Premodern Rulers and Postmodern Viewers Janice North, Karl C. Alvestad, Elena Woodacre, 2018-02-01 Pop culture portrayals of medieval and early modern monarchs are rife with tension between authenticity and modern mores producing anachronisms such as a feminist Queen Isabel in RTVE s Isabel and a lesbian Queen Christina in The Girl King This book examines these anachronisms as a dialogue between premodern and postmodern ideas about gender and sexuality raising questions of intertemporality the interpretation of history and the dangers of presentism Covering a range of famous and lesser known European monarchs on screen from Elizabeth I to Muhammad XII of Granada this book addresses how the lives of powerful

women and men have been mythologized in order to appeal to today's audiences. The contributors interrogate exactly what is at stake in these portrayals: namely, our understanding of premodern rulers, the gender and sexual ideologies they navigated, and those that we navigate today.

Early Modern Emotions Susan Broomhall, 2016-12-08. *Early Modern Emotions* is a student-friendly introduction to the concepts, approaches, and sources used to study emotions in early modern Europe and to the perspectives that analysis of the history of emotions can offer early modern studies more broadly. The volume is divided into four sections that guide students through the key processes and practices employed in current research on the history of emotions. The first explains how key terms and concepts in the study of emotions relate to early modern Europe, while the second focuses on the unique ways in which emotions were conceptualized at the time. The third section introduces a range of sources and methodologies that are used to analyse early modern emotions. The final section includes a wide-ranging selection of thematic topics covering war, religion, family, politics, art, music, literature, and the non-human world, to show how analysis of emotions may offer new perspectives on the early modern period more broadly. Each section offers bite-sized, accessible commentaries providing students new to the history of emotions with the tools to begin their own investigations. Each entry is supported by annotated further reading recommendations, pointing students to the latest research in that area, and at the end of the book is a general bibliography which provides a comprehensive list of current scholarship. This book is the perfect starting point for any student wishing to study emotions in early modern Europe.

Predominantly philosophical, exploring the authority of Western philosophy in twentieth-century continental and pragmatist writings, the book explores alternative voices as challenges to authority in feminist and multicultural writings, in Greek mythology and African narratives, in Greek drama and twentieth-century literature.

The Flesh of Being David Ross, 2008-12-18 The text is a conversation between the author and himself mediated by the text of Friedrich Nietzsche's *Thus Spoke Zarathustra* The text is a pre-text a reading both before and after that frames the art work What is that Let us say in the spirit of inquiry that of knowing thyself What then of this strange hyphenation The present text is a pre-text because it is before the Text the text which the author is always writing but which manifests itself in sporadic impulsive bursts in the form of actual works The book is the pre-text because it is an excuse a rationale a piece of pretension The book is not about Nietzsche but what it is for someone to read Nietzsche's text a book for everyone and no one How then does one read a book meant for oneself if oneself is everyone and not at all for oneself if oneself is none Or is it that the real task of reading is for the reader to read what reading is Then again need one distinguish between book and text Perhaps it is impossible to read a book such as *Thus Spoke Zarathustra* without invoking the text or even sub-text that continually slips away If one can read a book one cannot the text for this reason the text is what the reader has to write through the reading This has been my experience with Nietzsche's text an experience I share with my readers The very possibility of reading invokes the need to re-write the text Only in the space between reading and writing can the reader re-writer hope to stand and understand the discursive grounds Is that the play which this couplet performs There does not the reader enters upon the playground Read then and play The author's thanks go to Mr Andrew Fuyarchuk for the fine editing job that he did His contribution allowed further clarifications of the argument
