feel ourselves whole and re member ourselves as well From psychic trauma to physical illness dis ease of many kinds may be
addressed through the various techniques discussed here The tools offered by some authors are population specific and age
appropriate while several authors have given us the philosophical underpinnings for it all While the authors within represent
the grassroots voices of this new and rapidly expanding field several of them have developed their own methods for using the
arts and have thriving practices Our approach is wholistic Music visual arts movement dance and poetry are discussed as
separate modalities and in combination with one another in a process or flow The reader will engage in our experiences with
these modalities as they have been lived The complementary CD that accompanies this book will allows the listener to have a
