Regional Policy In The European Community

Philip McCann

Regional Policy In The European Community:

Politics of European Union Regional Policy Ian Bache, 1998-12-01 This book provides an over view of the key developments in the politics of European Union regional policy from the creation of the EEC to the present day The discussion of who decides what and to what effect in relation to regional policy is part of the contemporary academic debate about the nature of politics and policy making in the EU Bache argues that no single theory can explain the complex politics of EU regional policy making In particular current theories pay insufficient attention to the importance of implementation in shaping policy outcomes The book concludes that the application of different analytical tools at different stages of policy making provides the fullest picture of the politics of EU regional policy This title is published in conjunction with UACES the University Association for Contemporary European Studies UACES web site can be found at www.uaces.org **Regional State Aid and Competition Policy** Fiona Wishlade, 2003-01-01 The increasing importance attached to the economic and social cohesion of the European Union since the 1980s and the role of competition policy in achieving this objective has special significance for the control of regional aids given the general ban on State aid Regional aids are considered to have the potential to contribute to economic and social cohesion and to undermine its attainment The notion of competition policy as an instrument of economic and social cohesion has become a standard part of Commission rhetoric in defence of its actions This book is concerned with the influence of EU competition policy on the regional policies of the Member States It focuses on how the European Commission has interpreted the derogations from the State aid ban to enable the conduct of regional aid policies The book takes both a historical perspective tracing the evolution of policy and a thematic one examining in particular the relationship between EU competition and cohesion policies and the treatment of aid to very large projects The author clearly demonstrates that in reality the competition policy control of regional aids is of much longer standing than the community s explicit regional aid policy and in many respects of arguably greater influence She shows how competition policy has for almost thirty years shaped the design scope and implementation of national regional aid policies in no EU country has regional policy been unaffected by Commission intervention in the name of competition policy Moreover the policy principles developed for the EU now apply extraterritorially to members of the European Economic Area and to the current applicant countries The study s overall perspective is policy oriented It considers both the impact of Commission intervention in the past and the implications of policy for the future especially in the context of enlargement and a wider Europe It will be an invaluable resource for all policymakers and practitioners active in the fields of economic development regional policy and State aid law at European national and subnational levels The Regional and Urban Policy of the European Union Philip McCann, 2015-01-30 The regional and urban development policy of the European Union or more precisely EU Cohesion Policy is undergoing change This development is driven by the enormous transformations in European regions and by shifts in thinking and analysis The iss **Regional Policy in the European Community** Douglas

Yuill, Kevin Allen, Chris Hull, 2025-09-12 **Regional Policy in the European Community 1980** presents a structured overview of regional incentives and policy in the European Community countries set in the context of the regional problem in those countries Four main policy elements can be isolated in EEC countries infrastructure investment the use of state owned or state controlled firms to help develop problem regions the use of disincentives in regions under pressure and regional incentive expenditure This book treats each of the EEC countries systematically examining the problem the development of policy the incentives and a comparison with other countries

Coherence of EU Regional Policy John Bachtler, Ivan Turok, 1997-05-02 This book brings together a rich selection of up to date practical experience of EU regional policy from across Europe It provides different perspectives on the design and operation of regional development strategies under the Structural Funds from people closely involved in studying managing or advising on the process at EU national and regional levels It therefore offers a more comprehensive and detailed understanding of the structural policies than has been available hitherto This will prove particularly useful to researchers practitioners and students interested in European regional policies and processes

Regional Policy Norbert Vanhove, Leo Hendrik Klaassen, 1987 Addressing regional economic policy in Europe this volume covers the theory of regional economic development and policy regional policy at the national level past and present regional disparities in the European Union impact of the integration on regions regional policy in the European Union from 1975 to 1999 the Structural Funds 2000 2006 and openness to Eastern European countries First published in 1980 and authored in conjunction with Klaassen with a second edition in 1987 this edition is updated and enlarged to include recent developments of EU regional strategies and policies Annotation copyrighted by Book News Inc Portland OR

Understanding State Aid Policy in the European Community Phedon Nicolaides, Sanoussi Bilal, 2023-12-11 Why do the Member States of the European Union still grant aid and is that aid compatible with the objective of integration which should result in a better allocation of resources The main purpose of this book is to explain the principles and methods of EC state aid policy in a manner which is both accessible and useful to practitioners and policy makers by bringing together contributions from officials both Community and national industry representatives and academics In particular it examines both theory on the role and objective of public assistance and current practice controlling such assistance It addresses the issue of state aid from economic legal and administrative perspectives and offers detailed information on current practice through case studies It also considers likely future developments in the Community framework of state aid control Finally this book identifies major weaknesses in the present system of state aid rules and paves the way for a proper economic analysis of the effects of forty years of state aid policy in the European Community

Regional Policy and Planning in Europe Paul N. Balchin, Ludek Sykora, Gregory H. Bull, 1999 **Regional Policy and Planning in Europe** explores the ways regional policy and planning systems across Europe have been influenced by economic and monetary union the impending enlargement of the European Union the devolution of administrative power from central government to regional authorities

the increased importance of environmental and urban issues Presenting a comprehensive overview of the economic basis of integration this book examines the evolution of various systems of government planning and forms of devolution *Does EU Regional Policy have a future and will Latvia be able to benefit from it?* Chris Breuer, 2004-12-15 Master s Thesis from the year 2004 in the subject Politics Topic European Union grade 2.0 B University of Münster 48 language English abstract In this thesis I took a closer look at the second largest and most flexible policy field of the EU Regional Policy At present there are debates about the future of EU Regional Policy closely linked to the current debate about the EU budget for the planning period 2007-2013 for it is this budget that sets the boundaries for the financial resources of EU Regional Policy I assume that the future of the EU its acceptance within the community and its legitimacy by the community is dependent on the outcome of this ongoing debates and the future of regional policy By analysing the developments and the ongoing debates concerning EU Regional Policy so far I give prospects for the future of the EU in general and EU Regional Policy in particular The eastern enlargement is highly influencing regional policy and will result in a financial shift from west to east I used Latvia as a case study to show in what way concrete structures of a post Soviet state are being influenced and developed In order to investigate and do the appropriate research concerning my case study I lived in Riga the capital and political Walhalla of Latvia for half a year By being there and participating in seminars and congresses and by carrying out a project with a main focus to bridge the information gap between local Latvian authorities and the EU I got a good overview how the different governmental officials but the normal people as well judge the EU and EU Regional Policy in particular I learned that regional policy is extremely subject to the spectators view The judgement of EU Regional Policy depends on different political social and moral argumentations That the angle on how to look at the topic is very different seems obvious Let s take a Latvian mayor who is also part time farmer as an example Although he is interested in EU support he is barely able to fulfil the administrative and material conditions necessary to be eligible for EU support His Dutch colleague on the other hand is concerned about the financing of his relatively efficient local administration and he might judge financial support to weaker EU regions as competition This example shows the different starting points The decision making process shows similar disparities At the moment there is a clear gap between net contributors and net beneficiaries within the Union They have not come to a compromise concerning EU Regional Policy and the budget yet *The Law of EU Regional Policy* Andrew Evans, 1995 This book examines the law of the regional policy of the European Union In doing so it raises questions as to the usefulness of the established distinction in integration theory between negative and positive integration The approach of the Union towards regional problems seems to be the outcome of a complex of policy interactions which cannot easily be captured by this distinction In more practical terms the book deals with issues which may be legally presented in terms of liberal pluralistic and interventionist equality having major social importance and involving use of substantial financial resources Such issues are topical because of challenges to European Union regional policy entailed by German re unification

creation of the European Economic Area the fourth enlargement of the Union and the planned future accession of several countries of Central and Eastern Europe **Handbook on Cohesion Policy in the EU** Simona Piattoni, Laura Polverari, 2016-08-26 This Handbook covers all major aspects of EU Cohesion policy one of the most significant areas of intervention of the European Union Over five parts It discusses this policy s history and governing principles the theoretical approaches from which it can be assessed the inter institutional and multi level dynamics that it tends to elicit its practical implementation and impact on EU member states its interactions with other EU policies and strategies and the cognitive maps and narratives with which it can be associated An absolute must for all students of the EU **Main Texts Governing the Regional Policy of the European Communities** Commission of the European Communities, 1985 *Regional Policy in the European Community* European Economic Community. Commission, *Regional Policy in the European Community*, 1966 *Policy-making in the European Union* Helen S. Wallace, Mark A. Pollack, Alasdair R. Young, 2010 The policies of the European Union profoundly affect the lives of people in Europe and around the world The new edition of this highly successful textbook outlines how and why such decisions are made as well as the key challenges faced by policy makers in the current political and economic climate Policy Making in the European Union begins by clarifying the institutional framework of the EU and the analytical approaches used to understand it A wide range of crucial and illustrative policies are then explored in detail by subject experts This volume includes new chapters on ways of analyzing the EU s policy process and on energy policy A central theme to the volume is how the recent expansion to twenty seven member states has affected policy making across the different policy sectors The conclusion reflects on how this challenge and the protracted constitutional stalemate have affected policy making in the EU It also explores the impact of the financial and economic crises that have struck Europe over the past several years The sixth edition is fully up to date and is the ideal text for all those with an interest in the policy making of the European Union **EU Cohesion Policy and European Integration** John Bachtler, Carlos Mendez, 2016-04-22 EU Cohesion policy accounts for a major share of the EU budget and is central to economic and social development in many European countries This book provides a comprehensive and theoretically informed analysis of how Cohesion policy has evolved over time in particular the budgetary and policy dynamics of the 2007 13 reform In the context of the budgetary politics of the EU the book examines the process by which the reform of Cohesion policy has been shaped it identifies the key factors that explain the allocation of funding assesses the roles of the Member States European Commission and European Parliament and tests whether the process and outcome are consistent with the expectations of EU decision making and integration theories Based on extensive EU wide research over a ten year period the book provides new insights into both the process and outcomes of EU policy reform Presenting original research in an accessible format this book will be of interest to scholars as well as undergraduate and postgraduate students in the fields of European integration and policy studies *Handbook of Public Administration and Policy in the European Union* M. Peter

van der Hoek, 2005-06-13 *The Handbook of Public Administration and Policy in the European Union* focuses on the current state of the EU while also demonstrating how its current structure came into being and how it may change in the near future. Although most existing literature is either policy oriented or institution oriented, this textbook employs a different, more comprehensive approach. Not only does it analyze selected EU laws and most EU institutions, it is also unique in that it brings together EU public administration, EU institutions, and most importantly, EU policies into a comprehensive text. Divided into five parts, the book provides an overview of theory, discourses on European integration, followed by an analysis of the development of European organizations. Part II explains the nature of the EU, highlighting its institutions. Part III addresses various dimensions of public administration, followed by a review in Part IV of major EU policies, including the Common Agricultural Policy. The textbook concludes with a history of Economic and Monetary Union and a study of the European Central Bank and the euro.

The European Union Encyclopedia and Directory 1999 Europa Publications, 1999. Charts the Union's development from its conception through to the implementation of the Maastricht Treaty and its continuing activities. Includes an A-Z section of concise definitions and explanations of organizations, acronyms, and terms. The most extensive collection of information available on the European Union. The third edition of this definitive reference work has been thoroughly revised and updated to provide the latest information on the EU. It charts the Union's development from its conception through to the creation of the single market in 1992, to the implementation of the Maastricht Treaty and its continuing activities. Contents include: An A-Z section of concise definitions and explanations of organizations, acronyms, and terms; plus short articles on the member states; A series of introductory articles providing a broader view of the policies and activities of the EU; Statistical data for the entire EU on trade, employment, and industrial production; An extensive directory of key names, addresses, phone and fax numbers, e-mail, and internet addresses for all major European Union institutions and official bodies; Details of MEPs, their political groups, and national parties; members of major committees; Directorates General and other commission bodies.

The Regional Dimension of the European Union Charlie Jeffery, 2015-03-24. Decision making within the EU has moved to a third regional level of government, emerging in the EU policy process alongside the first Union and second member state levels. Multi-level governance can increasingly be identified. These papers describe and analyse this third level.

Policy-making in the European Union Helen Wallace, Mark A. Pollack, Alasdair R. Young, 2015. The policies of the European Union profoundly affect the lives of people in Europe and around the world. The new edition of this highly successful textbook outlines how and why such decisions are made, as well as the key challenges faced by policy makers in the current political and economic climate.
