Surrealists in New York Charles Darwent, 2023-04-25 In 1957 the American artist Robert Motherwell made an unexpected claim I have only known two painting milieus well the Parisian Surrealists with whom I began painting seriously in New York in 1940 and the native movement that has come to be known as abstract expressionism but which genetically would have been more properly called abstract surrealism Motherwells bold assertion that Abstract Expressionism was neither new nor local but born of a brief liaison between America and France verged on the controversial *Surrealists in New York* tells the story of this liaison and the European exiles who brought Surrealism with them an artistic exchange between the Old World and the New centring on taciturn printmaker Stanley William Hayter and the legendary Atelier 17 print studio he founded Here artists experiments literally pushed the boundaries of modern art It was in Hayters studio that Jackson Pollock found the balance of freedom and control that would culminate in his distinctive drip paintings The impact of Max Ernst Andr Masson Louise Bourgeois and other noted migr s on the work of Motherwell Pollock Mark Rothko and the American avant garde has for too long been quietly written out of art history Drawing on first hand documents interviews and archive materials Charles Darwent brings to life the events and personalities from this crucial encounter In so doing he reveals a fascinating new perspective on the history of the art of the twentieth century Art and the Home Imogen Racz, 2015-01-26 Our homes contain us but they are also within us They can represent places to be ourselves to recollect childhood memories or to withdraw into adult spaces of intimacy they can be sites for developing rituals family relationships and acting out cultural expectations Like the personal social and cultural elements out of which they are constructed homes can be not only comforting but threatening too The home is a rich theme running through post war western art and it

continues to engage contemporary artists today yet it has been the subject of relatively little critical writing Art and the Home Comfort Alienation and the Everyday is the first single authored up to date book on the subject Imogen Racz provides a theme led discussion about how the physical experience of the dwelling space and the psychological complexities of the domestic are manifested in art focusing mainly on sculpture installation and object based practice discussing the work and ideas of artists as diverse as Louise Bourgeois Gordon Matta Clark George Segal and Cornelia Parker within their artistic and cultural contexts

The Aesthetic Clinic Fernanda Negrete, 2020-10-01 In *The Aesthetic Clinic* Fernanda Negrete brings together contemporary women writers and artists well known for their formal experimentation Louise Bourgeois Sophie Calle Lygia Clark Marguerite Duras Roni Horn and Clarice Lispector to argue that the aesthetic experiences afforded by their work are underwritten by a tenacious and uniquely feminine ethics of desire To elaborate this ethics Negrete looks to notions of sublimation and feminine sexuality developed by Freud Baudelaire Mallarmé and Nietzsche and their reinvention with and after Jacques Lacan including in the schizoanalysis of Gilles Deleuze and Félix Guattari But she also highlights how psychoanalytic theory draws on writing and other creative practices to conceive of unconscious processes and the transformation sought through analysis Thus the aesthetic clinic of the book's title a term Negrete adopts from Deleuze is not an applied psychoanalysis or schizoanalysis Rather *The Aesthetic Clinic* privileges the call and constraints issued by each woman's individual work Engaging an artwork here is less about retrieving a hidden meaning through interpretation than about receiving a precise transmission of sensation a *jouissance* irreducible to meaning Not only do art and literature serve an urgent clinical function in Negrete's reading but sublimation itself requires an embrace of femininity

Psychic Bisexuality Rosine Jozef Perelberg, 2018-02-06 Winner of the American Board Academy of Psychoanalysis Edited Book Prize for 2019 *Psychic Bisexuality A British French Dialogue* clarifies and develops the Freudian conception according to which sexual identity is not reduced to the anatomical difference between the sexes but is constructed as a psychic bisexuality that is inherent to all human beings The book takes the Freudian project into new grounds of clinical practice and theoretical formulations and contributes to a profound psychoanalytic understanding of sexuality The object of psychoanalysis is psychosexuality which is not in the final analysis determined by having a male or a female body but by the unconscious phantasies that are reached *à posteriori* through tracing the nuanced interplay of identifications as they are projected enacted and experienced in the transference and the countertransference in the analytic encounter Drawing on British and French Freudian and post Freudian traditions the book explores questions of love transference and countertransference sexual identity and gender to set out the latest clinical understanding of bisexuality and includes chapters from influential French analysts available in English for the first time *Psychic Bisexuality A British French Dialogue* will appeal to psychoanalysts and psychoanalytic psychotherapists as well as gender studies scholars

has focused on the AIDS epidemic The HIV epidemic animates this collection of essays by a noted artist writer and activist So total was the burden of illness mine and others that the only viable response other than to cease making art entirely was to adjust to the gravity of the predicament by using the crisis as a lens writes Gregg Bordowitz a film and video maker whose best known works Fast Trip Long Drop 1993 and Habit 2001 address AIDS globally and personally In The AIDS Crisis Is Ridiculous the title essay is inspired by Charles Ludlam founder of the Ridiculous Theater Company Bordowitz follows in the tradition of artist writers Robert Smithson and Yvonne Rainer by making writing an integral part of an artistic practice Bordowitz has left his earliest writings for the most part unchanged to preserve he says both the youthful exuberance and the palpable sense of fear created by the early days of the AIDS crisis After these early essays the writing becomes more experimental sometimes mixing fiction and fact included here is a selection of Bordowitz's columns from the journal Documents New York Was Yesterday Finally in his newest essays he reformulates early themes and in My Postmodernism written for Artforum's fortieth anniversary issue and More Operative Assumptions written especially for this book he reexamines the underlying ideas of his practice and sums up his theoretical concerns In his mature work Bordowitz seeks to join the subjective the experience of having a disease and the objective the fact of the disease as a global problem He believes that this conjunction is necessary for understanding and fighting the crisis If it can be written he says then it can be realized

LANDSCAPES Christine Lai, 2025-05-13 Deftly textured with journal entries narrative art history and criticism What emerges is a hypnotic novel that meditates on loss and violence A gorgeous and accomplished debut Electric Literature Set in a near future fraught with ecological collapse Christine Lai s mesmerising and prismatic debut novel Landscapes is a brilliant exploration of memory empathy preservation and art as an instrument for recollection and renewal In the English countryside decimated by heat and drought Penelope archives what remains of an estate s once notable collection As she catalogues the library s contents she keeps a diary of her final months in the dilapidated country house that has been her home for two decades and a refuge for those who have been displaced by disasters Out of necessity Penelope and her partner Aidan have sold the house and its scheduled demolition marks the pressing deadline for completing the archive But with it also comes the impending return of Aidan s brother Julian at whose hands Penelope suffered during a brief but violent relationship twenty two years before As Julian s visit looms Penelope finds herself unable to suppress the past clinging to art as a means of understanding of survival and of reckoning Recalling the works of Rachel Cusk and Kazuo Ishiguro Landscapes is an elegiac and spellbinding blend of narrative essay and diary that reinvents the country house novel for our age of catastrophe announcing the arrival of an extraordinarily gifted new writer

The Inhabitable Flesh of Architecture Marcos Cruz, 2017-03-02 Today s architecture has failed the body with its long heritage of purity of form and aesthetic of cleanliness A resurgence of interest in flesh especially in art has led to a politics of abjection completely changing traditional aesthetics and is now giving light to an alternative discussion about the body in architecture This book is dedicated to a future vision of the body in architecture questioning the contemporary relationship between our Human Flesh and the

changing Architectural Flesh Through the analysis and design of a variety of buildings and projects Flesh is proposed as a concept that extends the meaning of skin one of architecture s most fundamental metaphors It seeks to challenge a common misunderstanding of skin as a flat and thin surface In a time when a pervasive discourse about the impact of digital technologies risks turning the architectural skin ever more disembodied this book argues for a thick embodied flesh by exploring architectural interfaces that are truly inhabitable Different concepts of Flesh are investigated not only concerning the architectural and aesthetic but also the biological aspects The latter is materialised in form of Synthetic Neoplasms which are proposed as new semi living entities rather than more commonly derived from scaled up analogies between biological systems and larger scale architectural constructs These neoplastic creations are identified as partly designed object and partly living material in which the line between the natural and the artificial is progressively blurred Hybrid technologies and interdisciplinary work methodologies are thus required and lead to a revision of our current architectural practice

Yayoi Kusama Midori Yamamura, 2024-03-19 An examination of Yayoi Kusama s work that goes beyond the usual biographical interpretation to consider her place in postwar global art history Yayoi Kusama is the most famous artist to emerge from Japan in the period following World War II Part of a burgeoning international art scene in the early 1960s she exhibited in New York with Andy Warhol Donald Judd Claes Oldenburg and other Pop and Minimalist luminaries and in Europe with the Dutch Nul and the German Zero artist groups Known for repetitive patterns sewn soft sculptures naked performance and suggestive content Kusama s work anticipated the politically charged feminist art of the 1970s But Kusama and her work were soon eclipsed by a dealer controlled art market monopoly of white male American artists Returning to Japan in 1973 Kusama became almost as famous for her self proclaimed mental illness and permanent residence in a psychiatric hospital as she was for her art In this book Midori Yamamura eschews the usual critical fascination with Kusama s biography to consider the artist in her social and cultural milieu By examining Kusama s art alongside that of her peers Yamamura offers a new perspective on Kusama s career Yamamura shows that Kusama who came of age in totalitarian wartime Japan embraced art as an anticonformist pursuit seeking a subjective autonomy that resulted in the singular expression of her art Examining Kusama s association with European and New York art movements of the 1960s and her creation of psychedelic light and sound Happenings Yamamura argues that Kusama and her heterogeneous peers defied and undermined various pillars of modernity during the crucial transition from the modern nation state to global free market capitalism The art market rediscovered Kusama in the 1990s and she has since had a series of high profile exhibitions Recounting Kusama s story Yamamura offers an incisive penetrating analysis of postwar art s globalization as viewed from the periphery

Anamnesia Peter Collier, Anna Magdalena Elsner, Olga Smith, 2009 Memory has always been crucial to French literature and culture as a means of mediating the relationship between perception and knowledge of the individual coming to terms with his identity in time Relatively recently memory has also emerged as the key force in the creation of a collective consciousness in the wider

perspective of French cultural history This collection of essays selected from the proceedings of a seminar on Memory given by Dr Emma Wilson at the University of Cambridge offers a fresh evaluation of memory as both a cultural and an individual phenomenon in modern and contemporary French culture including literature cinema and the visual arts Anamnesia the book's title develops the Aristotelian concept of anamnesis recollection as a dynamic and creative process which includes forgetting as much as remembering concealment as much as imagination Memory in this extremely diverse range of essays is therefore far from being presented as a straightforward process of recalling the past but emerges as the site of research and renegotiation of contradictions and even aporia
