Rituals of Manhood Gilbert H. Herdt,2017-09-08 Rituals of Manhood provides some of the most dramatic and richly textured accounts of ritual passages known to anthropologists of the late twentieth century When in an earlier time anthropologists and sociologists described collective initiation rituals the political and gender aspects of these practices were seldom underscored Today the power relationships of the body and domination and the social arena of gender politics are widely regarded as critical to the cultural meaning and interpretation *Secrecy and Cultural Reality* Gilbert

Herdt,2010-02-22 A compelling study of male ritual secrecy and its impact on the cultures of Melanesia and Papua New Guinea

The Gender of the Gift Marilyn Strathern,1988-09-15 In the most original and ambitious synthesis yet undertaken in Melanesian scholarship Marilyn Strathern argues that gender relations have been a particular casualty of unexamined assumptions held by Western anthropologists and feminist scholars alike The book treats with equal seriousness and with equal good humor the insights of Western social science feminist politics and ethnographic reporting in order to rethink the representation of Melanesian social and cultural life This makes The Gender of the Gift one of the most sustained critiques of cross cultural comparison that anthropology has seen and one of its most spirited vindications *Routledge*

International Handbook of Ignorance Studies Matthias Gross,Linsey McGoey,2015-05-15 Once treated as the absence of knowledge ignorance today has become a highly influential topic in its own right commanding growing attention across the natural and social sciences where a wide range of scholars have begun to explore the social life and political issues involved in the distribution and strategic use of not knowing The field is growing fast and this handbook reflects this interdisciplinary field of study by drawing contributions from economics sociology history philosophy cultural studies anthropology feminist studies and related fields in order to serve as a seminal guide to the political legal and social uses of ignorance in social and political life Chapter 33 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license available here https://tandfbis.s3.us-west-2.amazonaws.com/rftfiles/docs/OpenAccess/Chapters/9780415718967_oachapter33.pdf

Religion and Practical Reason Frank E. Reynolds,David Tracy,1994-10-25 This book contains programmatic essays that focus on broad ranging proposals for re envisioning a discipline of comparative philosophy of religions It also contains a number of case studies focussing on the interpretation of particular religious historical data from comparatively oriented philosophical perspectives [Religions of Melanesia](#) Garry Trompf,2006-09-30 Melanesia boasts over one quarter of the world's distinct religions and presents the most complex religious panorama on earth The region is famous for its unusual new religious movements that have adapted traditional

beliefs to modernity in surprising ways As the first bibliographical survey to comprehensively cover the entire region Religions of Melanesia is an invaluable research aid for anyone interested in this growing field Trompf s work is a complete listing of scholarly publications and provides readable and concise descriptions that will clearly guide the researcher toward the most relevant sources This survey covers 2188 entries organized topically and regionally Trompf covers such subjects as traditional and modern belief systems and the emergent indigenous Christianity that has taken root Regional coverage includes Irian Jaya Papua New Guinea Solomon Islands Vanuatu New Caledonia and Fiji Breaking the Spell Daniel C. Dennett,2006-02-02 The New York Times bestseller a crystal clear constantly engaging Jared Diamond exploration of the role that religious belief plays in our lives and our interactions For all the thousands of books that have been written about religion few until this one have attempted to examine it scientifically to ask why and how it has shaped so many lives so strongly Is religion a product of blind evolutionary instinct or rational choice Is it truly the best way to live a moral life Ranging through biology history and psychology Daniel C Dennett charts religion s evolution from wild folk belief to domesticated dogma Not an antireligious screed but an unblinking look beneath the veil of orthodoxy Breaking the Spell will be read and debated by believers and skeptics alike **Handbook of Material Culture** Chris Tilley,Webb Keane,Susanne Kuechler,Mike Rowlands,Patricia Spyer,2006-01-05 The study of material culture is concerned with the relationship between persons and things in the past and in the present in urban and industrialized and in small scale societies across the globe The Handbook of Material Culture provides a critical survey of the theories concepts intellectual debates substantive domains and traditions of study characterizing the analysis of things It is cutting edge rather than simply reviewing the field as it currently exists It also attempts to chart the future the manner in which material culture studies may be extended and developed The Handbook of Material Culture is divided into five sections Section I maps material culture studies as a theoretical and conceptual field Section II examines the relationship between material forms the human body and the senses Section III focuses on subject object relations Section IV considers things in terms of processes and transformations in terms of production exchange and consumption performance and the significance of things over the long term Section V considers the contemporary politics and poetics of displaying representing and conserving material and the manner in which this impacts on notions of heritage tradition and identity The Handbook charts an interdisciplinary field of studies that makes an unique and fundamental contribution to an understanding of what it means to be human It will be of interest to all who work in the social and historical sciences from anthropologists and archaeologists to human geographers to scholars working in heritage design and cultural studies **Fredrik Barth** Thomas Hylland Eriksen,2015-04-20 Fredrik Barth is one of the towering figures of twentieth century anthropology This intellectual history traces the development of Barth s ideas and explores the substance of his contributions In an accessible style Thomas Hylland Eriksen s biographical study reveals the magic of ethnography to professional anthropologists and non practitioners alike Exploring his six decade career it follows

Barth from early ecological studies in Pakistan to political studies in Iran to groundbreaking fieldwork in Norway New Guinea Bali and Bhutan Eriksen argues that Barth's voracious appetite for fieldwork holds the key to understanding his remarkable intellectual development and the insights it produced The book raises many of the same questions that emerge from Barth's own work of unity and diversity of culture and relativism of art and science

Ritual in Its Own Right Don Handelmann, Galina Lindquist, 2005-01-01 Historically canonic studies of ritual have discussed and explained ritual organization action and transformation primarily as representations of broader cultural and social orders In the present as in the past less attention is given to the power of ritual to organize and effect transformation through its own dynamics Breaking with convention the contributors to this volume were asked to discuss ritual first and foremost in relation to itself in its own right and only then in relation to its socio cultural context The results attest to the variable capacities of rites to effect transformation through themselves and to the study of phenomena in their own right as a fertile approach to comprehending ritual dynamics

Alternative Leadership Strategies in the Prehispanic Southwest Barbara J. Mills, 2015-09-01 In considerations of societal change the application of classic evolutionary schemes to prehistoric southwestern peoples has always been problematic for scholars Because recent theoretical developments point toward more variation in the scale hierarchy and degree of centralization of complex societies this book takes a fresh look at southwestern prehistory with these new ideas in mind This is the first book length work to apply new theories of social organization and leadership strategies to the prehispanic Southwest It examines leadership strategies in a number of archaeological contexts from Chaco Canyon to Casas Grandes from Hohokam to Zuni to show striking differences in the way that leadership was constructed across the region These case studies provide ample evidence for alternative models of leadership in middle range societies By illustrating complementary approaches in the study of political organization they offer new insight into power and inequality They also provide important models of how today's archaeologists are linking data to theory providing a basis for comparative analysis with other regions

Processual Theory and Social Formations in the Southwest Gary M Feinman **Cosmologies of Pure Realms and the Rhetoric of Pollution** Yohan Yoo, James W. Watts, 2021-05-30 This collaboration between two scholars from different fields of religious studies draws on three comparative data sets to develop a new theory of purity and pollution in religion arguing that a culture's beliefs about cosmological realms shapes its pollution ideas and its purification practices The authors of this study refine Mary Douglas foundational theory of pollution as matter out of place using a comparative approach to make the case that a culture's cosmology designates which materials in which places constitute pollution By bringing together a historical comparison of Ancient Near Eastern and Mediterranean religions an ethnographic study of indigenous shamanism on Jeju Island Korea and the reception history of biblical rhetoric about pollution in Jewish and Christian cultures the authors show that a cosmological account of purity works effectively across multiple disparate religious and cultural contexts They conclude that cosmologies reinforce fears of pollution and also that embodied experiences of purification help generate cosmological ideas Providing an innovative insight into a key topic of ritual studies this book will be of vital interest to scholars and graduate students in religion biblical studies and anthropology Religion as a Human Capacity Timothy Light, Brian C. Wilson, 2018-08-14 Prepared in honor of E Thomas Lawson the essays in Religion as a Human Capacity represent diverse points of view in the study of religion today Part I Theoretical Studies offers a broad range of cognitivist theoretical explorations while Part II Studies in Religious Behavior presents cutting edge applications of cognitive and other contemporary theories to religious data This volume celebrates Lawson's critical contributions to cognitive studies of religion and the degree to which his ultimate goal of scholarship as a search for truth is matched by those who have been his colleagues and been influenced by him Religion as a Human Capacity will be of interest to all those concerned with theory and method in the academic study of religion **The Oxford Handbook of the Sociology of Religion** Peter Clarke, 2009 An expert team of international scholars provide fifty one essays as entry points into the sociological study and understanding of religion and in depth surveys into its changing forms and content in the contemporary world Issues discussed range from ecology to law art to cognitive science crime to health care **Schooling as a Ritual Performance** Peter McLaren, 1999 One of the most compelling ethnographies of school ever written Schooling as a Ritual Performance has for over a decade made its mark among educators sociologists and those seeking to understand the cultural meaning of classroom practices Written by one of the major world figures on the educational left Schooling as a Ritual Performance is a pioneering study of the partnership between capitalism and religion and the educational offspring it produces Not since Paul Willis Learning to Labor has an educational ethnography about schooling so pushed the limits of current social theory Now in a new edition to this classic text McLaren engages with some of the latest anthropological thinking and presents readers with a powerful manifesto for critical ethnography in the coming millennium The Anthropology of Ignorance C. High, A. Kelly, J. Mair, 2012-03-27 The question of ignorance occupies a central place in anthropological theory and practice This volume

argues that the concept of ignorance has largely been pursued as the opposite of knowledge or even its obverse Though they cover wide empirical ground from clients of a fertility treatment center in New York to families grappling with suicide in Greenland contributors share a commitment to understanding the concept as a productive social practice Ultimately The Anthropology of Ignorance asks whether an academic commitment to knowledge can be squared with lived significance of ignorance and how taking it seriously might alter anthropological research practices

Soils Stones and Symbols Cultural Perceptions of the Mineral World Nicole Boivin, Owic, 2013-07-04 Ethnographic and archaeological records feature a rich body of data suggesting that understandings of the mineral world are in fact both culturally variable and highly diverse Soils Stones and Symbols highlights studies from the fields of anthropology archaeology and philosophy that demonstrate that not all individuals and societies view minerals as commodities to be exploited for economic gain or as passive objects of disembodied scientific enquiry In visiting such diverse contexts as contemporary India colonial period Australia and prehistoric Europe and the Americas the papers in this volume demonstrate that in pre industrial societies minerals are often symbolically meaningful ritually powerful and deeply interwoven into not just economic and material but also social cosmological mythical spiritual and philosophical aspects of life In addressing the theme of the mineral world this book is not only unique within the social and geo sciences but also at the forefront of recent attempts to demonstrate the importance of materiality to processes of human cognition and sociality It draws upon theoretical developments relating to meaning experience the body and material culture to demonstrate that studies of rock art landscapes architecture technology and resource use are all linked through the minerals that constantly surround us and are the focus of our never ending attempts to understand and transform them
