Regional and Local Economic Analysis for Practitioners Avrom Bendavid-Val,1983 **Regional and Local Economic Analysis for Practitioners** Avrom Bendavid-Val,1983 **Regional Economic Analysis for Practitioners** Avrom Bendavid-Val,1972 **Regional Economic Analysis for Practitioners** Avrom Bendavid-Val,1974 *Regional Economic Analysis for Practitioners : an Introduction to Common Descriptive Methods* A. Bendavid,1974 *Current Practices for Assessing Economic Development Impacts from Transportation Investments* Glen Weisbrod,2000 This synthesis report will be of interest to DOT administrators supervisors and staff as well as to the consultants working with them in assessing the economic development impacts of existing or proposed transportation investments Metropolitan Planning Organization regional and local staffs might also find it informative It is intended to help practicing planners become aware of the range of methods and analysis techniques available organized by the different categories of agency needs to address different types of planning policy and research needs This synthesis summarizes the current state of the practice by means of a survey of transportation planning agencies in the United States Canada and the United Kingdom This report provides reviews of the analysis methods used in recent project and program evaluation reports of these agencies in addition to a bibliography of economic literature and guides *Fundamentals of Plan Making* Edward J. Jepson, Jr.,Jerry Weitz,2020-12-14 Urban and regional planning programs aspire to prepare practitioners to write and implement comprehensive plans Yet academic planning programs often place greater emphasis on theory than practice To help address this gap *Fundamentals of Plan Making* gives planning students an understanding of research and methods of analysis that apply to comprehensive planning Its informative text and examples will help students develop familiarity with various data sources and acquire the knowledge and ability to conduct basic planning analyses such as population projections housing needs assessments development impact analyses and land use plans Students will also learn how to implement the various citizen participation methods used by planners and develop an appreciation of the values and roles of practicing planners In this revised second edition Edward Jepson and Jerry Weitz bring their extensive experience as practicing planners and teaching faculty to give planning students the practical hands on tools they need to create and implement real plans and policies With an entirely new census data set expanded discussions of sustainability and other topics as well as new online resources including a companion website the book is now more accessible and more informative and its updated chapters on transportation housing environment economic development and other core planning elements also make it a handy reference for planning practitioners **Project Analysis For Local Development** Om Prakash Mathur,2019-09-05 The increasing importance of local level planning in developing countries and disillusionment with highly theoretical sophisticated methodologies have prompted the creation of this simple to use manual for planners and administrators seeking to identify evaluate and select local level development projects This book outlines information required for thorough project evaluation

sources of that information including alternative approaches to data collection methods of analysis with detailed explanations of their strengths and weaknesses and techniques for organizing the results for purposes of decision making Unlike many abstract procedural guides for development that require substantial data and technical manpower two resources usually unavailable at local levels this book is meant for planners and administrators who have had little or no formal training in project analysis and planning Mr Mathur supplements his step by step methodology with explanations of how and when to make appropriate and effective use of the techniques

Yasser Iqbal Daulay,Robbi Rahim,2021-05-11 The Faculty of Economics and Business Bengkulu University UNIB Provinsi Bengkulu Indonesia organized the 3rd Beehive International Social Innovation Conference BISIC 2020 on 3rd 4th Oct 2020 in Bengkulu Indonesia The number of participants who joined the zoom room was recorded at 450 participants Participants came from 4 countries namely Indonesia Malaysia Philippines Thailand BISIC 2020 is implemented with the support of a stable internet network system and a zoom application In the implementation there were several technical obstacles encountered by the participants namely the difficulty of joining the zoom application due to the unstable internet signal The holding of a virtual conference felt less meaningful due to the lack of interaction between speakers and participants The BICED 2020 committee 30 papers were presented and discussed The papers were authored by researchers from Thailand Malaysia Philippines and Indonesian All papers have been scrutinized by a panel of reviewers who provide critical comments and corrections and thereafter contributed to the improvement of the quality of the papers

An Introduction to Community Development Rhonda Phillips,Robert Pittman,2014-11-26 Beginning with the foundations of community development An Introduction to Community Development offers a comprehensive and practical approach to planning for communities Road tested in the authors own teaching and through the training they provide for practicing planners it enables students to begin making connections between academic study and practical know how from both private and public sector contexts An Introduction to Community Development shows how planners can utilize local economic interests and integrate finance and marketing considerations into their strategy Most importantly the book is strongly focused on outcomes encouraging students to ask what is best practice when it comes to planning for communities and how do we accurately measure the results of planning practice This newly revised and updated edition includes increased coverage of sustainability issues discussion of localism and its relation to community development quality of life community well being and public health considerations and content on local food systems Each chapter provides a range of reading materials for the student supplemented with text boxes a chapter outline keywords and reference lists and new skills based exercises at the end of each chapter to help students turn their learning into action making this the most user friendly text for community development now available

Assessing the Economic Impacts of Recreation and Tourism ,1985 **ENVIRONMENTAL INDICES : SYSTEMS ANALYSIS APPROACH - Volume I** Yuri A. Pykh ,D. Eric Hyatt,Roman J.M Lenz ,2000-09-19

Environmental Indices Systems Analysis Approach examines the theoretical development of environmental indices and their practical application. Indicators can be powerful tools in guiding data and information collection processes and careful development will lead to more focused and cost effective global monitoring and observing systems at international level. The authorship is drawn from a group of internationally distinguished scientists and researchers who are actively working towards a comprehensive set of tools and protocols such as simulation models, fuzzy clustering analysis and GIS methodologies that will lead to the development of meaningful environmental indices. This book will be a vital reference work for students, teachers and researchers together with policy makers, planners and all professionals involved in development programs.

Planning Local Economic Development Nancey Green Leigh, Edward J. Blakely, 2016-12-06. Written by authors with years of academic, regional and city planning experience, this classic text has laid the foundation for practitioners and academics working in planning and policy development for generations. With deeper coverage of sustainability and resiliency, the new Sixth Edition explores the theories of local economic development while addressing the issues and opportunities faced by cities, towns and local entities in crafting their economic destinies within the global economy. Nancey Green Leigh and Edward J. Blakely provide a thoroughly up to date exploration of planning processes, analytical techniques and data and locality, business and human resource development as well as advanced technology and sustainable economic development strategies.

Management Science in Hospitality and Tourism Muzaffer Uysal, Zvi Schwartz, Ercan Sirakaya-Turk, 2017-03-03. *Management Science in Hospitality and Tourism* is a timely and unique book focusing on management science applications. The first section of the book introduces the concept of management science application in hospitality and tourism and related issues to set the stage for subsequent sections. Section II focuses on management science applications with conceptual pieces, empirical applications and best practices with examples coming from different parts of the world and settings. The last section ends with a chapter focusing on challenges and future research directions. This book goes beyond revenue management topics and presents a broad range of topics in management science applications as they relate to hospitality and tourism cases. Researchers and students in hospitality and tourism will find this book very useful since it contains chapters on data analytics, e-commerce and technology, revenue and yield management, optimization methods, resource allocation, goal programming, dynamic programming, Markov chain models, trends analysis and detection, measuring potential and attractiveness in tourism development, performance measures and use of indices in hospitality and tourism and more. There is a heightened interest in these areas of business applications in today's data driven business environment and this book addresses that interest. This book is the only comprehensive text on management science applications in hospitality and tourism. It will help managers and hospitality and tourism students as future managers to develop an in depth understanding of the importance of data analysis, interpretation and generating information and intelligence for decision making. It covers a broad range of applications representing different geographic regions of the world.
