Of Kingdoms And Empires:

Kingdoms, Empires, and Domains Mark A. Ragan, 2023 Kingdoms Empires and Domains explores the history of the idea that there is more to the living world than plants and animals Progressing chronologically through philosophical religious literary and other pre scientific traditions leading molecular systematist Mark A Ragan traces how transgressive creatures such as sponges corals algae fungi and diverse microscopic beings have been described categorized and understood throughout history The book also explores how the concept of a third kingdom of life evolved within the fields of scientific botany and zoology and continues to evolve up to the present day [A Prophecy of Empire](#) Christopher J. Bonura, 2025-11-04 The Apocalypse of Pseudo Methodius was one of the medieval world s most popular and widely translated texts Composed in Syriac in Mesopotamia in the seventh century this supposed revelation presented a new salvific role for the Roman Empire whose last emperor it prophesied would help bring about the end of the ages In this first book length study of Pseudo Methodius Christopher J Bonura uncovers the under appreciated Syriac origins of this apocalyptic tract revealing it as a remarkable response to political realities faced by Christians living under a new Islamic regime Tracing the spread of Pseudo Methodius from the early medieval Mediterranean to its dissemination via the printing presses of early modern Europe Bonura then demonstrates how different cultures used this new vision of empire s role in the end times to reconfigure their own realities The book also features a new complete and annotated English translation of the Syriac text of Pseudo Methodius

African Kingdoms Saheed Aderinto, This history rich volume details the sociopolitical economic and artistic aspects of African kingdoms from the earliest times to the second half of the 19th century Africa has a long and fascinating history and is a place of growing importance in the world history curriculum This detailed encyclopedia covers the history of African kingdoms from antiquity through the mid 19th century tracing the dynasties ties to modern globalization and influences on world culture before during and after the demise of the slave trade Along with an exploration of African heritage this reference is rich with firsthand accounts of Africa through the oral traditions of its people and the written journals of European explorers missionaries and travelers who visited Africa from the 15th century and onward Alphabetically arranged entries cover a particular kingdom and feature information on the economic cultural religious political social and environmental history of the regime The content references popular culture

movies and art that present contemporary reenactments of kingdoms emphasizing the importance of history in shaping modern ideas Other features include primary source documents a selected bibliography of print and electronic resources and dozens of sidebars containing key facts and interesting trivia **Clash of Kingdoms** Charles Dyer,Mark Tobey,2017-02-07 From the bestselling authors of *The Rise of Babylon* and *The ISIS Crisis* the essential guide for Christians about what Bible prophecy foretells concerning current events in the Middle East especially the rise of ISIS and the resurgence of Russia while providing a way to find peace and hope in the face of end times concerns ISIS Russia and Iran are daily atop headlines and are among chief sources of intensifying unease among Americans about how current world conflicts will unfold Using the Old Testament texts of prophets Ezekiel and Daniel as foundational passages Bible experts Charles Dyer and Mark Tobey explain the connection between Bible prophecy and real time events such as the growing alliance between Russia and Iran the unsettling of the region as ISIS ravages countries and redraws boundaries and the pull of Turkey and Saudi Arabia into the fray by Russian encroachment Iranian meddling and the United States inability to create and lead a coalition Simultaneously Dyer and Tobey provide practical encouragement and spiritual principles for finding comfort strength and perspective in an unsettling time while laying out a strategy for responding out of faith rather than fear in the face of end times concerns

The Oxford Handbook of Nigerian History Toyin Falola,Matthew M. Heaton,2022 Thirty six chapters covering the history of Nigeria from prehistoric times to the twenty first century Accessible overviews of both the political narrative as well as the deeper histories of social organization identity formation and inter group relationships cutting edge analysis of key themes from highly respected scholars in a single forward facing volume Book jacket *The Rise & Fall of Southeast Asia's Empires* don lehman jr.,2013-11-08 The Author treats Southeast Asia as a unified and distinct cultural entity The narrative begins with her tectonic development and ends with the arrival of the Europeans circa 1500 CE **The Oxford World History of Empire** Peter Fibiger Bang,Christopher Alan Bayly,Walter Scheidel,2021 This is the first world history of empire reaching from the third millennium BCE to the present By combining synthetic surveys thematic comparative essays and numerous chapters on specific empires its two volumes provide unparalleled coverage of imperialism throughout history and across continents from Asia to Europe and from Africa to the Americas Only a few decades ago empire was believed to be a thing of the past now it is clear that it has been and remains one of the most enduring forms of political organization and power We cannot understand the dynamics and resilience of empire without moving decisively beyond the study of individual cases or particular periods such as the relatively short age of European colonialism The history of empire as these volumes amply demonstrate needs to be drawn on the much broader canvas of global history Volume Two *The History of Empires* tracks the protean history of political domination from the very beginnings of state formation in the Bronze Age up to the present Case studies deal with the full range of the historical experience of empire from the realms of the Achaemenids and Asoka to the empires of Mali and Songhay and from ancient Rome and China to the Mughals American settler colonialism and the Soviet

Union Forty five chapters detailing the history of individual empires are tied together by a set of global synthesizing surveys that structure the world history of empire into eight chronological phases *The Horn of Africa* Kidane Mengisteab,2013-12-17 The Horn of Africa is a deeply troubled region engulfed in three interlocking crises The first is a security crisis characterized by a range of devastating inter state and inter communal conflicts including civil wars The second is an economic crisis evidenced by widespread debilitating poverty chronic food insecurity and frequent cycles of famines The effects of the third environmental crisis are all too visible in the droughts deforestation and desertification ravaging the region What is more these three crises are mutually reinforcing locking the region into a cycle of disaster Conflicts contribute to poverty which in turn intensifies environmental degradation leading to scarcities which fuel further conflicts In this clear and authoritative guide Kidane Mengisteab explores the key drivers of instability in the Horn of Africa suggesting structural and institutional changes that if implemented could help lift the region out of crisis The Horn s complex crises must be tackled in a comprehensive manner But he contends this can only be achieved if the causes of conflict are addressed head on Without peace the region cannot resolve its economic problems and nor can it develop the capabilities required to cope with environmental change The Horn of Africa will be essential reading for students and scholars in conflict and security studies as well as anyone with an interest in learning more about the dynamics of this troubled region **The Pax Assyriaca: The Historical Evolution of Civilisations and Archaeology of Empires** Benjamin Toro,2022-02-24 This study of the evolutionary process of ancient civilisations stresses the complementarity between theoretical principles and the relevant historical and archaeological evidence Taking its approach from World Systems Theory it focuses on the origin development and collapse of the first Near Eastern stage of the Central Civilisation **Holy Anarchy** Graham Adams,2022-08-31 Perhaps after all the decolonising agenda isn t extra baggage the church needs to carry on top of everything else Perhaps instead it is the very heart of what the church should be about disrupting uncomfortable and bringing about a kind of holy anarchy In *Holy Anarchy* Graham Adams points to a realm in which all dynamics of domination not least in the church are subverted It cuts across the loyalties and boundaries of religion and fosters the greatest possible solidarity amongst the different Urgent and timely the book weaves together themes around Empire liberation and decolonial practice with an exploration of the nature and scope of church community interreligious engagement mission and worship **The Oxford Handbook of the Merovingian World** Bonnie Effros,Isabel Moreira,2020-05-01 The Merovingian era is one of the best studied yet least well known periods of European history From the fifth to the eighth centuries the inhabitants of Gaul what now comprises France southern Belgium Luxembourg Rhineland Germany and part of modern Switzerland a mix of Gallo Roman inhabitants and Germanic arrivals under the political control of the Merovingian dynasty sought to preserve use and reimagine the political cultural and religious power of ancient Rome while simultaneously forging the beginnings of what would become medieval European culture The forty six essays included in this volume highlight why the

Merovingian era is at the heart of historical debates about what happened to Western Europe after the fall of the Roman Empire. The essays demonstrate that the inhabitants of the Merovingian kingdoms in these centuries created a culture that was the product of these traditions and achieved a balance between the world they inherited and the imaginative solutions they bequeathed to Europe. The Handbook highlights new perspectives and scientific approaches that shape our changing view of this extraordinary era by showing that Merovingian Gaul was situated at the crossroads of Europe connecting the Mediterranean and the British Isles with the Byzantine empire and it benefited from the global reach of the late Roman Empire. It tells the story of the Merovingian world through archaeology, bio archaeology, architecture, hagiographic literature, history, liturgy, visionary literature and eschatology, patristics, numismatics and material culture.

The Tenochca Empire of Ancient Mexico Pedro Carrasco Pizana, 1999. The most important political entity in pre-Spanish Mesoamerica was the Tenochca Empire, founded in 1428 when the three kingdoms of Tenochtitlan, Tetzucoco and Tlacopan formed an alliance that controlled the Basin of Mexico and other extensive areas of Mesoamerica. In *The Tenochca Empire of Ancient Mexico*, Pedro Carrasco incorporates years of research in the archives of Mexico and Spain and compares primary sources, some not yet published from all three of the great kingdoms. Carrasco goes beyond cataloging and locating conquests and tributary towns. He takes in the total tripartite structure of the Empire, defining its component entities and determining how they were organized and how they functioned.

Mapping European Empire Russell Foster, 2015-06-26. Empire and maps are mutually reliant phenomena and traceable to the dawn of civilisation. Furthermore, maps retain a supremely authoritative status as unquestioned reflections of reality. In today's image-saturated world, their influence is more powerful now than at any other time in history. This book argues that in the 21st century we are seeing an imperial renaissance in the European Union (EU), a political organisation which defies categorisation but whose power and influence grows by the year. It examines the past, present and future of the EU to demonstrate that empire is not a category of state but rather a collective imagination which reshapes history and appropriates an artificial past to validate the policies of the present and the ambitions of the future. In doing so, this book illuminates the imperial discourse that permeates the mass maps of the modern EU. This text will be of key interest to students and scholars of political science, EU Studies, Human Geography, European political history, cartography and visual methodologies and international relations.

Integrated Molecular Evolution Scott Orland Rogers, 2011-07-27. Molecular evolution, phylogenetics, genomics and other related topics are all critical to understanding evolutionary processes. All too frequently, however, they are treated separately in textbooks and courses such that students fail to connect all of the concepts, principles and nuances of the evolutionary processes. *Integrated Molecular Evolution*

International Institutions in World History Laust Schouenborg, 2016-12-08. The discipline of IR has always suffered from a parochial occupation with the state and the Western system of states. This book presents a case for a basic reorientation of IR away from the state and towards the study of social institutions in the sense of patterned practices, ideas

and norms rules The argument is that the state is an inherently modern phenomenon a modern social institution and that foundational concepts in IR should be based on a full appreciation of the wider record of human existence on earth trans historically and cross culturally This book will interest scholars and students within IR particularly IR theory anthropology archaeology and sociology **The Cambridge Medieval History: The Christian Roman empire and the foundation of the Teutonic kingdoms** Henry Melville Gwatkin,1911 Black Man of the Nile and His Family Yosef Ben-Jochannan,1989 In a masterful and unique manner Dr Ben uses Black Man of the Nile to challenge and expose Europeanized African history Order Black Man of the Nile here **Jews and Their Roman Rivals** Katell Berthelot,2024-08-20 How encounters with the Roman Empire compelled the Jews of antiquity to rethink their conceptions of Israel and the Torah Throughout their history Jews have lived under a succession of imperial powers from Assyria and Babylonia to Persia and the Hellenistic kingdoms Jews and Their Roman Rivals shows how the Roman Empire posed a unique challenge to Jewish thinkers such as Philo Josephus and the Palestinian rabbis who both resisted and internalized Roman standards and imperial ideology Katell Berthelot traces how long before the empire became Christian Jews came to perceive Israel and Rome as rivals competing for supremacy Both considered their laws to be the most perfect ever written and both believed they were a most pious people who had been entrusted with a divine mission to bring order and peace to the world Berthelot argues that the rabbinic identification of Rome with Esau Israel s twin brother reflected this sense of rivalry She discusses how this challenge transformed ancient Jewish ideas about military power and the use of force law and jurisdiction and membership in the people of Israel Berthelot argues that Jewish thinkers imitated the Romans in some cases and proposed competing models in others Shedding new light on Jewish thought in antiquity Jews and Their Roman Rivals reveals how Jewish encounters with pagan Rome gave rise to crucial evolutions in the ways Jews conceptualized the Torah and conversion to Judaism *The Westminster Review* ,1880
