Love Scents How Your Natural Pheromones Influence Your Relationships Your Moods Who You Love:

Love Scents Michelle Kodis, David T. Moran, Deborah Houy, 1998 We often talk about possessing a sixth sense an inexplicable intuition about certain people or situations that later proves to be correct What if new evidence showed that the sixth sense wasn't so inexplicable after all Pheromones a form of chemical communication have been long known to exist in the animal kingdom and are one of the strongest forces guiding behavior Only recently has science discovered the importance of human pheromones silent messengers providing unconscious clues about the people we come in contact with from information about our heredity and temperament to our sexual availability Now a team of leading pheromone researchers and scientific journalists reveal the primal secrets of our sixth sense how and why it evolved its effect on our daily lives and its possible uses in altering mood and behavior This entertaining book will help you understand your own senses your reactions to everyday situations and how to harness the power of this sense to fulfill your total potential **The Highly Sensitive Person in Love** Elaine N. Aron, Ph.D., 2009-11-04 Do you fall in love hard but fear intimacy Are you sick of being told that you are too sensitive Do you struggle to respect a less sensitive partner Or have you given up on love afraid of being too sensitive or shy to endure its wounds Statistics show that 50 percent of what determines divorce is genetic temperament And if you are one of the 20 percent of people who are born highly sensitive the risk of an unhappy relationship is especially high Your finely tuned nervous system which picks up on subtleties and reflects deeply would be a romantic asset if both you and your partner understood you better But without that understanding your sensitivity is likely to be making your close relationships painful and complicated Based on Elaine N Aron's groundbreaking research on temperament and intimacy The Highly Sensitive Person in Love offers practical help for highly sensitive people seeking happier healthier romantic relationships From low stress fighting to sensitive sexuality the book offers a wealth of practical advice on making the most of all personality combinations Complete with illuminating self tests and the results of the first survey ever done on sex and temperament The Highly Sensitive Person in Love will help you discover a better way of living and loving **The Great Pheromone Myth** Richard L. Doty, 2010-02 For more than 50 years researchers have identified pheromones as the triggers for a wide range of mammalian behaviors and endocrine responses In this book author rejects this idea and states bluntly that in contrast to insects mammals do not have pheromones book title directly challenges ideas about the role chemicals play in mammalian behavior and reproductive processes Book jacket **Anatomy of Spirituality: Portrait of the Soul** Chander Behl, 2015-04-27 The domain of spirituality separated from its theological overburden believes in the existence of a spiritual self presumed to be distinctly separate from the psychological self The spiritual eternal self also known as the soul or spirit sometimes supported by an overarching Spirit is asserted to be operating behind the ephemeral self This book takes a contrarian stance it argues that the premise of the soul concept is obtained through the magic of language maintained through the marvel of the brain's biochemistry and sustained through the mirage of the psychological

juggernauts of the brain The magic the marvel and the mirage together bring about subtle shifts as the linguistic brain suppresses many psychological details habitually applies mental templates such as inversions and dichotomies and enhances its language by coining religious and spiritual metaphors The consequence of these changes is that the usual flickering self begins to be impressed by itself believing it is buttressed by something transcendental and eternal within the soul or the spirit The self although indoctrinated during its formative years also begins to assimilate and accept the opinion that the overwhelming weight of religious doctrines and dogmas the overburden signifies as the legitimate proof for the eternal soul

The Illustrated Guide to Extended Massive Orgasm Steve Bodansky,Vera Bodansky,2013-03-15 In this companion to their best selling book Extended Massive Orgasm Steve and Vera Bodansky give much more detail about the best hand and body positions for performing and receiving EMO More than 70 photographs and drawings illustrate genital anatomy and optimum positions for manually stimulating a partner And while the first book focused mainly on female sexual pleasure The Illustrated Guide to Extended Massive Orgasm covers new ground in the area of male arousal and orgasm The Bodanskys also highlight topics such as unknown erogenous zones the introitus and the hidden cock enhancing sensitivity the relationship between hand position and stroking communication how to ask for what you like and how to talk dirty Written for people of all sexual orientations this book is a playful tool for partners of any age wishing to explore new depths of sexual pleasure Orgasm is no longer just a fleeting moment but the beginning of lasting arousal that goes far beyond the bedroom

Love Scents Michelle Kodis,David (FWD) Berliner,1998-08-01 Pheromones are invisible chemical messages that each of us emits constantly through the skin These messages carry a person s genetic imprint and reveal important info about heredity temperament and sexual availability Here the leading experts in the field take us to the cutting edge of science to reveal the primal secrets of pheromones Drawn from in depth interviews with scientists and replete with true stories this book shows not only how you can harness the power of this extraordinary sense to improve your love life and other relationships but how scientists may soon use them to help you lose weight get a better night s sleep overcome anxiety treat disease and much more

Blueprint Small Michelle Kodis,2003-03-24 When it comes to deciding on the size of a home or living space one question must be asked How much space is enough Americans often relate enough space to dimensions rather than to how a space will really be enjoyed In *Blueprint Small* Michelle Kodis examines small spaces each 1500 square feet or less from a wide spectrum of locations budgets and individual styles each chosen because they illustrate that scaling back in size doesn t have to mean scaling back in comfort spaciousness or beauty From a sleek urban apartment to a funky mountain home to a renovated beach house *Blueprint Small* reveals how smaller homes invite rather than overwhelm comfort rather than alienate The projects offered here represent a variety of functions locations and environments combining the technical aspects of building and using small spaces with the stories of the people who live in them *Blueprint Small* invites you to explore inspiring and imaginative ways to inhabit smaller spaces and still live large Michelle Kodis is a freelance
