Out Of The Body Experiences:

Out-of-Body Experiences: A Handbook Janet Lee Mitchell, 2017-11-17 What is the best safest method to induce an OBE Is there a limit to how far away one should go from the body Is it possible to go out and not be able to get back in the body Do I need a teacher to learn how to have this experience Have astral bodies actually been photographed What are the main fears that hold one back from an OBE Based on laboratory investigations by a veteran parapsychologist this unique book suggests that a person's conscious awareness can detach itself from the person's body and travel for an extended period of time Is it science fact or science fiction Decide for yourself with this complete guide to OBEs including First person accounts Comprehensive history of occurrences through the ages across all cultures The 90 most commonly asked questions about OBEs Out-of-the-Body Experiences Charles T. Tart, 2016-05-01 This essay chapter 15 of *Psychic Exploration* studies out of the body experiences OOBES formerly called astral projection and traveling clairvoyance are a universal human phenomenon in the sense of having been experienced in every time and culture although only a very small fraction of people ever experience it The full volume of *Psychic Exploration* can be purchased as an ebook or paperback version from all major online retailers and at cosimobooks.com **Astral Dynamics** Robert Bruce, 2009 Specific instructions on how to dream lucidly and consciously leave one's body Describes various methods of achieving the out of body state and what to do once there Provided by publisher **My Little Journal of Out-of-Body Experiences** Denise Martinson, 2009-11 This is not a book about how to teach out of body experiences OBEs There are many good books already written on how to induce them It is not about the history of OBEs Even though there have been numerous studies in the field that still challenges nonphysical existence such as near death experiences NDEs and other metaphysical subjects it is the OBE that aids in our growth and development and most especially our awareness about eternity Scientists who are unable to solve out of body experiences or near death experiences try to explain them as the body's way of tricking itself into believing it lives after death They say it is the loss of oxygen to the brain or a psychological episode that causes hallucinations When in truth we leave our bodies every single night not under any defense apparatus but our natural nightly ritual called dreams which are really out of body experiences In fact an NDE is not necessary in order to have an OBE or being ill or under drugs but they still may bring them on Some researchers believe the mind separates while in the OBE or altered state of consciousness This is because consciousness has the ability to be in two places at once Just like when we were born we had to grow and learn and while this was happening the mind acquired new knowledge as it traveled on the other side In other words our soul stays with the body except during an OBE until we pass over because it is the body that shuts down and dies not the soul or consciousness It releases itself completely to the other side after death During an OBE I still had my body all five of my senses and an extremely alert and a sharp mental state They have helped me to never fear death In fact each experience enriched my life even more Especially when I was quiet and was able to tune into the energy within where I easily entered other dimensions

and received guidance Believe me it is not easy to write a book about OBEs It is not an everyday subject to focus on or for us to understand But once the reader enters my journal of out of body experiences they will journey with me to the other side visit other dimensions see the light and hopefully be able to understand their own spirituality along the way Note The Brain Bits sections have the most information and answers many questions Even the great Edgar Cayce once said that other people could leave their bodies like he did

Glue Sniffing & Out of body Experiences William T Stead, 2009-06-05 I have written a story about glue sniffing and out of body experiences that occurred during the early seventies Back then I was a teenager who had a difficult upbringing with many factors causing a chaotic life Through all of this I learned the potentials of a stimulant combined with mind control It was my first use of any kind of drug and unintentionally it took me on a journey of discovery There are two main abilities one has to overcome in order to experience OBEs The first is telepathic speech construction and application The ability to communicate is immensely important and allows you to utilise the learning process The second is manipulation

of the visual environment When this has been achieved I attained a separation of the soul from the body to a state I call the third level In this plane I had a guide called Gong he is of alien origin and my mentor My time in the third phase lasted around one year in which I experienced technologies far in advance of mankind To summarise part of the outstanding events I have seen thirteen UFO s on three different occasions not on drugs witnessed scenes from my own future in detail I was permitted to see the left hand side of my soul I have been in the same room as an alien Events of this nature although exceptional are not the main point of the story I was asked to write of my experiences in the spirit plain At the time my education was close to semi literacy and through a combination of learning and patience feel it is the right time to fill an agreement
