Region In Turmoil South Asian Conflicts Since 1947:

A Region in Turmoil Robert Johnson, 2006 Since 2001 there has been considerable interest in the individual conflicts that have engulfed the states of South Asia from the long insurgency of Myanmar through the struggle of the Tamil Tigers in Sri Lanka the Maoist insurgency in Nepal the unrest in the Punjab and Assam the Bangladeshi war of independence the gruelling conflict in Kashmir to the intractable conflicts of Afghanistan and the current War on Terror In *A Region in Turmoil South Asian Conflicts since 1947* Rob Johnson explains and evaluates the historic and political roots of conflicts in South Asia in a systematic and thematic way South Asian region as a whole and they are rarely examined in the regional or global context The failure to take a regional perspective in the past has meant that important connections have not always been understood in the West and the view from South Asia has perhaps not been fully explored The author addresses this gap illustrating the causes developments context and conclusions or absence of them of conflicts in the South Asian region India and Pakistan are both nuclear powers who have resorted to war with each other on a number of occasions since independence In addition the insurgencies of the last fifty years continue to destabilize the states of the region and now the rest of the world The global context of these campaigns are analyzed from the end of empire through the Cold War to the global effort against terrorism today Highly topical this book will be of interest not only to students and scholars but to a wide general audience as well

A Region in Turmoil Rob Johnson, 2005-09-15 South Asia has been the setting for some of the century's most violent invasions the Western world's bloodiest defeats and a volatile geopolitical brew of religions ethnicities and nationalism that sends unsettling ripples through the global balance of power even today Rob Johnson writes here the engrossing history of the individual conflicts that have engulfed the states of South Asia during the last half century *A Region in Turmoil* offers a new perspective on the area drawing together the conflicts of South Asia and examining them in local and global contexts from the end of the Western colonial empires through today's global efforts to combat terrorism Johnson's incisive analysis breaks down the historical and political roots of the conflicts and departs from traditional Western centric paradigms to reveal heretofore overlooked South Asian viewpoints on the conflicts and connections among the wars He probes the causes contexts and conclusions of the conflicts ranging from the enduring insurgency in Myanmar to the struggle of the Tamil Tigers in Sri Lanka the unrest in the Punjab and Assam states the Bangladeshi war of independence and the intractable struggles in Kashmir and Afghanistan The twenty first century opened with South Asia front and center on a turbulent political stage the region is not only the designated frontline for the war on terror but also home to the newest nuclear powers India and Pakistan *A Region in Turmoil* addresses this critical contemporary crisis with an invaluable analysis of the region and its complex history making it essential reading for historians policymakers and anyone who reads the front page of the daily newspaper

Oil, Islam, and Conflict Robert Johnson, 2007-10-15 The author looks at the policies of the Central Asian governments that includes their attitudes to democratic reform human rights energy and economic

development and how these are related to civil violence *Global security* Great Britain: Parliament: House of Commons: Foreign Affairs Committee,2009-08-02 This report into the global security concerns related to Afghanistan and Pakistan recommends that the UK Government should re focus its wide ranging objectives in Afghanistan and concentrate its limited resources on one priority security The UK has experienced mission creep from its initial goal of countering international terrorism into the realms of counter insurgency counter narcotics protection of human rights and state building The Committee recommends that the lead international role on counter narcotics should be transferred away from the UK The Committee recognises that the security situation in Afghanistan will remain precarious for some time to come but there can be no question of the international community abandoning Afghanistan The issue at stake must be how best the UK and its allies can allocate responsibilities and share burdens so as to ensure that the country does not once again fall into the hands of those who seek to threaten the security of the UK and the West The Committee says that a negotiated Afghan led political settlement with broad popular support represents the only realistic option for long term security and stability in Afghanistan There can be no serious prospect of meaningful discussions until Coalition Forces and the Afghan national security forces gain and retain the upper hand on security across the country including in Helmand and are then able to negotiate from a position of strength The international effort by the UN EU and individual countries in Afghanistan since 2001 has delivered much less than it promised and its impact has been significantly diluted by the absence of a unified vision and strategy grounded in the realities of Afghanistan s history culture and politics **Regionalism and Regional Security in South Asia** Zahid Shahab Ahmed,2016-04-08 Zahid Shahab Ahmed evaluates the progress of the South Asian Association for Regional Cooperation SAARC This study goes beyond economic integration to present a detailed appraisal of cooperation under the overarching themes of economic cooperation environmental security human welfare and cooperation in security matters According to the author SAARC is making progress in addressing the myriad of issues on its agenda The transition from agreements to actions and frequent interactions among the member states has boosted confidence The progress of SAARC is more evident in the less controversial areas of human security such as poverty alleviation health and safety human resources development and higher education Notwithstanding enthusiastic commitments reflected in agreements and action plans there is a gulf between rhetoric and implementation most notably in sensitive areas relating to traditional security In the light of the findings of this study the author proposes that greater cooperation in common human security areas has a potential to pave the way for a cooperation on issues of a contentious nature particularly terrorism The ^AAfghan Way of War Robert Johnson,2011-12-29 Through the reconstruction of episodes of Afghanistan s military history this book seeks to reevaluate the Afghan Way of War showing that despite the stereotypes of guerrilla warriors imbued with religious fanaticism Afghans have constantly adapted to new threats Indeed the Afghan way of war has been one of constant change *Museums, Heritage and International Development* Paul Basu,Wayne Modest,2014-10-03 While many claims are made

regarding the power of cultural heritage as a driver and enabler of sustainable development the relationship between museums heritage and development has received little academic scrutiny This book stages a critical conversation between the interdisciplinary fields of museum studies heritage studies and development studies to explore this under researched sphere of development intervention In an agenda setting introduction the editors explore the seemingly oppositional temporalities and values represented by these past making and future making projects arguing that these provide a framework for mutual critique Contributors to the volume bring insights from a wide range of academic and practitioner perspectives on a series of international case studies which each raise challenging questions that reach beyond merely cultural concerns and fully engage with both the legacies of colonial power inequalities and the shifting geopolitical dynamics of contemporary international relations Cultural heritage embodies different values and can be instrumentalized to serve different economic social and political objectives within development contexts but the past is also intrinsic to the present and is foundational to people s aspirations for the future Museums Heritage and International Development explores the problematics as well as potentials the politics as well as possibilities in this fascinating nexus

The Contemporary Caribbean Olwyn M. Blouet, 2007-04-16 When Americans seek an escape from the worries and dilemmas of everyday life the crystal blue waters and white sands of the Caribbean islands seem like the answer to a prayer Yet this image of a tourist's paradise hides a tumultuous history marked by strife and division over race political power and economic inequality Olwyn Blouet explores the story of the Caribbean over the last 50 years revealing it to be a region positioned at the heart of some of the most prominent geopolitical issues of modern times Navigating a rich mélange of cultures and histories Blouet unearths a complex narrative that is frequently overlooked in histories of the Americas In stark contrast to widely read guidebooks this chronicle unflinchingly probes two strikingly different worlds in the Caribbean islands those of the haves and the have nots created by the volatile mixture of colonial politics racial segregation and economic upheaval The strategic political relations between Caribbean nations Cuba in particular and the world powers during the Cold War the economic transformations instigated by tourism and the modernizing efforts of Caribbean nations in order to meet the demands of a globalizing twenty first century market are among the numerous issues explored by Blouet in her efforts to redress the historical record's imbalance The Contemporary Caribbean also explores the proud histories of the region's many nations in sports such as cricket and baseball as well as their famed cuisines and the uneasy balance today between local traditions and the vestiges of colonial influence

Jain,2016-04-20 In the initial phase of the Obama administration India s ruling class and strategic community formed a perception that the spirit of strategic partnership between the two countries might be diluted on account of China looming large in the priorities of this administration Despite occasional hiccups in their relationship this perception was overshadowed by the administration s recognition of India s role as counterweight to China in the Asia Pacific region This book addresses and re evaluates the perceptions policies and perspectives of public policy makers and bureaucratic elites in both India and the US in setting and articulating the tone tenor and substance of the multi faceted ties between the two countries The scope of the book is not exclusively limited to the bilateral relationship in the critical areas such as the Indo US nuclear deal defence security and strategic partnership Its concerns and ramifications are much wider in global and regional contexts covering involving security architecture in the Asia Pacific region the interface between terrorism and weapons of mass destruction WMDs China as a factor in India US relations and the fallout of the New Delhi Washington partnership on South Asia *War, Ethics and Justice* Annika Bergman-Rosamond,Mark Phythian,2011-01-28 This edited volume addresses the key issues of ethics war and international relations in the post 9 11 world There is a lively debate in contemporary international relations concerning the relationship between statist obligations to one s own political community and cosmopolitan duties to distant others This volume contributes to this debate by investigating aspects of the ethics of national military and security and intelligence policies in the post 9 11 environment The discursive transformation of national militaries into forces for good became normalized as the Cold War subsided While the number of humanitarian military interventions and operations rose considerably in the immediate post Cold War period the advent of the war on terror raised questions about exactly what we mean by ethical behaviour in terms of military and security policies This volume interrogates this key question via a focus that is both distinctive and illuminating on national military ethics femininities masculinities and difference and intelligence ethics The key objectives are to demonstrate the important linkages between areas of international relations that are all too often treated in isolation from one another and to investigate the growing tension between cosmopolitan and communitarian conceptions of intelligence and security and the use of armed force This book will be of much interest to students of security studies ethics gender studies intelligence studies and international relations in general Mark Phythian is Professor of Politics in the Department of Politics and International Relations at the University of Leicester He is the author or editor co editor of ten books Annika Bergman Rosamond is Senior Researcher at the Danish Institute for International Studies in Copenhagen [INDIA'S MAJOR MILITARY & RESCUE OPERATIONS](#) Dr. Hemant Kumar Pandey & Manish Raj Singh,2021-05-06 The book on INDIA s MAJOR MILITARY RESCUE OPERATIONS by

Dr H K Pandey and Manish Raj Singh which has been very well conceptualized Both the writers have been into the process for almost last two years and have obtained the required details from all the possible available sources researched it well and have given it a wonderful shape to help anyone who wants to know about Indian Military Rescue Operations Dr H K Pandey has a varied experience behind him being the present Head of the Department of Defence and Strategic Studies at Meerut College Meerut He has always positive attitude toward his subject His knowledge and mastery on the subject is enormous Manish Raj Singh is a student in the Department of Defence and Strategic Studies at Meerut College Meerut has shown keen interest and dedication towards the subject completely He is very hardworking and enthusiastic He has left no stones unturned to get the details about the topics of the subjects and comes out with the best possible outcome His knowledge of the subject is evident from the work produced in this detailed book The book has wonderfully covered the background political views role tasks and the major technological development during these military and rescue operations The book shall be of great help to the students of Defence Studies Military Science of various Colleges and Universities all over India to get a fair idea about the strengths of India s Operations to enhance their knowledge about operations for their use in subject for competitive examinations as applicable to them at various levels of their career The general readers too will get a fair idea about the strength of Indian Forces during these operations at national and international level This will give them the confidence to work hard in their concerned fields towards the development of a stronger India that is capable to take on its adversaries neighboring countries anytime and defeat their ongoing plans to imbalance its development as a power in South Asia I once again congratulate both the writers for giving a comprehensive concise look at Indian Operations through their book and wish them all the success in their future endeavors Maj Gen A K Shukla VSM *India's Borderland Disputes* Anna Orton, Boundaries are manifestations of national identity They can be trip wires of war This is all the more important if the involved parties are nuclear powers It threatens to inflame long standing boundary disputes that India has with China Pakistan Nepal and Bangladesh This book attempts to examine all the major aspects of these disputes Going deep into their historical legacies it discusses at length their causes consequences and the ways to how to solve them **Outnumbered, Outgunned, Undeterred: Twenty Battles Against All Odds** Rob Johnson, 2011-10-01 How military forces have prevailed against the odds explained through vivid narratives and specially commissioned battle plans Throughout history men and women have fought endured and sometimes emerged victorious though the odds were against them What conditions must exist to enable relatively small or weak forces to challenge and even overcome the strong Here are twenty historical examples from 1777 to the present that reveal both the common themes and the exceptional aspects of those achievements The examples range from George Washington s rebuilding of the patriot army in the Revolutionary War to the defense of the Philippines in 1941-42 from Si mon Boli var s liberation of South America to Finland s defiance of the Soviet Union in the Winter War of 1939 The courage of the Devonshire Regiment at Bois des Buttes in France in 1918 shows what skillful and

determined resistance can achieve though as in the defense of Stalingrad in 1943 isolated forces were often left with no option but to fight The resolve that accompanies a last ditch effort is demonstrated in the Israeli Defense of the Golan Heights in 1973 Two more recent examples the Battle of Debecka Pass in Iraq in 2003 and the battle of the Patrol Bases in Afghanistan 2006 08 show that some themes from these extraordinary historic achievements are still played out in warfare today

Failed States and the Origins of Violence Tiffiany Howard, 2016-04-15 What makes a terrorist Is an individual inherently predisposed to be attracted to political violence or does exposure to a certain environment desensitize them in such a way that violence represents a viable mode for addressing political grievances Identifying state failure as the impetus for political violence this book addresses these questions and focuses on why existing extremist groups find failed states so attractive Utilizing global barometer data Tiffiany Howard examines the underpinnings of individual support for political violence and argues that an insidious pattern of deprivation within failed states drives ordinary citizens to engage in and support extreme acts of political violence A rigorous examination of four regions plagued by a combination of failed states and political violence Sub Saharan Africa The Middle East and North Africa Southeast and South Asia and Latin America this text draws parallels to arrive at a single conclusion that failed states are a natural breeding ground for terrorism and political violence
