Scholarship and Policy-Making Raimo Väyrynen, 2023-01-03 This book provides a broad overview of Professor Raimo Väyrynen's academic work, his role in international research organizations and his contributions to policy debates. It offers an interesting review of important political issues during the time span of half a century from disarmament in Europe to the changing relationship between state sovereignty and transnational forces. Väyrynen has dealt with the changing agenda of peace and international relations, security and the arms race and the world economy. This book provides comprehensive analyses of the regional and systemic structure of international relations with the emphasis on conflicts and warfare between nations. It argues that while states, even smaller ones, still matter, transnational issues are increasingly important. Taking a historical perspective, the articles suggest that large-scale violence and arms races have been recurrent and cyclical phenomena in international relations. These events reflect the deep-seated inequalities in the political and economic systems which moreover vary considerably between regions. The publication is important reading for any researcher as well as students, policy makers and the science-oriented public at large. Traces the changing agenda of international relations from disarmament and the world economy to the changing relationship between state sovereignty and transnational forces. Provides analyses of the regional and systemic structure in international relations with the emphasis on conflicts and warfare. Argues that large-scale violence and the arms race have been recurrent and cyclical phenomena in international relations. Reviews important political issues from peace and conflict in Europe to the changing power relationship in the world.

ASEAN Law and Regional Integration Diane Desierto, David Cohen, 2020-12-29 Since the passage of the ASEAN Charter in 2008, ASEAN has transformed itself from a loose economic cooperation into a formal intergovernmental organization designed to create an ASEAN Community forged together in three pillar communities: the ASEAN Political Security Community, ASEAN Economic Community, and ASEAN Socio-Cultural Community. Forty years of pre-Charter ASEAN practices coupled with over ten years of post-Charter ASEAN practices thus far has witnessed the conclusion of hundreds of legally binding regional treaties and similarly binding international instruments in all areas of economic, political, security, and socio-cultural concerns for Southeast Asia to achieve ASEAN's rule of law-based development objective. Pre-Charter and post-Charter ASEAN Law is variably implemented under a hybrid governance system that depends heavily on ASEAN Member State national implementation alongside ASEAN's evolving regional institutions. The result is not a model of deep integration as in the case of the European Union but a particular paradigm of horizontal embeddedness of ASEAN Law in all its norms and operational practices contingent on the capacities and compliance of national government bureaucracies in Southeast Asia. This edited collection is a concise authoritative volume covering the practical, doctrinal, legal, and policy aspects of the new regime of ASEAN Law and its consequences for realizing rule of law-based development in Southeast Asia's emerging single market and production base. Drawing together contributions from a range of key thinkers in the field, the editors present the legal and policy-making issues implicated in the practical implementation of Southeast Asia's single market and

its regime for the free movement of goods services foreign investment and cross border labor The book also examines the nature of regional law making under ASEAN before and after the commencement of regional integration in 2015 the nature of ASEAN s economic regulators as well as the evolving structure for enforcement and harmonization of ASEAN Law through the array of Southeast Asian national courts arbitral tribunals and incipient mechanisms for inter State intra regional and individual State conflict management and dispute resolution This book is highly relevant to students scholars and policy makers with an interest in ASEAN Law and regional policy and to Southeast Asian studies in general Regionalism, Security and Development in Africa Ernest Tooche Aniche, Ikenna Mike Alumona, Innocent Moyo, 2021-04-29 This book charts the history and contemporary landscape of African regionalism investigating how regional cooperation can be used to help to tackle security and development challenges in Africa Africa has a long tradition of regional cooperation with the oldest trade and monetary integration schemes in the developing world but its colonial period and partition of have caused lasting damage that still be seen in today s African economies Contemporary post colonial African regionalism deeply rooted in notions of pan Africanism has served as a means of collective self reliance and economic transformation and development This book starts with the history and theory behind African regionalism before discussing and comparing regional organisations such as the Economic Community of Central African States ECCAS the Economic Community of West African States ECOWAS the Community of Sahel Saharan States CEN SAD Southern African Development Community SADC the Common Market for Eastern and Southern Africa COMESA and the East African Community EAC Finally the book considers how regional integration and cooperation can help to address security and development challenges This ambitious and broad ranging book will be a valuable resource for researchers working on African regionalism security African integration and development and comparative regionalism Policymakers should also consider it a useful guide to the background and contemporary landscape of African regionalism **GLOBAL SECURITY AND INTERNATIONAL POLITICAL ECONOMY**
