Regional Imagination The South And Recent American History:

The Regional Imagination Dewey W. Grantham, 1979 *The Regional Imagination* Dewey W. Grantham, The Future South Joe P. Dunn, Howard Lawrence Preston, 1991 *North Over South* Susan-Mary Grant, 2000-07-31 In most studies of nationalism the United States is curiously ignored or is examined only during its colonial and republican periods But it was the Civil War argues Susan Mary Grant that truly formed the American nation by unifying the states once and for all abolishing slavery and setting the country on the path to modernity In light of this says Grant the antebellum period was the crucial phase of American national construction In *North Over South* Grant offers an original and controversial interpretation of a much discussed but poorly understood period of American history Despite the attention generally given to Southern nationalism Grant focuses on what Northerners thought about the South and how their beliefs created a distinct outlook a Northern nationalism based on opposition to things Southern Grant identifies Northern views of the South between 1830 and 1856 and examines how they developed how they changed and how they were used by the Republican Party in its first national election campaign She demonstrates that the Republicans employed negative images of the South to transform Northern regionalism into a self styled American nationalism at the same time transforming the South into a region antithetical to the nation In support of this thesis Grant examines attitudes toward the South expressed by writers travelers and politicians Focusing on works of such prominent writers as Ralph Waldo Emerson William Cullen Bryant and Horace Mann she shows that the North used the South as a negative point of reference against which to define its own hence American identity effectively excluding the South from full participation in the process of American national construction This provocative study links the process of national construction in America with recent studies of European nationalism and fills a gap in the historiography of North South relations One of the first scholars to relate new theories of national construction to America Grant shows that the United States has more in common with the European experience than is often acknowledged and offers a unique and illuminating perspective on the process of American nation building Her book will be required reading for anyone interested in antebellum America and the origins of the Civil War **The White House Looks South** William E. Leuchtenburg, 2005-10-01 Perhaps not southerners in the usual sense Franklin D Roosevelt Harry S Truman and Lyndon B Johnson each demonstrated a political style and philosophy that helped them influence the South and unite the country in ways that few other presidents have Combining vivid biography and political insight William E Leuchtenburg offers an engaging account of relations between these three presidents and the South while also tracing how the region came to embrace a national perspective without losing its distinctive sense of place According to Leuchtenburg each man had one foot below the Mason Dixon Line one foot above Roosevelt a New Yorker spent much of the last twenty five years of his life in Warm Springs Georgia where he built a Little White House Truman a Missourian grew up in a pro Confederate town but one that also looked West because of its history as the entrep t for the Oregon Trail Johnson who hailed

from the former Confederate state of Texas was a westerner as much as a southerner Their intimate associations with the South gave these three presidents an empathy toward and acceptance in the region In urging southerners to jettison outworn folkways Roosevelt could speak as a neighbor and adopted son Truman as a borderstater who had been taught to revere the Lost Cause and Johnson as a native who had been scorned by Yankees Leuchtenburg explores in fascinating detail how their unique attachment to place helped them to adopt shifting identities which proved useful in healing rifts between North and South in altering behavior in regard to race and in fostering southern economic growth *The White House Looks South* is the monumental work of a master historian At a time when race class and gender dominate historical writing Leuchtenburg argues that place is no less significant In a period when America is said to be homogenized he shows that sectional distinctions persist And in an era when political history is devalued he demonstrates that government can profoundly affect people s lives and that presidents can be change makers *The South in Modern America* Dewey W. Grantham,2001-07-01

The South in Modern America is a lively and illuminating account of the Southern experience since the end of Reconstruction In the twentieth century as in the nineteenth the South has been the region most sharply at odds with the rest of the nation No other part of the country has as clear cut a sectional image The interplay between the South the North and the rest of the nation represents a rich and instructive part of the United States history illustrating much of the nation s conflict and tension the way it has tried to reconcile divergent issues and its struggles to realize its historical ideals In this new treatment of modern Southern history Dewey W Grantham illuminates the features that make the South a distinctive region while clarifying how it has converged socially and politically with the rest of the country during this century **Perspectives on the American South** Merle Black,John Shelton Reed,2021-11-10 First Published in 1981 In *Perspectives on the American South* we hope to gather yearly essays that deal with the society politics and culture of the region This first book in the series contains 27 articles representing the work of some 30 scholars and including the disciplines of history sociology anthropology political science and geography The papers have been organized around four broad topics violence in the region southern politics comparative studies of the region and the South s ethnic and cultural groups *Colony and Empire* William G. Robbins,1994 Popular writers and historians alike have perpetuated the powerful myth of the rugged individualist single handedly transforming the American West In reality William Robbins counters it was the Guggenheims and Goulds the Harrimans and Hearsts and the Morgans and Mellons who masterminded what the West was to become Remove the romance he shows and a darker West emerges a colonial like region where industrial statesmen aided by eastern U S and European capital manipulated investments in pursuit of private gain while controlling wage earning cowboys and miners Robbins argues that understanding the impact of capitalism on the West from the fur trade era to the present is essential to understanding power influence and change in the region Showing how global capitalism had a more profound impact on the modern West than individual initiative he explores violence and racism along the Texas Mexican border colonial style

company towns in Montana and the Northwest contrasting traditions astride the U S Canadian boundary pace setting agribusiness and exploitation of labor in California the growing power of metropolitan centers and dependence of rural areas and the emergence of a sizable federal influence To grasp the essence of the West s dramatic transformation Robbins contends you must look to the mainstays of material relations in the region the perpetually changing character of political and economic culture the inherent instability of resources and the larger constellations of capitalist decision making Consequently he shows shy Western success and failure prosperity and misfortune and expansion and decline were all inseparably linked to the evolution of capitalism at the local regional national and global levels In the tradition of Patricia Nelson Limerick s *Legacy of Conquest* Robbins s study challenges some of our most revered images of the West and invigorates the ongoing debates over its history and meaning for our nation

New Encyclopedia of Southern Culture, V. 17 Clarence L. Mohr, Charles Wilson, 2011 *The New Encyclopedia of Southern Culture* **Sustaining Southern Identity** Keith D. Dickson, 2011-11-21 Pulitzer Prize winning historian Douglas Southall Freeman perhaps more than any other writer in the first half of the twentieth century helped shape and sustain a collective identity for white southerners A journalist lecturer radio broadcaster and teacher of renown Freeman wrote and spoke on themes related to southern memory throughout his life Keith D Dickson s *Sustaining Southern Identity* offers a masterful intellectual biography of Freeman as well as a comprehensive analysis of how twentieth century southerners came to remember the Civil War fashion their values and ideals and identify themselves as citizens of the South Dickson s work underscores Freeman s contributions to the enduring memory of Confederate courage and sacrifice in southern culture The longtime editor of the *Richmond News Leader* Freeman wrote several authoritative and extraordinarily influential multivolume historical narratives about both Confederate general Robert E Lee and the high command of the Army of Northern Virginia His contributions to the enduring southern memory framework with its grand narrative of Confederate courage and sacrifice and its attachment to symbols and rituals still serve as a touchstone for the memory truths that define a distinct identity in the South

Myth and Southern History Patrick Gerster, Nicholas Cords, 1989 *Southern Liberal Journalists and the Issue of Race, 1920-1944* John T. Kneebone, 2018-06-15 Before the Civil Rights movement southern liberal journalists played a crucial role in shaping southern thought on race and racism John Kneebone presents a richly detailed intellectual history of southern racial liberalism between World War I and World War II by examining the works of five leading southern journalists Gerald W Johnson *Baltimore Evening Sun* George Fort Milton *Chattanooga News* Virginius Dabney *Richmond Times Dispatch* Hodding Carter *Greenville Miss Delta Democrat Times* and Ralph McGill *Atlanta Constitution* The South s leading liberal journalists came from varied backgrounds and lived in different regions of the South but all had one characteristic in common as public advocates of southern liberalism each spoke as a southerner with deep roots in the southern past Yet their editorials were not intended solely for local audiences they wrote essays for national and regional journals of opinion as well and each of

these men published important books on the South and its history Through their writings they gained reputations throughout the country as articulate spokesmen for southern liberalism Their essays editorials books and letters provide rich and abundant sources for studying the changing patterns of southern liberal thought in the critical years from the 1920s to the 1940s Moreover these journalists were members of southern liberal organizations Will W Alexander s Commission on Interracial Cooperation the Southern Commission on the Study of Lynching the Southern Policy Committee the Southern Conference for Human Welfare and the Southern Regional Council and so they helped devise the reform programs that they in turn publicized While they believed that social and economic change in the modern South required reform of race relations the journalists felt that these reforms could be accommodated within the framework of racial segregation The protests of blacks against segregation during World War II challenged that way of thinking and created a crisis for southern liberals Kneebone analyzes this crisis and the disconnection between the southern liberalism of the 1920s and 1930s and the Civil Rights movement Originally published in 1985 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

In the Shadow of FDR William E. Leuchtenburg, 2011-03-15 A ghost has inhabited the Oval Office since 1945 the ghost of Franklin Delano Roosevelt FDR s formidable presence has cast a large shadow on the occupants of that office in the years since his death and an appreciation of his continuing influence remains essential to understanding the contemporary presidency This new edition of *In the Shadow of FDR* has been updated to examine the presidency of George W Bush and the first 100 days of the presidency of Barack Obama The Obama presidency is evidence not just of the continuing relevance of FDR for assessing executive power but also of the salience of FDR s name in party politics and policy formulation

In the Shadow of FDR William Edward Leuchtenburg, 2001 A ghost has inhabited the Oval Office since 1945 the ghost of Franklin Delano Roosevelt FDR s formidable presence has cast a large shadow on the occupants of that office in the years since his death and an appreciation of his continuing influence remains essential to understanding the contemporary presidency This new edition of *In the Shadow of FDR* has been updated to examine Bill Clinton s presidency including possible parallels between Hillary Clinton and Eleanor Roosevelt Concluding with an analysis of the 2000 presidential campaign William E Leuchtenburg assesses the influence FDR s legacy is likely to continue to have in the new century

A Companion to Theodore Roosevelt Serge Ricard, 2011-08-26 A Companion to Theodore Roosevelt is the first comprehensive anthology to encompass Roosevelt as whole highlighting both his personality and his skilled diplomacy Revitalizes and internationalizes scholarship on this most popular and highly rated American president Covers many aspects of Roosevelt s personality and his policies domestic and foreign to create a complete picture of the man Provides scholarship from both sides of the Atlantic from established Roosevelt specialists respected scholars and a new

generation of historians A new and fresh historiographical exploration of Roosevelt s life and ideas political career and achievements and his legacies *The Problem South* Natalie J. Ring,2012 For most historians the late nineteenth and early twentieth centuries saw the hostilities of the Civil War and the dashed hopes of Reconstruction give way to the nationalizing forces of cultural reunion a process that is said to have downplayed sectional grievances and celebrated racial and industrial harmony In truth says Natalie J Ring this buoyant mythology competed with an equally powerful and far reaching set of representations of the backward Problem South one that shaped and reflected attempts by northern philanthropists southern liberals and federal experts to rehabilitate and reform the country s benighted region Ring rewrites the history of sectional reconciliation and demonstrates how this group used the persuasive language of social science and regionalism to reconcile the paradox of poverty and progress by suggesting that the region was moving through an evolutionary period of readjustment toward a more perfect state of civilization In addition *The Problem South* contends that the transformation of the region into a mission field and laboratory for social change took place in a transnational moment of reform Ambitious efforts to improve the economic welfare of the southern farmer eradicate such diseases as malaria and hookworm educate the southern populace uplift poor whites and solve the brewing race problem mirrored the colonial problems vexing the architects of empire around the globe It was no coincidence Ring argues that the regulatory state s efforts to solve the southern problem and reformers increasing reliance on social scientific methodology occurred during the height of U S imperial expansion **Harvard Guide to American History** Frank Freidel, Frank Burt Freidel, Richard K. Showman, 1974 Editions for 1954 and 1967 by O Handlin and others **Race Harmony and Black Progress** Mark Ellis, 2013-10-16 Founded by white males the interracial cooperation movement flourished in the American South in the years before the New Deal The movement sought local dialogue between the races improvement of education and reduction of interracial violence tending the flame of white liberalism until the emergence of white activists in the 1930s and after Thomas Jackson Jack Woofert Jr a Georgia sociologist and an authority on American race relations migration rural development population change and social security maintained an unshakable faith in the effectiveness of cooperation rather than agitation *Race Harmony and Black Progress* examines the movement and the tenacity of a man who epitomized its spirit and shortcomings It probes the movement s connections with late 19th century racial thought Northern philanthropy black education state politics the Du Bois Washington controversy the decline of lynching the growth of the social sciences and New Deal campaigns for social justice Myth and Southern History: The Old South Patrick Gerster, Nicholas Cords, 1989 Many historical myths are actually false yet psychologically true The contributors to this volume see myth and reality as complementary elements in the historical record *Myth and Southern History* is as much a commentary on southern historiography as it is on the viability of myth in the historical process Volume 2 *The New South* offers new perspectives on the North s role in southern mythology the so called Savage South twentieth century black and white southern women and the changes that distinguish the late

twentieth century South from that of the Civil War era **Imagining Southern Spaces** Deniz Bozkurt-Pekar, 2021-02-22

Identifying the antebellum era in the United States as a transitional setting *Imagining Southern Spaces* investigates spatialization processes about the South during a time when intensifying debates over the abolition of slavery led to a heightened period of re spatialization in the region Taking the question of abolition as a major factor that shaped how different actors responded to these processes this book studies spatial imaginations in a selection of abolitionist and proslavery literature of the era Through this diversity of imaginations the book points to a multitude of Souths in various economic political and cultural entanglements in the American Hemisphere and the Circumatlantic Thus it challenges monolithic and provincial representations of the South as a provincial region distinct from the rest of the country

This is likewise one of the factors by obtaining the soft documents of this **Regional Imagination The South And Recent American History** by online. You might not require more get older to spend to go to the books start as skillfully as search for them. In some cases, you likewise do not discover the notice Regional Imagination The South And Recent American History that you are looking for. It will utterly squander the time.

However below, considering you visit this web page, it will be suitably definitely simple to get as capably as download lead Regional Imagination The South And Recent American History

It will not acknowledge many era as we run by before. You can reach it even though take steps something else at house and even in your workplace. hence easy! So, are you question? Just exercise just what we meet the expense of below as with ease as review **Regional Imagination The South And Recent American History** what you once to read!
