In His Father's Shadow Stanley A. Renshon, 2015-03-10 From a pampered son who showed little promise to his rise to the presidency George W Bush has transformed himself through acts of will and faith Stanley Renshon examines the psychological transformation of Bush and identifies those pivotal changes that allowed him to achieve success in his personal life and in the political arena and shows how Bush s personal transformation has come to shape his political policies The man who battled and defeated his own inner demons has become a president determined to battle the demons of terrorism and extremism that prevent democracy from flourishing around the world This psychological portrait provides a much needed antidote to prevailing critiques that ridicule Bush s values and policies as it celebrates his resolve and strong leadership

Why They Can't Write John Warner, 2020-03-17 An important challenge to what currently masquerades as conventional wisdom regarding the teaching of writing There seems to be widespread agreement that when it comes to the writing skills of college students we are in the midst of a crisis In Why They Can t Write John Warner who

taught writing at the college level for two decades argues that the problem isn't caused by a lack of rigor or smartphones or some generational character defect. Instead, he asserts, we're teaching writing wrong. Warner blames this on decades of educational reform rooted in standardization, assessments, and accountability. We have done no more, Warner argues, than conditioned students to perform writing-related simulations which pass temporary muster but do little to help students develop their writing abilities. This style of teaching has made students passive and disengaged. Worse yet, it hasn't prepared them for writing in the college classroom. Rather than making choices and thinking critically, as writers must, undergraduates simply follow the rules, such as the five-paragraph essay designed to help them pass these high-stakes assessments. In *Why They Can't Write*, Warner has crafted both a diagnosis for what ails us and a blueprint for fixing a broken system. Combining current knowledge of what works in teaching and learning with the most enduring philosophies of classical education, this book challenges readers to develop the skills, attitudes, knowledge, and habits of mind of strong writers. **101 Damnations**

Henry Alford, Andy Borowitz, Christopher Buckley, 2003-12-11. Dear flappable reader, Do you bristle at a handshake that resembles a limp fish? Do oblivious pedestrians bring you to the brink? What about museum gift shops, superfluous courtesy, do we need a gas pump to show us gratitude, behemoth SUVs or inexplicable operating manuals? Have you had it with screeching leaf blowers, beseeching telemarketers, escalating movie ticket prices, or proliferating celebrity magazines? Is it children's choirs or karaoke singers, waiters bearing pepper grinders, or dinner guests blathering on about salt that drives you to distraction? For anyone who has recognized that this peaceful kingdom of ours has more than a few potholes, *101 Damnations* is the perfect companion. It's your ticket to the nine circles of personal hell. Armed with wit, bewilderment, and words to the wise, today's leading humorists conduct a brief tour of the trivial and often universal exasperations we all must endure. Among the damning, Henry Alford reveals our wanton desire to affect Britishisms. Sandra Tsing Loh has it in for people who forward funny e-mails. Once and for all, Merrill Markoe sets forth cell phone etiquette. And there are many, many others. Ninety-eight, to be exact. Make yourself comfortable. Misery loves company. **Partisan Sex**

Fedwa Malti-Douglas, 2009. Sex politics and the law characterized the Clinton era, which began with the emergence of Bill Clinton as a presidential candidate with a train of sex scandals and ended with the attacks of September 11, 2001. The Monica Lewinsky affair was the climax of the phenomenon, and the resulting scandal had far-reaching effects. Politics became the language and the means for battles over sex. Sex and politics became metaphors for each other as American society struggled to come to terms with its sexual and political anxieties. *Partisan Sex: Bodies, Politics, and the Law in the Clinton Era* explores the high cultural anxieties of the left and the masculinity hang-ups of the right, the exploitation of romance imagery, and hot sauce bottles, the obsessions with Hillary Clinton's breakfasts, and the rise of a society of voyeurs. Stumbling and Raging Stephen Elliott, Greg Larson, 2005. Following on from the success of *Politically Inspired* in 2003 comes *Politically Inspired Still*. These short stories have all been influenced by today's politics and are a collection from today
