Western Esotericism Aaron French, 2025-03-10 This book challenges previous definitions of modernity by comparing Max Weber 1864 1920 often considered the most important sociologist of the 20th century and Rudolf Steiner 1861 1925 founder of Waldorfp dagogik and the esoteric social reform movement of anthroposophy While acknowledging that Weber and Steiner were different in several respects this research illustrates that the individual histories of these two thinkers are more entangled than previously recognized This includes the influence of esotericism on their thinking as well as their profound concern with science and technological change and an openness to the religious and philosophical concepts of the civilizations of South and East Asia Demonstrating the importance of non European influences for a full understanding of modernity this book will be a valuable resource for students and scholars of Asian and European philosophy social theory and Asian society

Max Weber's Theory of Modernity Michael Symonds, 2016-03-03 This book illuminates an important dimension of the work of Max Weber Weber's theory of meaning and modernity is articulated through an understanding of his account of the way in which the pursuit of meaning in the modern world has been shaped by the loss of Western religion and how such pursuit gives sense to the phenomena of human suffering and death Through a close scholarly reading of Weber's extensive writings and Vocation Lectures the author explores the concepts of paradox and brotherliness as found in Weber's work in order to offer an original exposition of Weber's actual theory of how meaning and meaninglessness work in the modern world In addition to making a substantial and highly original contribution to the sociology of modernity the book applies the theory of meaning extracted from Weber's thought addressing the claim that Weber's work has been rendered out dated by the supposed re-enchantment of the modern world as well as discussing the ways this theory can contribute to our understanding of the development of specific forms of modernity A rigorous examination of the thought of one of the most important figures in classical sociology this volume will appeal to scholars of sociology social theory and philosophy with interests in modernity Weber and the concept of meaning

Men In The Public Eye Jeff Hearn, 2006-05-11 Men in the Public Eye reveals why men's domination in and of the public sphere is a vital feature of gender relations in patriarchy It also shows how public domains dominate private domains contributing to the intensification of public patriarchies Jeff Hearn explores these important issues by focusing on the period 1870-1920 when there was massive growth and transformation in the power of the public domains He demonstrates that these historical debates and dilemmas are still relevant today as men search for new postmodern forms of masculinities

Boundaries of Touch Jean Halley, 2010-10-01 A history of the shifting and conflicting ideas about when where and how we should touch our children Discussing issues of parent-child contact ranging from breastfeeding to sexual abuse Jean O Malley Halley traces the evolution of mainstream ideas about touching between adults and children over the course of the twentieth century in the United States Debates over when a child should be weaned and whether to allow a child to sleep in the parent's bed reveal deep differences in conceptions of appropriate adult-child contact Boundaries of Touch shows how arguments about adult-child touch have been politicized simplified and bifurcated into naturalist and behaviorist viewpoints thereby sharpening certain binary constructions such as mind-body and male-female Halley discusses the gendering of ideas about touch that were advanced by influential social scientists and parenting experts including Benjamin Spock Alfred C Kinsey and Luther Emmett Holt She also explores how touch ideology

fared within and against the post World War II feminist movements especially with respect to issues of breastfeeding and sleeping with a child versus using a crib In addition to contemporary periodicals and self help books on child rearing Halley uses information gathered from interviews she conducted with mothers ranging in age from twenty eight to seventy three Throughout she reveals how the parent child relationship far from being a private or benign subject continues as a highly contested politicized affair of keen public interest

Masculinity and the British Organization Man since 1945

Michael Roper, 1994-01-20 The post war period is often regarded as a time when Britain underwent its managerial revolution the family firm and the gentleman amateur giving way to the large bureaucracy and the trained management expert Yet the conception of modern management as an objective process could hardly be further from the truth Drawing on detailed life history interviews with the post war generation of organization men this study explores the intimacies that operate among men in management It argues that despite the rise of professional management relations between managers continue to function in highly subjective ways The pleasure of technical innovation or of seeing a new product through to the market the mixture of rivalry and patronage that surrounds management succession the hard bargaining of industrial relations at every level managerial functions involve the dramatization of emotions among men By challenging the enduring myth of the rational organization man this book sheds new light on gender segregation in management It argues that the exclusion of women from senior positions cannot be understood simply as the outcome of unprofessional practices A focus on the emotional relations between male managers reveals the psychic dimensions of exclusionary behaviour An emotional economy flourishes among men in management but its workings have been hidden by the myth of the rational organization man

Women and Citizenship Marilyn Friedman, 2005-10-27 The notion of citizenship is complex it can be at once an identity a set of rights privileges and responsibilities an elevated and exclusionary status a relationship between individual and state and more In recent decades citizenship has attracted interdisciplinary attention particularly with the transnational growth of Western capitalism Yet citizenship s relationship to gender has gone relatively unexplored despite the globally pervasive denial of citizenship to women historically and in many places ongoing today This highly interdisciplinary volume explores the political and cultural dimensions of citizenship and their relevance to women and gender Containing essays by a well known group of scholars including Iris Marion Young Alison Jaggar Martha Nussbaum and Sandra Bartky this book examines the conceptual issues and strategies at play in the feminist quest to give women full citizenship status The contributors take a fresh look at the issues going beyond conventional critiques and examine problems in the political and social arrangements practices and conditions that diminish women s citizenship in various parts of the world
