Ritual Communication From Everyday Conversation To Mediated Ceremony:

Ritual Communication Eric W. Rothenbuhler, 1998-06-24 Ritual and ceremonial as formal modes of conduct are equally ubiquitous appearing in everything from modes of talk and rules of politeness to elaborate protocols for events of state Ritual and rite ceremonial and ceremony are symbolic social actions modes of communication that implicate individuals in the social order creating realities whilst expressing ideas and attitudes about them This book combines bibliographic essay and theory construction to provide a unique perspective on ritual as a special and powerful form of communication *Being Present: Mobile Cinema in Kham Tibetan Areas* Jianbin Guo, Jingjing Chen, 2024-07-31 This book presents the restoration of rural mobile cinema network in the Great Triangle region at the conjunction of Yunnan Sichuan and Tibet in China in the new century which has added a new chapter to the long standing complex relationship between cinema and social change Based on five years of multi sited fieldwork abundant interviews and oral history narratives this work shows the entanglement of the State the projectionists and local film viewers in the historical and social context in a holistic analytic framework By using the key concept of being present to examine the tangling relations between the actors in mobile cinema as social practice the work argues that mobile cinema and contemporary Chinese society are mutually constructed in both textual and practical level *Trading Up* Lynne Chisholm, Bryony Hoskins, Christian Glahn, 2005-01-01 Proceedings of the Research Seminar on Non formal Education Learning in the Youth Sector and the Third Sector under the Partnership Programme on Youth Research 2002 2005 between the EC and the Council of Europe held in Strasbourg in April 2004 Living with Algorithms Ignacio Siles, 2023-04-25 A nuanced account from a user perspective of what it s like to live in a datafied world We live in a media saturated society that increasingly transforms our experiences relations and identities into data others can analyze and monetize Algorithms are key to this process surveilling our most mundane practices and to many their control over our lives seems absolute In *Living with Algorithms* Ignacio Siles critically challenges this view by surveying user dynamics in the global south across three algorithmic platforms Netflix Spotify and TikTok and finds surprisingly a more balanced relationship Drawing on a wealth of empirical evidence that privileges the user over the corporate Siles examines the personal relationships that have formed between users and algorithms as Latin Americans have integrated these systems into the structures of everyday life enacted them ritually participated in public with and through them and thwarted them Sometimes users follow algorithms Siles finds and sometimes users resist them At times users do both Agency lies in the navigation of the spaces in between By analyzing what we do with algorithms rather than what algorithms do to us *Living with Algorithms* clarifies the debate over the future of datafication and whether we have a say in its development Concentrating on an understudied region of the global south the book provides a new perspective on the commonalities and differences among users within a global ecology of technologies **Historical Pragmatics** Andreas H. Jucker, Irma Taavitsainen, 2010-09-22 The Handbook of Historical Pragmatics provides an authoritative and accessible overview of this
