The Regional Dimension of Transformation in Central Europe Grzegorz Gorzelak, 1996 Providing a new picture of the socio economic map of central Europe focusing on Poland after several years of transformation this book gives an account of the major problems of regional restructuring The author identifies the opportunities and problems faced by particular regions relating the Polish experience to the experiences of other central European countries and provides a general picture of spatial patterns of transformation in this part of Europe

The Regional Dimension of Transformation in Central Europe Grzegorz Gorzelak, 2012-10-12 Providing a new picture of the socio economic map of central Europe after several years of transformation and focusing in particular on Poland this book gives an account of the major problems of regional restructuring The author identifies the opportunities and problems faced by particular regions by relating the Polish experience to the experience of other central European countries This in turn provides a general picture of spatial patterns of transformation in this specific part of Europe and will interest those concerned with the transformation of Eastern Europe

The Routledge Handbook to Regional Development in Central and Eastern Europe Gábor Lux, Gyula Horváth, 2017-07-06 Twenty five years into transformation Central and Eastern European regions have undergone substantial socio economic restructuring integrating into European and global networks and producing new patterns of regional differentiation and development Yet post socialist modernisation has not been without its contradictions manifesting in increasing social and territorial inequalities Recent studies also suggest there are apparent limits to post socialist growth models accompanying a new set of challenges within an increasingly uncertain world Aiming to deliver a new synthesis of regional development issues at the crossroads between post socialism and post transition this book identifies the main driving forces of spatial restructuring in Central and Eastern Europe and charts the different regional development paths which take shape against the backdrop of post crisis Europe A comparative approach is used to highlight common development challenges and the underlying patterns of socio economic differentiation alike The issues investigated within the Handbook extend to a discussion of the varied economic consequences of transition the social structures and institutional systems which underpin development processes and the broadly understood sustainability of Central and Eastern Europe s current development model This book will be of interest to academics and policymakers working in the fields of regional studies economic geography development studies and policy

Regional Development in Central and Eastern Europe Grzegorz Gorzelak, John Bachtler, Maciej Smętkowski, 2018-10-24 This book provides an up to date assessment of the main processes and dilemmas of regional development and regional policy in the newer European Union Member States in Central and Eastern Europe and neighbouring countries It highlights the difficulties of balancing the demands within the new Member States for rapid regional growth and development with firstly the demands of the European Union overall that restructuring and development should conform to the aims and principles of EU common policies and secondly with budgetary constraints

The book covers a wide range of issues including global and national challenges to regional convergence and cohesion regional dynamics city networks and border issues the effectiveness of policy responses at national and European levels including an assessment of policy experiences from outside the new Member States and likely future developments

Integration and Transition in Europe Grzegorz Gorzelak, Gunther Maier, George Petrakos, 2013-01-11 With the harmonization of the EU economies and issues of EU enlargement and integration with Europe's transition economies topping the political agenda the economic geography of Europe is being recast This important volume analyses the spatial implications of the integration transition process and examines key issues such as north south and east west divides regional cooperation and cross border dynamics *Handbook on Cohesion Policy in the EU* Simona Piattoni, Laura Polverari, 2016-08-26 This Handbook covers all major aspects of EU Cohesion policy one of the most significant areas of intervention of the European Union Over five parts It discusses this policy's history and governing principles the theoretical approaches from which it can be assessed the inter institutional and multi level dynamics that it tends to elicit its practical implementation and impact on EU member states its interactions with other EU policies and strategies and the cognitive maps and narratives with which it can be associated An absolute must for all students of the EU *Spaces and Places in Central and Eastern Europe* Gyula Horváth, 2014-08-21 Across Europe there is a rapidly changing context for undertaking regional development In the 20th century development of the former planned economies Bulgaria Czech Republic Hungary Poland Romania and Slovakia was defined by these countries differences rather than their common ideological roots These disparities altered over time and were marked by changing social structures However the ranking of regions has remained the same as core areas have strengthened their positions while the structural obstacles to the modernisation of peripheral areas have remained due to a lack of coherent regional policy This book examines the specific regional development paths of Central and Eastern European countries and evaluates the effects of the determining factors of this process Through analysis of the system of objectives instruments and institutions used in different eras and case studies of Hungary East Germany and Germany development models are established and compared with Western European patterns The book summarises the experiences of Central and Eastern European regional cooperation and examines the basic nature of the cohesion problems of the Carpathian Basin trans national macro region It confirms by comparative historical analyses that the transformation was indeed unique This book will make a welcome addition to the literature for students and academics interested in the broader picture of Central and Eastern European politics future integration within the European Union and the history of regional development processes **Transregional Europe** William Outhwaite, 2020-04-13 Transregional Europe integrates work in human geography and planning with related scholarship in history and the other social sciences covering public perceptions of European macro regions and EU macro regional planning *The East European Economy in Context* David Turnock, 2003-09-02 Since 1989 the former communist countries of Eastern Europe have witnessed a profound and dramatic

upheaval The economic coherence of this region formerly maintained through the adoption of the Soviet system of government has fractured In *The East European Economy in Context Communism and Transition* David Turnock examines the transition from communist to free market economies both within and between the states of Eastern Europe As well as containing an informative survey of the impact of communism *The East European Economy in Context* provides Political profiles of individual countries A clear study of the contrasts between northern and balkan groups Summaries of regional variations in the transition process An exploration of the new state structures and resources Discussion of political stability inter ethnic tensions and progress in economic change **Regional Policy and Planning in Europe** Paul Balchin,Ludek Sykora,Gregory Bull,2002-06-01 *Regional Policy and Planning in Europe* explores the ways regional policy and planning systems across Europe have been influenced by economic and monetary union the impending enlargement of the European Union the devolution of administrative power from central government to regional authorities the increased importance of environmental and urban issues Presenting a comprehensive overview of the economic basis of integration this book examines the evolution of various systems of government planning and forms of devolution The Futures of the City Region Michael Neuman,Angela Hull,2013-09-13 Does the city region constitute a new departure in urbanisation If so what are the key elements of that departure The realities of the urban in the 21st century are increasingly complex and polychromatic The rise of global networks enabled by supranational administrations both governmental and corporate strongly influences and structures the management of urban life How we conceive the city region has intellectual and practical consequences First in helping us grasp rapidly changing realities and second in facilitating the flow of resources ideas and learning to enhance the quality of life of citizens Two themes interweave through this collection within this broad palette First are the socio spatial constructs and their relationship to the empirical evidence of change in the physical and functional aspects of urban form Second is what they mean for the spatial scales of governance This latter theme explores territorially based understandings of intervention and the changing set of political concerns in selected case studies In efforts to address these issues and improve upon knowledge this collection brings together international scholars building new data driven cross disciplinary theories to create new images of the city region that may prove to supplement if not supplant old ones The book illustrates the dialectical interplay of theory and fact time and space and spatial and institutional which expands on our intellectual grasp of the theoretical debates on city regions through practical knowing citing examples from Europe the United States Australasia and beyond This book was originally published as a Special Issue of *Regional Studies*

The Economic Geography of the IT Industry in the Asia Pacific Region Philip Cooke,Glen Searle,Kevin O'Connor,2013-07-18 The development of the information technology IT industry in the Asia Pacific region faces two challenges Firstly can its established physical technical regional and governance infrastructures be adapted to meet the challenges embedded in the set of products and processes created by the IT industry Secondly as this adaptation evolves

which cities and regions will be best suited to connect to or lead global responses to these challenges The chapters in this book have set out to explore these questions providing details of change in a range of aspects of the IT industry such as mobile phones software services and flat screen design in regions in Japan Korea Taiwan India China and Australia The book also outlines the policy responses of national and regional governments in Singapore India and China and India These case studies provide a basis to understand effective strategies which could be formulated for the future This book s originality emerges from the fine detail provided about firms in particular regions and cities from research carried out by young scholars in the past two years This makes it very useful for readers keen to understand the recent changes in this dynamic industry in a fast growth part of the world and it will also help to shape thinking by policy makers on policy settings that can be applied

Economic Growth and Structural Features of Transition E. Marelli,M. Signorelli,2010-01-20 This book examines theoretically and empirically the key aspects and differences of economic growth It provides a comprehensive investigation of the numerous features of development in transition countries covering the last two decades from the fall of the Berlin Wall in 1989 to the current financial crisis

Central and Eastern Europe ,2009-09-28 The collapse of communism in 1989 paved the way for the reunification of the continent This book analyzes the impact of the different dynamics of change since 1989 on public policy and on various economic and political sectors

Mapping Modernities Alan Dingsdale,2013-02-01 When the communist governments of Eastern Europe and the Soviet Union collapsed between 1989 and 1991 there was a revived interest in a region that had been largely neglected by western geographers Mapping Modernities draws on the resulting work and other original theoretical and empirical sources to describe interpret and explain the place and spatial order of modernities in Central and Eastern Europe since 1920 to give a theoretically underpinned regional geography of the area The book interprets the geography of Central and Eastern Europe from 1920 to 2000 in terms of spatial modernity It details the individual and collective development of places produced within the three modernising projects of Nationalism Communism and Neo liberalism

Europe since 1989 Philipp Ther,2018-08-21 An award winning history of the transformation of Europe between 1989 and today In this award winning book Philipp Ther provides the first comprehensive history of post 1989 Europe offering a sweeping narrative filled with vivid details and memorable stories Europe since 1989 shows how liberalization deregulation and privatization had catastrophic effects on former Soviet Bloc countries Ther refutes the idea that this economic shock therapy was the basis of later growth arguing that human capital and the transformation from below determined economic success or failure He also shows how the capitalist West s effort to reshape Eastern Europe in its own likeness ended up reshaping Western Europe especially Germany Bringing the story up to the present Ther compares Eastern and Southern Europe after the 2008 9 global financial crisis A compelling account of how the new order of Europe was wrought from the chaotic aftermath of the Cold War Europe since 1989 is essential reading for understanding post Brexit Europe and the present dangers for democracy and the

European Union **Social and Economic Development in Central and Eastern Europe** Grzegorz Gorzelak, 2019-08-13

The integration of post socialist Central and Eastern Europe into the EU is one of the success stories of European development. The region has seen significant economic convergence, dramatic changes in socio economic indicators and improvements in the natural environment. However, some challenges remain such as political divergence, public governance issues and population demographics. This book identifies and analyses the key post 1990 developments across the New Member States at the sub national and national levels with frequent country level and regional comparisons. Careful attention is paid to drawing out commonalities in development trajectories while appreciating each country's unique context. Drawing on the academic literature and illuminating empirical material, the broad range of topics discussed in the book paints a detailed picture of both change and stability in Central and Eastern Europe. It will be valuable reading for advanced students, researchers and policymakers in regional studies, European studies, human geography, political economy and transition economics.

East Central Europe and the former Soviet Union Michael Bradshaw, Alison Stenning, 2016-04-15. A comprehensive introduction to the important economic, social and political processes and development issues in this increasingly popular area of study. Employing a groundbreaking thematic approach, the book centres its discussion on the interrelation between contemporary development theories and continuing transition issues in this huge and complex region.

Regional and Urban Economics and Economic Development Mary E. Edwards, 2017-09-25. Thorough and authoritative. *Regional and Urban Economics and Economic Development: Theory and Methods* provides students with a sound approach to analyzing the economic progress of a region or urban area. The textbook is divided into four sections for ease of reference. The first section, *Market Areas and Firm Location Analysis*, introduces spatial economics and location theory, while the next section, *Regional Growth and Development*, analyzes regional growth and development models and policy. Introducing the foundations of urban economics, *Urban Land Use and Urban Form* examines land rent, land use patterns and the effects of attempts to control land uses. The final section, *Urban Problems and Policy*, investigates local public finance and introduces the policy analysis involved in countering urban problems. Addressing these topics from the perspectives of how they affect the population at large and how they become established within public policy, *Regional and Urban Economics and Economic Development: Theory and Methods* provides students with an essential foundation not only to understand but also to contemplate the dynamics of varying economic factors as they relate to an area's growth.

Ideologies of Eastness in Central and Eastern Europe Tomasz Zarycki, 2014-03-21. This book explores how the countries of Eastern Europe, which were formerly part of the Soviet bloc, have since the end of communist rule developed a new ideology of their place in the world. Drawing on post colonial theory and on identity discourses in the writings of local intelligentsia, the book shows how people in these countries no longer think of themselves as part of the east and how they have invented new stereotypes of the countries to the east of them, such as Ukraine and Belarus, to which they see themselves as superior. The book

demonstrates how there are a whole range of ideologies of eastness how these have changed over time and how such ideologies impact in a practical way relations with countries further east
