Regret The Persistence Of The Possible:

Regret Janet Landman, 1993 Drawing from psychology economics philosophy anthropology and classic works of literature Landman provides an insightful anatomy of regret what it is how you experience it and how it changes you At best regret is a dynamic changing process one can transcend regret and thus transform the self **Regret** Janet Landman, 2023 Examines the experience of regret from a variety of sources ranging from psychology economics and philosophy to classic works of literature The author examines four views of regret the Romantic the Tragic the Comic and the Ironic as exemplified in such novels as Great Expectations **Regret** Paddy McQueen, 2024 Philosopher Paddy McQueen provides a detailed examination of the nature of regret and its role in decision making Additionally he explores how experiences of regret are shaped by social discourses especially those about gender and parenthood **The Moral Psychology of Regret** Anna Gotlib, 2019-10-21 What kind of an emotion is regret What difference does it make whether how and why we experience it and how does this experience shape our current and future thoughts decisions goals Under what conditions is regret appropriate Is it always one kind of experience or does it vary based on who is doing the regretting and why How is regret different from other backward looking emotions In *The Moral Psychology of Regret* scholars from several disciplines including philosophy gender studies disability studies law and neuroscience come together to address these and other questions related to this ubiquitous emotion that so many of us seem to dread And while regret has been somewhat under theorized as a subject worthy of serious and careful attention this volume is offered with the intent of expanding the discourse on regret as an emotion of great moral significance that underwrites how we understand ourselves and each other

Regretting Motherhood Orna Donath, 2017-07-11 A provocative and deeply important study of women's lives women's choices and an unspoken taboo that questions the societal pressures forcing women into motherhood Women who opt not to be mothers are frequently warned that they will regret their decision later in life yet we rarely talk about the possibility that the opposite might also be true that women who have children might regret it Drawing on years of research interviewing women from a variety of socioeconomic educational and professional backgrounds sociologist Orna Donath treats regret as a feminist issue as regret marks the road not taken we need to consider whether alternative paths for women currently are blocked off She asks that we pay attention to what is forbidden by rules governing motherhood time and emotion including the cultural assumption that motherhood is a natural role for women for the sake of all women not just those who regret becoming mothers If we are disturbed by the idea that a woman might regret becoming a mother Donath says our response should not be to silence and shame these women rather we need to ask honest and difficult questions about how society pushes women into motherhood and why those who reconsider it are still seen as a danger to the status quo Groundbreaking thoughtful and provocative this is an especially needed book in our current political climate as women's reproductive rights continue to be at the forefront of national debates Moral Engines Cheryl Mattingly, Rasmus Dyring, Maria Louw, Thomas

Schwarz Wentzer,2017-10-01 In the past fifteen years there has been a virtual explosion of anthropological literature arguing that morality should be considered central to human practice Out of this explosion new and invigorating conversations have emerged between anthropologists and philosophers Moral Engines Exploring the Ethical Drives in Human Life includes essays from some of the foremost voices in the anthropology of morality offering unique interdisciplinary conversations between anthropologists and philosophers about the moral engines of ethical life addressing the question What propels humans to act in light of ethical ideals *Emotion Theory: The Routledge Comprehensive Guide* Andrea

Pink,2022-02-01 The world needs this book New

York Times bestselling author Bren Brown An instant New York Times bestseller Named a Best Book of the Year by NPR and Financial Times From the 1 New York Times bestselling author of When and Drive a new book about the transforming power of our most misunderstood yet potentially most valuable emotion regret Everybody has regrets Daniel H Pink explains in The Power of Regret They re a universal and healthy part of being human And understanding how regret works can help us make smarter decisions perform better at work and school and bring greater meaning to our lives Drawing on research in social psychology neuroscience and biology Pink debunks the myth of the no regrets philosophy of life And using the largest sampling of American attitudes about regret ever conducted as well as his own World Regret Survey which has collected regrets from more than 15 000 people in 105 countries he lays out the four core regrets that each of us has These deep regrets offer compelling insights into how we live and how we can find a better path forward As he did in his bestsellers Drive When and A Whole New Mind Pink lays out a dynamic new way of thinking about regret and frames his ideas in ways that are clear accessible and pragmatic Packed with true stories of people s regrets as well as practical takeaways for reimagining regret as a positive force The Power of Regret shows how we can live richer more engaged lives *Maternal*

Regret: Resistances, Renunciations, and Reflections Andrea O'Reilly, 2022-06-08 This collection considers how maternal regret as it is conveyed in remorse resentment dissatisfaction and disappointment troubles the assumptions and mandates of normative motherhood and how it is explored and critiqued in creative non fiction film literature and social media Maternal regret is also examined in relation to the estrangement of mother and child and the remorse and grief felt by both mothers and children caused by the abandonment of mother or child Finally the collection explores how regret opens the space for maternal erudition enlightenment and evolution and makes possible maternal empowerment The book is organized by way of these three sections the first Resistances examines how maternal regret as conveyed in remorse disillusionment and resentment counters and corrects normative motherhood the second Renunciations looks at how regret is experienced in mother child abandonment and the third Reflections explores how regret may be an opportunity for maternal knowledge and power Overall the collection serves to debunk and destroy the final taboo of normative motherhood that of maternal regret Mothers voicing regret as journalist Kingston writes signals a large groundswell of maternal reckoning one that has been compared to the MeToo campaign Existential and Spiritual Issues in Death Attitudes Adrian Tomer, Grafton Eliason, Paul T. P. Wong, 2008 In this new volume death is treated both as a threat to meaning and as an opportunity to create meaning

Satisfaction: A Behavioral Perspective on the Consumer Richard L. Oliver, 2014-12-18 Designed for advanced MBA and doctoral courses in Consumer Behavior and Customer Satisfaction this is the definitive text on the meaning causes and consequences of customer satisfaction It covers every psychological aspect of satisfaction formation and the contents are applicable to all consumables product or service Author Richard L Oliver traces the history of consumer satisfaction from its earliest roots and brings together the very latest thinking on the consequences of satisfying or not satisfying a firm s customers He describes today s best practices in business and broadens the determinants of satisfaction to include needs quality fairness and regret what might have been The book culminates in Oliver s detailed model of consumption processing and his satisfaction measurement scale The text concludes with a section on the long term effects of satisfaction and why an understanding of satisfaction psychology is vitally important to top management *The Michigan Alumnus* ,1994 In volumes 1 8 the final number consists of the Commencement annual Speaking of Slavery Steven A. Epstein, 2018-05-15 In this highly original work Steven A Epstein shows that the ways Italians employ words and think about race and labor are profoundly affected by the language used in medieval Italy to sustain a system of slavery The author s findings about the surprising persistence of the language of slavery demonstrate the difficulty of escaping the legacy of a shameful past For Epstein language is crucial to understanding slavery for it preserves the hidden conditions of that institution He begins his book by discussing the words used to conduct and describe slavery in Italy from pertinent definitions given in early dictionaries to the naming of slaves by their masters to the ways in which bondage has been depicted by Italian writers from Dante to Primo Levi and Antonio Gramsci Epstein then probes Italian legal history tracing the evolution of contracts for

buying selling renting and freeing people Next he considers the behaviors of slaves and slave owners as a means of exploring how concepts of liberty and morality changed over time He concludes by analyzing the language of the market where medieval Italians used words to fix the prices of people they bought and sold The first history of slavery in Italy ever published Epstein s work has important implications for other societies particularly America s For too long Epstein notes Americans have studied their own slavery as if it were the only one ever to have existed as if it were the archetype of all others His book allows citizens of the United States and other former slave holding nations a richer understanding of their past and present

The Possible Vlad Petre

Glăveanu, 2021 Possibility studies is an emerging field of research including topics as diverse as creativity imagination innovation anticipation counterfactual thinking wondering the future social change hope agency and utopia The Possible A Sociocultural Theory contributes to this wide field by developing a sociocultural account of the possible grounded in the notions of difference position perspective dialogue action and culture *The Oxford Handbook of Social Cognition* Donal E. Carlston, 2013-07-25 Social cognition as a field can be characterized as a distinct subarea of social psychology that examines all of the countless cognitive complexities mental representations and processes implicated in interaction as well as an approach to studying interactions in the context of the groups cultures and societies to which they belong Together these two facets of social cognition create one of the most influential and important social sciences to come along in some time Providing a comprehensive review of major topics in the field of social cognition The Oxford Handbook of Social Cognition expresses that excitement and fascination in describing the content and approach that constitute the field today The 43 chapters included in this handbook cover central aspects of the field of social cognition including its history and historically important foundational research areas attribution attitudes impression formation and prejudice stereotyping along with methodology core issues relating to social cognitive representations and processes including those that are visual implicit or automatic and the stages of information processing attention perception memory and judgment along with simulation and thought suppression applications of the social cognition approach to areas of social psychology general psychology and other disciplines such as marketing law health and politics After more than 30 years the vibrant field of social cognition continues to reign as one of psychology's most dominant approaches The impressive chapters collected in this volume define the field and contribute enormously to our understanding of what social cognition is today *Morality's Muddy Waters* George Cotkin, 2011-06-06 In the face of an uncertain and dangerous world Americans yearn for a firm moral compass a clear set of ethical guidelines But as history shows by reducing complex situations to simple cases of right or wrong we often go astray In *Morality's Muddy Waters* historian George Cotkin offers a clarion call on behalf of moral complexity Revisiting several defining moments in the twentieth century the American bombing of civilians during World War II the My Lai massacre racism in the South capital punishment the invasion of Iraq Cotkin chronicles how historical figures have grappled with the problem of evil and moral responsibility sometimes successfully oftentimes not In the process he offers a wide ranging tour of modern American history Taken together Cotkin maintains these episodes reveal that the central concepts of morality evil empathy and virtue are both necessary and troubling Without empathy for example we fail to inhabit the world of others with it we sometimes elevate individual suffering over political complexities For Cotkin close historical analysis may help reenergize these concepts for ethical thinking and acting *Morality's Muddy Waters* argues for a moral turn in the way we study and think about history maintaining that even when answers to ethical dilemmas prove elusive the act of grappling with them is invaluable **The Location of Experience** Adela Pinch, 2024-10-15 We tend to feel that works of fiction give

us special access to lived experience But how do novels cultivate that feeling Where exactly does experience reside The Location of Experience argues that paradoxically novels create experience for us not by bringing reality up close but by engineering environments in which we feel constrained from acting By excavating the history of the rise of experience as an important category of Victorian intellectual life this book reveals how experience was surprisingly tied to emotions of remorse and regret for some of the era s great women novelists the Bront s George Eliot Margaret Oliphant and Elizabeth Gaskell It shows how these writers passed ideas about experience and experiences themselves among each other Drawing on intellectual history psychology and moral philosophy The Location of Experience shows that through manipulating the psychological dimensions of fiction s formal features Victorian women novelists produced a philosophical account of experience that rivaled and complemented that of the male philosophers of the period
