Risky Business Canadas Changing Science Based Policy And Regulatory Regime:

Canadian Science, Technology, and Innovation Policy G. Bruce Doern, David Castle, Peter W.B. Phillips, 2016-06-01 Canadian Science Technology and Innovation Policy presents new critical analysis about related developments in the field such as significantly changed concepts of peer review merit review the emergence of big data in the digital age and the rise of an economy and society dominated by the internet and information The authors scrutinize the different ways in which federal and provincial policies have impacted both levels of government including how such policies impact on Canada's natural resources They also study key government departments and agencies involved with science technology and innovation to show how these organizations function increasingly in networks and partnerships as Canada seeks to keep up and lead in a highly competitive global system The book also looks at numerous realms of technology across Canada in universities business and government and various efforts to analyze biotechnology genomics and the Internet as well as earlier technologies such as nuclear reactors and satellite technology The authors assess whether a science and technology centred innovation economy and society has been established in Canada one that achieves a balance between commercial and social objectives including the delivery of public goods and supporting values related to redistribution fairness and community and citizen empowerment Probing the nature of science advice across prime ministerial eras including recent concerns over the Harper government's claimed muzzling of scientists in an age of attack politics Canadian Science Technology and Innovation Policy provides essential information for academics and practitioners in business and government in this crucial and complex field

The National Research Council in the Innovation Policy Era G. Bruce Doern, Richard Levesque, Institute of Public Administration of Canada, 2002-01-01 The authors show how the NRC's history is interwoven with the evolution of Canada's economic and industrial development and with the fostering of science at Canada's universities in industry and within the federal government

Strategic Science in the Public Interest G. Bruce Doern, Jeffrey S. Kinder, Jeff Kinder, 2007-01-01 The past twenty years have seen considerable shifts and struggles in government science that is in the way the state funds supports regulates conducts and uses scientific and technological activity Focusing on federal labs and agencies Strategic Science in the Public Interest explores how these labs have been located within and often buried by the larger commercially focussed federal innovation agenda G Bruce Doern and Jeffrey S Kinder examine four labs whose mandates deal with the Alberta oil sands environmental technologies wildlife research and mining and metals respectively The authors use these cases to explain why a better middle level approach to analysis is needed for strategic public interest centred government science They illustrate the importance of understanding the variety as well as the similarity of federal science and technology labs and agencies and of instituting policies that reflect this diversity The growing importance of Related Science Activities RSA is also explored as well as the core trade offs between commercial and public goods science in their mandates and their internal capacities

Policy Analysis in Canada Laurent

Dobuzinskis, Michael Howlett, David Laycock, 2007-06-30 The growth of what some academics refer to as the policy analysis movement represents an effort to reform certain aspects of government behaviour The policy analysis movement is the result of efforts made by actors inside and outside formal political decision making processes to improve policy outcomes by applying systematic evaluative rationality to the development and implementation of policy options This volume offers a comprehensive overview of the many ways in which the policy analysis movement has been conducted and to what effect in Canadian governments and for the first time in business associations labour unions universities and other non governmental organizations Editors Laurent Dobuzinskis Michael Howlett and David Laycock have brought together a wide range of contributors to address questions such as What do policy analysts do What techniques and approaches do they use What is their influence on policy making in Canada Is there a policy analysis deficit What norms and values guide the work done by policy analysts working in different institutional settings Contributors focus on the sociology of policy analysis demonstrating how analysts working in different organizations tend to have different interests and to utilize different techniques They compare and analyze the significance of these different styles and approaches and speculate about their impact on the policy process

The Oxford Handbook of Canadian Politics John Courtney, John Childs Courtney, David Smith, 2010-04-29 The Oxford Handbook of Canadian Politics provides a comprehensive overview of the transformation that has occurred in Canadian politics since it achieved autonomy nearly a century ago examining the institutions and processes of Canadian government and politics at the local provincial and federal levels It analyzes all aspects of the Canadian political system the courts elections political parties Parliament the constitution fiscal and political federalism the diffusion of policies between regions and various aspects of public policy

Canadian Nuclear Energy Policy CRUISE Conference on the Future of Nuclear Energy in Canada (1999 : Ottawa, Ont.), 2001-01-01 Focusing on the federal government but with special attention given to key changes in Ontario the analytical core of this book identifies five key nuclear energy choices and challenges that face the federal government and other Canadian policy makers

Environmental Politics and Policy in Industrialized Countries Uday Desai, 2002 Comparative analyses of environmental policy and politics in seven major industrialized nations

Presenting and Representing Environments Graham Humphrys, Michael Williams, 2006-01-27 The presentation and representation of the environment occurs throughout academia and across all news media The strict protocols of science often clash with environmental information available from sources that dwell on subjective aesthetic emotional and personal sensitivities This book challenge the reader as student teacher researcher or policy maker to reflect critically on the ways that environments are studied interpreted presented and represented in education and public policy

New Institutionalism André Lecours, 2005-01-01 Featuring discussions of comparative politics public policy and international relations this collection from editor Andr Lecours is a comprehensive examination of the subject making it a crucial addition to any political scientist s library

How Ottawa Spends, 2004-2005 G. Bruce Doern, 2004 Annotation This 25th edition

assesses the priorities spending and policy initiatives of the new Paul Martin era Contributors to this volume examine key issues of national politics and policy including Canada US relations cities social policy ethics energy sustainable development policy including Kyoto natural resources fisheries innovation policy and the services sector the central agencies and governing from the centre and next generation renewal of the federal public service **Networks, Alliances and**

Partnerships in the Innovation Process John de la Mothe, Albert N. Link, 2012-12-06 In an era of intense knowledge based globalization and technology based competition the central role of networks alliances and partnerships is now becoming recognized By looking at the dynamics of these strategic organizational activities leading authors in the field examine in this book how firms align themselves how they use networks and enter into partnerships in order to develop new or radically improved processes and how they introduce new or radically improved products to the market The topic excludes as the primary interest spatial effects such as those found in geographic clusters or in regional innovation systems The focus here is instead on the innovation process and therefore examines framework issues about how we can assess networks of innovators measurement issues for both researchers and official statisticians and impact issues for both industry strategists and policy makers Using an evolutionary perspective and drawing on a range of disciplines Networks Partnerships and Alliances explores important issues at the conceptual methodological and comparative levels concerning the construction of comparative advantage **Climate Adaptation Policy and Evidence** Peter Tangney, 2017-07-28 Evidence based

polycymaking is often promoted within liberal democracies as the best means for government to balance political values with technical considerations Under the evidence based mandate both experts and non experts often assume that policy problems are sufficiently tractable and that experts can provide impartial and usable advice to government so that problems like climate change adaptation can be effectively addressed at least where there is political will to do so This book compares the politics and science informing climate adaptation policy in Australia and the UK to understand how realistic these expectations are in practice At a time when both academics and practitioners have repeatedly called for more and better science to anticipate climate change impacts and thereby to effectively adapt this book explains why a dearth of useful expert evidence about future climate is not the most pressing problem Even when it is sufficiently credible and relevant for decision making climate science is often ignored or politicised to ensure the evidence based mandate is coherent with prevailing political economic and epistemic ideals There are other types of policy knowledge too that are arguably much more important This comparative analysis reveals what the politics of climate change mean for both the development of useful evidence and for the practice of evidence based polycymaking Canadian Energy Policy and the Struggle for Sustainable Development

G. Bruce Doern, 2005-01-01 In recent years energy policy has been increasingly linked to concepts of sustainable development In this timely collection editor G Bruce Doern presents an overview of Canadian energy policy gathering together the top Canadian scholars in the field in an examination of the twenty year period broadly benchmarked by energy

liberalization and free trade in the mid 1980s and by Canada's ratification of the Kyoto Protocol in 2002 The contributors examine issues including electricity restructuring in the wake of the August 2003 blackout the implications of the Bush Administration's energy policies energy security northern pipelines and Aboriginal energy issues provincial changes in energy policy and overall federal provincial changes in regulatory governance They also demonstrate that since per capita energy usage has actually increased in the past several years sustainable development remains very much a struggle rather than an achievement When the Kyoto Protocol and its requirements for reductions in greenhouse gas emissions are factored in the Canadian record is especially dubious in basic energy terms Canadian Energy Policy and the Struggle for Sustainable Development is key to understanding many of the issues in Canada's endeavour to live up to its energy related environmental responsibilities

Three Bio-realms G. Bruce Doern, Michael J. Prince, 2012-01-01 Biotechnology has become one of the most important issues in public policy and governance altering the boundaries between the public and the private the economic and the social and further complicating the divide between what is scientifically possible and ethically preferred Given the importance of biotechnology in shaping relations between the state science the economy and the citizenry a book that explores the Canadian biotechnology regime and its place in our democracy is timelier than ever Three Bio Realms provides the first integrated examination of the thirty year story of the democratic governance of biotechnology in Canada G Bruce Doern and Michael J Prince two recognized specialists in governance innovation and social policy look at particular network based factors that seek to promote and to regulate biotechnology inside the state as well as at broader levels Unmatched by any other book in its historical scope and range Three Bio Realms is sure to be read for years to come

Research and Innovation Policy G. Bruce Doern, Christopher Stoney, 2009-01-01 This collection is the first systematic examination of the evolving relationship between the federal government and Canadian universities as revealed through changes in federal research and innovation policies

The greening of golf Brad Millington, Brian Wilson, 2016-04-20 This electronic version has been made available under a Creative Commons BY NC open access license Golf is a major global industry The sport is played by more than 60 million people worldwide and there are more than 32 000 courses in 140 countries across the globe This book looks at the power relationships in and around golf examining whether the industry has demonstrated sufficient leadership on environmental matters to be trusted to make weighty decisions with implications for public and environmental health The first comprehensive study of the varying responses to golf related environmental issues it is based on extensive empirical work including research into historical materials and interviews with stakeholders in golf such as course superintendents protesters and health professionals The authors examine golf as a sport and as a global industry drawing on and contributing to literatures pertaining to environmental sociology global social movements institutional change corporate environmentalism and the sociology of sport

Purchase for Profit Heather Whiteside, 2015-01-01 Purchase for Profit will be important for those studying public policy in any of the areas in which public private partnerships are now being adopted

Globalization and Food Sovereignty Peter Andrée, Jeffrey Ayres, Michael J. Bosia, Marie-Josée Massicotte, 2014-01-01

This collection examines expressions of food sovereignty ranging from the direct action tactics of La V a Campesina in Brazil to the consumer activism of the Slow Food movement and the negotiating stances of states from the global South at WTO negotiations With each case the contributors explore how claiming food sovereignty allows individuals to challenge the power of global agribusiness and reject neoliberal market economics Deliberative Democracy for the Future Genevieve Fuji

Johnson, 2008-06-13 In today's world public policies are increasingly associated with social and environmental risk and scientific uncertainty Given such potential impacts on the moral freedom and equality for existing and future generations policies should reflect decision making standards beyond those of economic efficiency and technical safety They should reflect the imperatives of social justice and democratic legitimacy now and into the future Deliberative Democracy for the Future identifies an approach to ethical policy analysis that promises to serve the ends of justice and legitimacy in areas of public policy such as hazardous waste management energy generation and regulation climate change control and genomics research and commercialization Based on a wide reading of ethical approaches to policy analysis found in contemporary political theory moral philosophy and public policy literatures it evaluates these three central approaches to ethical policy analysis in light of moral dilemmas arising in a particularly timely case Canadian nuclear waste management policy The volume's central argument is that the most desirable approach to ethical policy analysis contains the philosophical tools necessary to address problems of understanding risk and safety identifying obligations to both existing and future generations and conceptualizing legitimacy conferring decision making processes Genevieve Fuji Johnson argues that neither welfare utilitarianism nor modern deontology is sufficiently equipped for these tasks She proposes that only deliberative democracy contains convincing conceptions of the good justice and legitimacy that provide for the justifiable resolution of debates about the moral foundations of public policy Responding to challenges in nuclear waste management in ways more comprehensive and more tenable than both utilitarianism and deontology deliberative policy analysis promises to be an effective approach to other cases associated with risk uncertainty and futurity Policy Glen Toner, Leslie A. Pal, Michael Prince, 2010-01-25 Assembling an informed group of scholars this volume focuses on the study and practice of central agencies regulation budgeting energy and science policy and governing instruments A overview that looks beyond Doern's tremendous body of work Policy From Ideas to Implementation is also a survey of the methods and central issues of the Canadian and international public policy disciplines

web write a balanced equation for each of the following nuclear reactions bismuth 212 decays into polonium 212 beryllium 8 and a positron are produced by the decay of an unstable nucleus neptunium 239 forms from the reaction of uranium 238 with a neutron and then spontaneously converts into plutonium 239

10 fundamentals of nuclear chemistry worksheet - Apr 12 2023

web radioactivity a nucleus that is not permanently stable is radioactive and eventually decays into another although the decay of a particular radioactive nucleus is random 50 of a collection of radioactive nuclei decays in one

nuclear reactions questions practice questions of nuclear reactions - Jun 02 2022

web positron answer b explanation the gamma rays leave the atomic number and mass numbers unaltered when they leave gamma rays in turn lower down the energy of the nucleus from a high energy state to a lower energy state this happens by the release of some electromagnetic radiation by the nucleus q4

2 4 nuclear reactions chemistry libretexts - Jul 03 2022

web jun 28 2022 the two general kinds of nuclear reactions are nuclear decay reactions and nuclear transmutation reactions in a nuclear decay reaction also called radioactive decay an unstable nucleus emits radiation and is transformed into the nucleus of one or more other elements

10 5 nuclear reactions physics libretexts - Jun 14 2023

web the answer is nuclear radioactivity that is high energy particles produced in radioactive decays heat earth from the inside figure pageindex 6 figure pageindex 6 earth is heated by nuclear reactions alpha beta and gamma decays without these reactions earth s core and mantle would be much cooler than it is now

25 3 nuclear reactions and artificially induced radioactivity - May 13 2023

web induced radioactivity occurs when a previously stable material has been made radioactive by exposure to specific radiation most radioactivity does not induce other material to become radioactive this induced radioactivity was discovered by irène curie and f

25 research questions on radioactivity and nuclear reaction - Feb 27 2022

web aug 29 2023 read more application and uses of subatomic particles 4 radon has a half life of 3 8 day plot a graph of the percentage of a sample of radon which has decayed against the time in the days 5 prove that the mass of a radioactive

isotope required to give 1 curie of radiation is equal to 8.87×10^{14} m x t 6

answer key chapter 20 chemistry atoms first 2e openstax - Nov 07 2022

web a nuclear fuel a fissionable isotope must be present in large enough quantities to sustain a controlled chain reaction the radioactive isotope is contained in tubes called fuel rods a moderator a moderator slows neutrons produced by nuclear reactions so that they can be absorbed by the fuel and cause additional nuclear reactions a coolant

radioactivity and nuclear reactions encyclopedia of the - Sep 05 2022

web may 13 2016 radioactivity and nuclear reactions pdf 02 05 2019 for the nucleus of an atom to be stable it needs a certain proportion of neutrons and protons otherwise it undergoes a series of disintegrations to reach a stable state by removing excess particles

radioactivity and nuclear reactions chapter review flashcards - Oct 18 2023

web the amount of fissionable material required so that each fission reaction produces approximately one more fission reaction is study with quizlet and memorize flashcards containing terms like bubble chamber alpha particle gamma ray and more

31 e radioactivity and nuclear physics exercises - Sep 17 2023

web ionizing radiation interacts with matter by scattering from electrons and nuclei in the substance based on the law of conservation of momentum and energy explain why electrons tend to absorb more energy than nuclei in these interactions 4 what characteristics of radioactivity show it to be nuclear in origin and not atomic 5

explainer the difference between radiation and radioactivity - May 01 2022

web dec 9 2013 radioactivity is the decay or rearrangement of an atom s nucleus michael kappel radioactivity is the term given to the breaking up decay or rearrangement of an atom s nucleus decay occurs

3 1 nuclear chemistry and radioactive decay - Jul 15 2023

web as with chemical reactions nuclear reactions are always balanced when a nuclear reaction occurs the total mass number and the total charge remain unchanged nuclei that have unstable n p ratios undergo spontaneous radioactive decay
