress as the world begins to travel the twenty first century **Explaining the History of American Foreign Relations** Frank Costigliola,Michael J. Hogan,2016-03-09 This volume presents substantially revised and new essays on methodology and approaches in foreign and international relations history **America in the World** Frank Costigliola,Michael J. Hogan,2013-12-23 This volume includes historiographical surveys of American foreign relations since 1941 by some of the country s leading historians Some of the essays offer sweeping overviews of the major trends in the field of foreign international relations history Others survey the literature on US relations with particular regions of the world or on the foreign policies of presidential administrations The result is a comprehensive assessment of the historical literature on US foreign policy that highlights recent developments in the field **The Ambiguous Legacy** Michael J. Hogan,1999-11-13 This collection assesses the record of American foreign policy in the twentieth century African American Foreign

Correspondents Jinx Coleman Broussard, 2013-06-07 This book traces the history of African Americans who have served as foreign correspondents from the mid 1800s to the present *Rethinking U.S. World Power* Daniel Bessner, Michael Brenes, 2024-03-06 Since the late 1990s diplomatic historians have emphasized the importance of international and transnational processes flows and events to the history of the United States in the world *Rethinking U S World Power* provides an alternative to these scholarly frameworks by assembling a diverse group of historians to explore the impact of the United States and its domestic history on U S foreign relations and world affairs In so doing the collection underlines that even in a global age domestic politics and phenomena were crucial to the history of U S foreign policy and international relations more broadly Between Homeland and Motherland Alvin B. Tillery, Jr., 2011-03-15 In *Between Homeland and Motherland* Alvin B Tillery Jr considers the history of political engagement with Africa on the part of African Americans beginning with the birth of Paul Cuffe s back to Africa movement in the Federal Period to the Congressional Black Caucus struggle to reach consensus on the African Growth and Opportunity Act of 2000 In contrast to the prevailing view that pan Africanism has been the dominant ideology guiding black leaders in formulating foreign policy positions toward Africa Tillery highlights the importance of domestic politics and factors within the African American community Employing an innovative multimethod approach that combines archival research statistical modeling and interviews Tillery argues that among African American elites activists intellectuals and politicians factors internal to the community played a large role in shaping their approach to African issues and that shaping U S policy toward Africa was often secondary to winning political battles in the domestic arena At the same time Africa and its interests were important to America s black elite and Tillery s analysis reveals that many black leaders have strong attachments to the motherland Spanning two centuries of African American engagement with Africa this book shows how black leaders continuously balanced national transnational and community impulses whether distancing themselves from Marcus Garvey s back to Africa movement supporting the anticolonialism movements of the 1950s or opposing South African apartheid in the 1980s Comrades at Odds Andrew J. Rotter, 2018-10-18 *Comrades at Odds* explores the complicated Cold War relationship between the United States and the newly independent India of Jawaharlal Nehru from a unique perspective that of culture broadly defined In a departure from the usual way of doing diplomatic history Andrew J Rotter chose culture as his jumping off point because he says Like the rest of us policymakers and diplomats do not shed their values biases and assumptions at their office doors They are creatures of culture and their attitudes cannot help but shape the policy they make To define those attitudes Rotter consults not only government documents and the memoirs of those involved in the events of the day but also literature art and mass media An advertisement a photograph a cartoon a film and a short story he finds tell us in their own ways about relations between nations as surely as a State Department memorandum does While expanding knowledge about the creation and implementation of democracy Rotter carries his analysis across the categories of race class gender religion and culturally

infused practices of governance strategy and economics Americans saw Indians as superstitious unclean treacherous lazy and prevaricating Indians regarded Americans as arrogant materialistic uncouth profane and violent Yet in spite of these stereotypes Rotter notes the mutual recognition of profound similarities between the two groups they were indeed comrades at odds

From Colony to Superpower George C. Herring, 2008-10-28 The Oxford History of the United States is the most respected multi volume history of our nation in print The series includes three Pulitzer Prize winners a New York Times bestseller and winners of prestigious Bancroft and Parkman Prizes From Colony to Superpower is the only thematic volume commissioned for the series Here George C Herring uses foreign relations as the lens through which to tell the story of America's dramatic rise from thirteen disparate colonies huddled along the Atlantic coast to the world's greatest superpower A sweeping account of United States foreign relations and diplomacy this magisterial volume documents America's interaction with other peoples and nations of the world Herring tells a story of stunning successes and sometimes tragic failures captured in a fast paced narrative that illuminates the central importance of foreign relations to the existence and survival of the nation and highlights its ongoing impact on the lives of ordinary citizens He shows how policymakers defined American interests broadly to include territorial expansion access to growing markets and the spread of an American way of life And Herring does all this in a story rich in human drama and filled with epic events Statesmen such as Benjamin Franklin and Woodrow Wilson and Harry Truman and Dean Acheson played key roles in America's rise to world power But America's expansion as a nation also owes much to the adventurers and explorers the sea captains merchants and captains of industry the missionaries and diplomats who discovered or charted new lands developed new avenues of commerce and established and defended the nation's interests in foreign lands From the American Revolution to the fifty year struggle with communism and conflicts in Afghanistan and Iraq From Colony to Superpower tells the dramatic story of America's emergence as superpower its birth in revolution its troubled present and its uncertain future

Foreign Attachments Tony Smith, 2005-02-15 Who speaks for America in world affairs In exploring this question Smith ranges over the history of ethnic group involvement in foreign affairs he notes the openness of our political system to interest groups and he investigates the relationship between multiculturalism and U S foreign policy

Foreign Intervention in Africa Elizabeth Schmidt, 2013-03-25 This book chronicles foreign political and military interventions in Africa from 1956 to 2010 helping readers understand the historical roots of Africa's problems
