Love Detour:

Cosmically Curious Len Jepson, 2018-04-23 Cosmically Curious can be a convincer for being very curious about everything It can change ones views of existence which can be fun strange or creepy Len Jepson a longtime pastor and lifelong philosopher draws upon philosophies theologies and physics to reveal new curiosities about consciousness He observes that if there is anything we feel with certainty it is that the world we experience is real Each morning we take for granted that the iPhone with the alarm set is real because we can see touch and hear it and turn it off We can climb into a vehicle and drive to work We can observe the yellow arches of McDonalds still lighted in the predawn grayness and a myriad of lighted arch rivals It seems without question that out there around us independent and apart from us exists a physical world But what if our assumptions are wrong Join the author as he questions reality explores unknowns examines a spectrum of spirituality and encourages everyone to be very curious

What Does It Mean to 'Make' Love? Gérard Pommier, 2024-10-25 *What Does It Mean to Make Love* shows how the choice of gender does not conform to anatomy and is based on an often unrecognised psychic bisexuality Everyone chooses a gender by repressing another gender which becomes the site of both an attraction and a conflict a war of the sexes the contingencies of which animate desire Gérard Pommier explores phantasy desire and perversion and their role in sexual machinery before considering the question of orgasm Pommier's work demonstrates that the analysis of orgasm brings out a political dimension and that aspects of both social and personal life are illuminated by the study of how we think consciously and unconsciously about orgasm and the role we ascribe to it This book makes valuable contributions to the study of sexuality and will be of interest to all psychoanalysts and students of psychoanalysis as well as those in the fields of gender studies anthropology and psychology

Treading Boldly through a Pornographic World Daniel Weiss, Joshua Glaser, 2021-06-15 Parents today are the first generation to raise kids

in a digitally connected porn saturated world Porn can be accessed in locker rooms cafeterias classrooms and bedrooms anywhere kids have access to digital devices Worse yet pornography that was once considered fringe has become increasingly mainstream All this is misshaping children s understanding of sexuality stunting their capacity to process emotions and crippling their ability to form long term relationships In *Treading Boldly through a Pornographic World* Daniel Weiss and Joshua Glaser offer practical and spiritual guidance for parents seeking to help their teens navigate this pornographic digital landscape Combining the latest research with personal and professional experience to guide families into the goodness for which God created us all the authors skillfully outline the steps necessary for parents to move beyond merely surviving pornography s challenges onto a rewarding path where their children can truly thrive **Sarah Vaughan**

Denis Brown,1991-12-11 A true labor of love and appreciation for Sarah Vaughan s vast contributions to American popular music this comprehensive discography documents some 750 songs recorded by Vaughan in 221 recording sessions between 1944 and 1989 some of them multiple times The artist when presented with an early draft of this volume a few years before her death called it a piece of gold and commented that there were songs she d forgotten and would record again Information on orchestra leaders arrangers musicians matrix numbers and record company catalog numbers is given and separate sections organize the material by record company issues and index song titles with composers musicians and orchestras This work will be of interest to scholars and researchers of popular music to record collectors and to everyone who loves the music of Sarah Vaughan Dare to Be Rare Kathleen Whitten,2007-10 Dare to be Rare is an American phrase that means dare to be different or more freely translated perhaps be yourself the person that God created you to be Don t let the Americanisms put you off from what should be a rewarding book for younger women an underpublished area in Christian terms Taking Romans 12 2 as its inspiration Do not be conformed to this world but be transformed by the renewing of your mind you may prove the will of God what which is good acceptable and perfect the book dares women to explore critical issues in their lives such as self esteem courage honesty identity through the lens of scripture and experience and offers the positive message that we are all loved and valued by God The author is certainly someone that dares to be rare She is also a woman of faith and courage who has overcome cancer and still finds time to preach the Word and raise a family This book is great for personal use but perhaps ideally suited for small groups that can be formed from fellow church goers Go on give this book a try and you too can Dare to be Rare *Nietzsche's Task* Laurence Lampert,2008-10-01 When Nietzsche published *Beyond Good and Evil* in 1886 he told a friend that it was a book that would not be read properly until around the year 2000 Now Laurence Lampert sets out to fulfill this prophecy by providing a section by section interpretation of this philosophical masterpiece that emphasizes its unity and depth as a comprehensive new teaching on nature and humanity According to Lampert Nietzsche begins with a critique of philosophy that is ultimately affirmative because it shows how philosophy can arrive at a defensible ontological account of the way of all beings Nietzsche next argues that a new post

Christian religion can arise out of the affirmation of the world disclosed to philosophy Then turning to the implications of the new ontology for morality and politics Nietzsche argues that these can be reconstituted on the fundamental insights of the new philosophy Nietzsche s comprehensive depiction of this anti Platonic philosophy ends with a chapter on nobility in which he contends that what can now be publicly celebrated as noble in our species are its highest achievements of mind and spirit
