Colonial Food in Interwar Paris Lauren Janes, 2016-02-25 In the wake of the First World War in which France suffered severe food shortages colonial produce became an increasingly important element of the French diet The colonial lobby seized upon these foodstuffs as powerful symbols of the importance of the colonial project to the life of the French nation But how was colonial food really received by the French public And what does this tell us about the place of empire in French society In *Colonial Food in Interwar Paris* Lauren Janes disputes the claim that empire was central to French history and identity arguing that the distrust of colonial food reflected a wider disinterest in the empire From Indochinese rice to North African grains and tropical fruit to curry powder this book offers an intriguing and original challenge to current orthodoxy about the centrality of empire to modern France by examining the place of colonial foods in the nation's capital **Food, Power, and Resistance in the Andes** Alison Krögel, 2010-12-16 *Food Power and Resistance in the Andes* is a dynamic

interdisciplinary study of how food's symbolic and pragmatic meanings influence access to power and the possibility of resistance in the Andes. In the Andes, cooking often provides Quechua women with a discursive space for achieving economic self-reliance, creative expression, and for maintaining socio-cultural identities and practices. This book explores the ways in which artistic representations of food and cooks often convey subversive meanings that resist attempts to locate indigenous Andeans and Quechua women in particular at the margins of power. In addition to providing an introduction to the meanings and symbolisms associated with various Andean foods, this book also includes the literary analysis of Andean poetry and prose as well as several Quechua oral narratives collected and translated by the author during fieldwork carried out over a period of several years in the southern Peruvian Andes. By following the thematic thread of artistic representations of food, this book allows readers to explore a variety of Andean art forms created in both colonial and contemporary contexts. In genres such as the novel, Quechua oral narrative, historical chronicle, testimonies, photography, painting, and film, artists represent Quechua cooks who utilize their access to food preparation and distribution as a tactic for evading the attempts of a patriarchal hegemony to silence their voices, desires, values, and cultural expressions. Whether presented orally, visually, or in a print medium, each of these narratives represents food and cooking as a site where conflict ensues, symbolic meanings are negotiated, and identities are re-constructed. *Food, Power, and Resistance* will be of interest to Andean Studies and Food Studies scholars and to students of Anthropology and Latin American Studies.
