Routledge Revivals: Regional Development in Western Europe (1975) Hugh Clout,2017-11-22 First published in 1975 this book provides a straightforward examination of regional differences and regional development in the countries of Western Europe Professor Clout divides this into two parts The first examines a series of themes with reference to the whole of Western Europe and the second part discusses regional development in individual countries or groups of countries Contributions by experts from the UK and from mainland Europe present an essentially geographic approach combining thematic and country by country discussions

Regional Development in Central and Eastern Europe Grzegorz Gorzelak,John Bachtler,Maciej Smętkowski,2018-10-24 This book provides an up to date assessment of the main processes and dilemmas of regional development and regional policy in the newer European Union Member States in Central and Eastern Europe and neighbouring countries It highlights the difficulties of balancing the demands within the new Member States for rapid regional growth and development with firstly the demands of the European Union overall that restructuring and development should conform to the aims and principles of EU common policies and secondly with budgetary constraints The book covers a wide range of issues including global and national challenges to regional convergence and cohesion regional dynamics city networks and border issues the effectiveness of policy responses at national and European levels including an assessment of policy experiences from outside the new Member States and likely future developments

Regional Policy in Europe S.S Artobolevskiy,2012-10-12 Based on the author s extensive research in the field this book analyzes regional policy for the whole of Europe Comparing East and West it offers a new model of regional policy and gives an overview of the direction that it may take in Europe as a whole Topics covered include the evaluation of regional policy its main aims its infrastructure in Western Europe its form in Eastern Europe and the development of regional policy from 1917 to the 1990s The book is intended for professionals and academics

working in the areas of regional studies economics and policy studies Protected Areas and Regional Development in Europe Ingo Mose, 2016-04-15 While originally created as reserves for beautiful landscapes and endangered species protected areas in Europe were subsequently used as a means to preserve whole ecosystems with restrictions on human activities and impacts More recently protected areas are also being considered as instruments for regional development particularly in marginal regions facing severe economic and socio cultural problems Contrary to previous conservation focused policies new approaches aim to blend conservation and development functions making protected areas real living landscapes and integrating activities such as agriculture forestry handicrafts tourism and education with the conservation and sustainability aspects The past decade has seen a marked increase in these innovative and dynamic types of protected areas However the policies of individual European countries are very varied This volume provides a comprehensive overview of the relationship between protected areas and regional development policies both in theory and practice Illustrated with a wide range of case studies from across Europe it compares the different concepts strategies and instruments being used In conclusion it suggests the most innovative and successful ways to use protected areas for regeneration and sustainable regional development **Mobilizing Regions, Mobilizing Europe** Sebastian M. Buettner, 2013-10-23 Regional development strategies are becoming more similar all around Europe even though regional differences are more pronounced than ever and many European regions have become more autonomous actors This thesis of a peculiar standardized diversification of sub national space in the modern European Union is the point of departure of this book Based upon the analytical premises of Stanford School Sociological Institutionalism Sebastian M B ttner studies regional mobilization in contemporary Europe from a new and innovative perspective He highlights the importance of scientific expertise and global scientific models in contemporary regional development practice and exemplifies their significance with the example of region building in Poland in the course of EU integration This new wave of regional mobilization is not just conceived as an effect of local national or European politics but as an expression of a larger conceptual shift in governing society and space This well researched and clearly argued book not only provides fresh insights into region building and regionalization in contemporary European space but also contributes to the new sociology of Europeanization It will be an illuminating read for scholars and students in Sociology European and EU studies International Relations Cultural Studies Geography Regional Science Polish Studies and related subject areas *The Routledge Handbook to Regional Development in Central and Eastern Europe* Gábor Lux, Gyula Horváth, 2017-07-06 Twenty five years into transformation Central and Eastern European regions have undergone substantial socio economic restructuring integrating into European and global networks and producing new patterns of regional differentiation and development Yet post socialist modernisation has not been without its contradictions manifesting in increasing social and territorial inequalities Recent studies also suggest there are apparent limits to post socialist growth models accompanying a new set of challenges within an increasingly uncertain world Aiming to

deliver a new synthesis of regional development issues at the crossroads between post socialism and post transition this book identifies the main driving forces of spatial restructuring in Central and Eastern Europe and charts the different regional development paths which take shape against the backdrop of post crisis Europe A comparative approach is used to highlight common development challenges and the underlying patterns of socio economic differentiation alike The issues investigated within the Handbook extend to a discussion of the varied economic consequences of transition the social structures and institutional systems which underpin development processes and the broadly understood sustainability of Central and Eastern Europe s current development model This book will be of interest to academics and policymakers working in the fields of regional studies economic geography development studies and policy

Young People and Active Citizenship in Post-Soviet Times Beata Krzywosz-Rynkiewicz, Anna Zalewska, Kerry J. Kennedy, 2017-08-10 Situated within the context of post soviet times this book explores young people s citizenship activities and values in three distinct environments post soviet union countries post soviet union satellites and countries that were independent of the soviet union Its purpose is to investigate the influence of these contexts on the ways young people see their citizenship in what are now emerging democracies The future of nations depends to a large extent on whether citizens will continue to support existing values and will engage in activities to support those values Using a framework designed by Kennedy 2006 and further developed by Zalewska Krzywosz Rynkiewicz 2011 the study examined the citizenship values of 3794 students aged 11 14 18 from 11 European countries The main themes of this book include exploring similarities and differences in citizenship activities within countries and across countries advancing explanations for these similarities and differences highlighting the importance of contexts that influence citizenship activities and values and assessing the extent to which democratic values are reflected in young people s citizenship activities

Regional Development Strategies Jeremy Alden, Philip Boland, 2013-10-18 Regional development strategies have become the focus of attention in many countries in the 1990s This textbook provides a conceptual theoretical and empirical analysis of regional development strategies within a European context It examines the various regional development strategies which are currently being pursued within the regions of Europe defined in its loosest term to include East and West The book describes how many different European regions are attempting to reduce regional disparities by engaging themselves in coherent and focused regional development strategies and there is also private sector approach to regional economic development There are many case studies from Europe and from other parts of the world including Japan thereby providing lessons that different countries and regions can learn from each other
