Love Not Human:

Love Not Human Gordon R. Dickson, 1988 **Godliness and Greed** Skip Worden, 2010-01-01 Skip Worden shows the profound transformation of Christian thought on economics from the beginning of the Commercial Revolution to the fifteenth century Renaissance Worden explains how the general antagonism toward the pursuit of wealth before the Commercial Revolution turned into Protestant theologians fighting against the prevailing view of a pro wealth paradigm during the fifteenth century *Peacemaking and Religious Violence* Roger A. Johnson, 2009-09-01 From its very beginning Christian faith has been engaged with religious violence The first Christians were persecuted by their co religionists and then by imperial Rome Jesus taught them in such circumstances not to retaliate but to be peacemakers to love their enemies and to pray for their persecutors Jesus s response to religious violence of the first century was often ignored but it was never forgotten Even during those centuries when the church herself persecuted Christian heretics Jews and Muslims some Christians still struggled to bear witness to the peace mandate of their Lord In the thirteenth century Thomas Aquinas wrote a theology to help his Dominican brothers persuade Cathar Christians to return to their Catholic faith peacefully Ramon Lull a Christian student of Arabic and the Qur an sought to help his fellow Christians recognize the elements of belief they shared in common with the Muslims in their midst In the fifteenth century Nicholas of Cusa a Church Cardinal and theologian expanded Lull s project to include the newly discovered religions of Asia In the seventeenth century Lord Herbert an English diplomat and lay Christian began to identify the political union of church and government as a causal factor in the religious warfare of post Reformation Christendom One and a half centuries later Thomas Jefferson a lay theologian of considerable political stature won a political struggle in the American colonies to disestablish religion first in his home colony of Virginia and then in the new nation he helped to found All five of these theologians reclaimed the peace mandate of Jesus in their response to the religious violence of their own eras All of which points us to some intriguing Christian responses to religious violence in our own century as recounted in the epilogue *Extremist for Love* Rufus Burrow, 2014 On June 5 2002 fourteen year old Elizabeth Smart the daughter of a close knit Mormon family was taken from her home in the middle of the night by a religious fanatic Held captive by him and his wife Elizabeth suffered daily physical and emotional abuse Rescued nine months later she rejoined her family Now for the first time Smart tells the story of how she survived and endured and found the strength to pick up the pieces of her life Bestseller *What is Justice?* Hans Kelsen, 2022-04-29 Through the lens of science Hans Kelsen proposes a dynamic theory of natural law examines Platonic and Aristotelian doctrines of justice and the idea of justice as found in the holy scriptures This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1957 **Perseverance** Tawnya Brown, 2025-10-27

At some point in everyone's life they will have to choose whether to give up or to push on. It's not always an easy choice. Life seems to move us in directions that we don't always want to go. This book will take on many different challenges. There will be biblical examples of perseverance along with real life stories. Some may be hard to read, others may not seem that bad but all have one thing in common: the people involved chose to persevere rather than give up or give in. They fought and they trusted God when there was no other way to go and the road seemed to always have a dead end. I am sure that you will find at least one example that relates to you in a way that shows you what you need to know. You are not the only one to go through it and you too can survive and be an overcomer. Consider it pure joy, my brothers and sisters, whenever you face trials of many kinds, because you know that the testing of your faith produces perseverance. Let perseverance finish its work so that you may be mature and complete, not lacking anything. James 1:2-4

The Implicit Theology of the Lord's Prayer Jan Muis, 2021-01-15 The postmodern and secular culture of the West requires a new reflection on God. *The Implicit Theology of the Lord's Prayer: A Biblical and Theological Investigation* reflects on God on the basis of an original and central expression of the Christian faith: the Lord's Prayer. First, Jan Muis interprets the divine names central to this prayer in their biblical contexts. Next, Muis understands the divine attributes implied by these names from the biblical narrative of God's self-revealing actions and explains them in a contemporary framework. God's Name indicates his particular personal presence and encounter with human beings. The holiness of God's Name and the justice of his Kingship are more than just aspects of the love of the Father, the Son, and the Spirit. The Creator is not a human blown large in his companionship with humans; he remains the Exalted who lives both within and beyond created temporal reality. In the context of a secular age, Muis discusses in what sense this God exists.

Robert Frost Judith Oster, 1994-02-01 Every poem Robert Frost declared is an epitome of the great predicament a figure of the will braving alien entanglements This study considers what Frost meant by those entanglements how he braved them in his poetry and how he invited his readers to do the same In the process it contributes significantly to a new critical awareness of Frost as a complex artist who anticipated postmodernism a poet who invoked literary traditions and

conventions frequently to set himself in tension with them Using the insights of reader response theory Judith Oster explains how Frost appeals to readers with his apparent accessibility and then because of the openness of his poetry's possibilities engages them in the process of constructing meaning Frost's poems she demonstrates teach the reader how they should be read at the same time they resist closure and definitive reading The reader's acts of encountering and constructing the poems parallel Frost's own encounters and acts of construction Commenting at length on a number of individual poems Oster ranges in her discussion from the ways in which the poet dramatizes the inadequacy of the self alone to the manner in which he reads the Book of Genesis or the writing of Emerson Oster illuminates finally the central conflict in Frost his need to be read well against his fear of being read his need to share his creation against his fear of its appropriation by others

Virtue Ethics, Old and New Stephen Mark Gardiner, 2005 There are grounds for saying that contemporary work in virtue ethics is if not quite in its theoretical infancy at least not far out of diapers And this suggests that we should be gentle and nurturing allowing it time to flourish before coming to any definitive verdict on its merits However it is hard to deny that modern day virtue ethics is part of a long sophisticated and fairly continuous tradition Not only does the approach have origins almost as ancient as philosophy itself but its history also includes extensive work by such philosophical luminaries as at least Socrates Plato Aristotle the Stoics Aquinas and perhaps Hume and Nietzsche And this suggests that we should already be in a good position to assess its appeal from the Introduction In Virtue Ethics Old and New ten philosophers seek to enrich the contemporary understanding and development of virtue ethics through a detailed examination of some key contributions from its past Their essays demonstrate the continuing relevance of the history of moral philosophy to contemporary debates
