Committee on Appropriations. Subcommittee on HUD-Independent Agencies, 1982 **Technology, Sovereignty and International Law** Francis Lyall, 2022-03-10 The dogma of the sovereignty of the state deriving from the Peace of Westphalia underpins much of the modern day international system However developments in recent technology have led this ideology to depart from reality Viewing state sovereignty through the prism of public international law the book will begin with an overview of the settlement of Westphalia how it has influenced international documents ever since and how the advantages of centralised decisions came to be perceived By surveying the Law of the Sea Maritime Law Air and Aviation Telecommunications Postal Services Space Law and Mensuration the book demonstrates how in each the interplay between state sovereignty and developing technologies have caused significant legal change Some changes Lyall argues such as international measures of time and geography have been born out of convenience facilitated by technology developed for the purpose Other areas of change developed out of a desire to reconcile conflicts or harmonise necessary state regulation The book analyses the reasons behind these changes and discusses the ongoing attempts to balance state equality measures adopted by new institutions to secure comprehensive representation It ends by looking to the future of state sovereignty in an increasingly globalised world The book is of use to
