Love Letters:

Other People's Love Letters Bill Shapiro, 2011-02-09 Fevered notes scribbled on napkins after first dates Titillating text messages It's not you it's me relationship ends In Other People's Love Letters Bill Shapiro has searched America's attics closets and cigar boxes and found actual letters unflinchingly honest missives full of lust provocation guilt and vulnerability written only for a lover's eyes Modern love of course is not all bliss and in these pages you'll find the full range of a relationship with its whispered promises as well as its heartache But what at first appears to be a deliciously voyeuristic peek into other people's most passionate moments will ultimately reawaken your own desires and tenderness because when you read these letters you'll find the heart you're looking into is actually your own I think you're great wanna have wine Tequila again sometime I can't believe you're real and I think about you constantly in some way or the other all day I haven't given the finger to anyone driving since I met you With you I learned how to fight cleaner how to talk things out better and how to make a strong loving family out of nothing These are priceless gifts that I will carry with me the rest of my life One more thing you did for me you left and I had to get through it P S I look forward to your letters too much to call Also where do you stand on chains

Love Letters Michelle Janning, 2018-06-14 In today's world of Tinder and texting do we write and save love letters anymore Are we more likely to save a screenshot of a text exchange or a box of paper letters from a lover How might these different ways to store a love letter make us feel Sociologist Michelle Janning's *Love Letters Saving Romance in the Digital Age* offers a new twist on the study of love letters what people do with them and whether digital or paper format matters Through stories a rich review of past research and her own survey findings Janning uncovers whether and how people from different groups including gender and age approach their love letter curatorial practices in an era when digitization of communication is nearly ubiquitous She investigates the importance of space and time showing how our connection to the material world and our attraction to nostalgia matter in actions as seemingly small and private as saving storing stumbling upon or even burning a love letter Janning provides a framework for understanding why someone may prefer digital or paper love letters and what that preference says about a person's access and attachment to powerful cultural values such as individualization taking time in a hectic world longevity privacy and keeping cherished things in a safe place Ultimately Janning contends the cultural values that tell us how romantic love should be defined are more powerful than the format our love letters take
