Regulating Womanhood Reproduction And Motherhood

Alexandra Howson

Regulating Womanhood Reproduction And Motherhood:

Regulating Womanhood Carol Smart, 2002-09-11 Sexuality motherhood and marriage were matters of public policy throughout the nineteenth and early twentieth centuries They were prominent areas in the regulation of women but the idea that the law merely reflected what was normal and natural obscured the extent of this regulation *Regulating Womanhood* poses historically and culturally specific questions about the mechanisms that have controlled and restricted women It shows not merely how laws and policies have set boundaries to the lives of women but also how the category of woman has been constructed as a specific object for legal and social policy and how women came to be seen as needing special regulation In addition *Regulating Womanhood* explores how children and the organisation of reproduction and sexuality operated to normalise and make acceptable the degree of regulation to which women were subjected Yet this is not a catalogue of the unmitigated subjection of women in history The contributors focus on women's resistance and activity and on the shift in modes of regulation to challenge the idea of an unchanging history of the legal oppression of women

Constructing Spanish Womanhood Victoria Lorée Enders, Pamela Beth Radcliff, 1999-01-01 The first anthology in English on modern Spanish women's history and identity formation

Regulating Sex Elizabeth Bernstein, Laurie Schaffner, 2005-01-05 *Regulating Sex* is an anthology that presents debates over the role of the state in constructing and controlling erotic practice intimacy and identity The purpose of this edited volume is to address sexual dilemmas in law and the state in substantive areas such as same sex domestic partnerships sexual economies and childhood sexuality via a series of spirited dialogues between socio legal scholars from diverse disciplinary national and political perspectives

Conversations in Cold Rooms Jane Long, 1999 In what ways did gender influence the shape of poverty and of poor women's work in Victorian England This book explores the problem in the context of nineteenth century Northumberland examining urban and rural conditions for women poor relief debates and practices philanthropic activity working class cultures and protective intervention in women's employment

Torts, Egalitarianism and Distributive Justice Professor Tsachi Keren-Paz, 2013-01-28 This book argues from a normative perspective for the incorporation of an egalitarian sensitivity into tort law and more generally into private law It shows how an egalitarian sensitivity can reformulate tort doctrine with an emphasis on the tort of negligence Rather than a comprehensive descriptive account of existing tort law this book pro actively searches for new approaches and conceptual tools to meet the challenges faced by egalitarians The understanding of tort law offered in this book will bring about better practical results in specific cases It supports the progressive troops in the ongoing philosophical and social battles that take place in the field of tort law and also adds another voice rich nuanced and sensitive to the chorus that is tort theory

Victorian Murderesses Naz Bulamur, 2016-02-08 *Victorian Murderesses* investigates the politics of female violence in Thomas Hardy's *Tess of the D'Urbervilles* 1891 George Eliot's *Adam Bede* 1859 Mary Braddon's *Lady Audley's Secret* 1862 and Florence Marryat's *The Blood of the Vampire* 1897 The controversial figure of the murderess in these four novels

challenges the assumption that women are essentially nurturing and passive and that violence and aggression are exclusively male traits By focusing on the representations of murder committed by women this book demonstrates how legal and even medical discourses endorsed Victorian domestic ideology as female criminals were often locked up in asylums and publicly executed without substantial evidence While paying close attention to the social economic judicial and political dynamics of Victorian England this interdisciplinary study also tackles the question of female agency as the novels simultaneously portray women as perpetrators of murder and excuse their socially unacceptable traits of anger and violence by invoking heredity and madness Although the four novels tend to undercut female power and attribute violence to adulterous women they are revolutionary enough to deploy female characters who rebel against male sovereignty and their domestic roles by stabbing their rapists and even killing their newborns Victorian studies on gender and violence focus primarily on female victims of sexual harassment and real and fictional male killers like Dracula and Jack the Ripper Victorian Murderesses contributes to the field by investigating how literary representations of female violence counter the idealisation of women as angelic housewives

Advanced Introduction to Feminist Perspectives on Law Margaret Thornton, 2024-08-06 This Advanced Introduction overviews the ongoing struggle for gender equality since the nineteenth century It considers how women have looked to law as a means of facilitating entry into the public sphere including in higher education work and professional life

Knowledge of Evil Alyson Brown, David Barrett, 2013-01-11 This book aims to document and analyse the enduring involvement of children in the commercial sex trade in twentieth century England It uncovers new evidence to indicate the extent of under age prostitution over this period a much neglected subject despite the increased visibility of children more generally The authors argue that child prostitution needs to be understood within a broader context of child abuse and that this provides one of the clearest manifestations of the way in which deviant groups can be conceived of as both victims and threats The picture of child prostitution which emerges is one of exclusion from mainstream society and the law and remoteness from the agencies set up to help young people in trouble which were often reluctant to accept the realities of child prostitution The evidence provided in this book indicates that the circumstances which have led young people into prostitution over the last hundred years amount at worst to physical or psychological abuse or neglect and at best as the result of limited choice

The Good Mother Susan Goodwin, Kate Huppertz, 2010-09-21 Although the ideals of the good mother change with time fashion and context they persist in public policy the media popular culture and workplaces placing pressure on women to conform to particular standards against which they are judged and judge themselves The Good Mother demonstrates that prevailing ideas about mothers and motherhood continue to influence the way types of women are represented and the way that all mothers think act and present themselves

Families and Social Workers Pat Starkey, 2000-01-01 Families and Social Workers examines the origins development and impact of Family Service Units FSU a voluntary social work agency that during the post war period exercised an influence on the development of social work

practice and training out of all proportion to its size and resources Originating in the activities of conscientious objectors in Liverpool Manchester and Stepney during the Second World War FSU s innovative methods of working with poor families led to the establishment of units in towns and cities throughout Britain This study shows how FSU met the challenges and opportunities presented by the introduction of state run social services evaluates its successes and failures in terms of the aims that units set themselves and examines the conflicts that arose between FSU s commitment to independence and innovation and its dependence on local authority funding

The Body in Society Alexandra Howson,2013-04-03 In everyday life we are not for the most part actively conscious of our bodies or the bodies of others we simply take them for granted This new edition of a lively introduction to the sociology of the body examines what certain aspects of our bodies such as the size shape smell and demeanour reveal about the social organization of everyday life and how the body is crucial to the way we engage with the world and the people around us The human body is endowed with varied forms of social significance which sociology has addressed by asking questions such as To what degree do individuals have control over their own bodies What interest does the state have in regulating the human body How significant is the body to the development and performance of the self in everyday life What images of the body influence people s expectations of themselves and others Written in a clear and comprehensible way The Body in Society introduces students to the key conceptual frameworks that help us to understand the social significance of the human body This second edition has been thoroughly updated to take into account recent theories and debates and also includes enhanced pedagogical features Using familiar examples from everyday life such as diet and exercise regimes personal hygiene dress displays of emotion and control over bodily functions coupled with examples from popular culture the text has strong contemporary relevance and will strike a chord with all who read it This book will be essential reading for students taking courses on the body in sociology anthropology gender studies and cultural studies

Sourcebook on Feminist Jurisprudence Hilaire Barnett,2012-10-02 This book is a comprehensive analysis of the relationship between feminist theories and the law and the way in which developments of the former have affected and been affected by the latter The book takes as its starting point a study of women and culture on an international level which demonstrates how religious and cultural influences have been fundamental in establishing contemporary legal and social mores This provides the setting for an investigation into legal and social discrimination and inequality and how this has been addressed by the emergence of feminism A number of critiques and developments are examined

Murder, Medicine and Motherhood Emma Cunliffe,2011-05-27 Since the early 1990s unexplained infant death has been reformulated as a criminal justice problem within many western societies This shift has produced wrongful convictions in more than one jurisdiction This book uses a detailed case study of the murder trial and appeals of Kathleen Folbigg to examine the pragmatics of proof beyond a reasonable doubt It explores how legal process medical knowledge and expectations of motherhood work together when a mother is charged with killing infants who have died in mysterious circumstances The author argues that Folbigg

who remains in prison was wrongly convicted The book also employs Folbigg's trial and appeals to consider what lessons courts have learned from prior wrongful convictions such as those of Sally Clark and Angela Cannings The author's research demonstrates that the Folbigg court was misled about the state of medical knowledge regarding infant death and that the case proceeded on the incorrect assumption that behavioural and scientific evidence provided independent proofs of guilt Individual chapters critically assess the relationships between medical research and expert testimony the operation of unexamined cultural assumptions about good mothering and the manner in which contested cases are reported by the press as overwhelming

The Routledge Handbook of Women's Experiences of Criminal Justice Isla Masson, Natalie Booth, 2022-10-25 This Handbook brings together the voices of a range of contributors interested in the many varied experiences of women in criminal justice systems and who are seeking to challenge the status quo Although there is increasing literature and research on gender and certain aspects of the criminal justice system often Western focused there is a significant gap in the form of a Handbook that brings together these important gendered conversations This essential book explores research and theory on how women are perceived handled and experience criminal justice within and across different jurisdictions with particular consideration of gendered and disparate treatment of women as law breakers There is also consideration of women's experiences through an intersectional lens including race and class as well as feminist scholarship and activism The Handbook contains 47 unique chapters with nine overarching themes Lessons from history and theory Routes into the criminal justice system Intersectionality Sentencing and the courts and community punishments Specific offences Incarcerated women's experiences Mothers and families Rehabilitation and reintegration Practitioner relationships and each theme includes contributions from different countries as well as the experiences of contributors from different stages in their own journey International and interdisciplinary in scope this Handbook is essential reading for scholars and students of criminology sociology social policy social work and law It will also be of interest to practitioners such as social workers probation officers prison officers and policy makers

Honouring Social Justice Margaret E. Beare, 2008-12-08 Honouring Social Justice brings together a diverse group of leading legal scholars criminologists and sociologists to study numerous contemporary social justice issues In doing so the contributors to this collection present a thorough and multifaceted portrait of recent successes and challenges of the criminal justice systems in Canada and elsewhere Examining a broad range of vital contemporary social judicial and political issues the essays in this volume pursue topics such as the targeting of marginalized groups wrongful convictions gender based bias in law government accountability and inequalities in the application of the law to ethnic and socio economic groups These essays provide an illuminating introduction to the background of important social causes and describe dedicated examples of how to effectively champion calls for social justice Written to honour the life and work of the late Dianne Martin a renowned scholar lawyer and social activist Honouring Social Justice is an engaging and inspired series of accounts on how to improve society by leading experts

from across the country *Infanticide* Mark Jackson, 2018-10-24 The history of infanticide from the 16th through to the late 20th century is the subject of this volume Collectively the contributions explore how the concealment of pregnancy birth and death particularly by unmarried women became a central preoccupation of witnesses doctors courts and legislatures concerned with suspicious infant deaths While the emphasis is upon Britain original and stimulating accounts of infanticide accusations and trials in France Germany and South Africa provide compelling comparative analyses Presenting a series of case studies successive chapters expose striking continuities across both time and space in the social history of infanticide Clearly written focusing on a range of original cases and documents and addressing critical historiographical questions *Infanticide* will be invaluable to historians and students researching the social history of medicine law crime and gender In addition it will appeal to lawyers doctors and others interested in understanding the historical roots of modern debates about infanticide **Parents Killing Children** Janice Sim, 2018-10-04 *Parents Killing Children Crossing the Invisible Line* explores hidden forms of violence within the family This socio legal study addresses the interactions between the family and the state focusing on six parent perpetrators and the ways in which child endangerment is concealed within society Drawing on symbolic interactionism mythology and a modelling of case study data this book puts forward a unique conceptualisation of representation and risk both on familial and state levels The failure of the state to intervene and neutralise volatile perpetrators also sheds light on the socio legal status of children society's most vulnerable and the book concludes by discussing means by which the underlying social conditions and maladies symptomatic of child abuse and killing should be addressed Married, Middlebrow, and Militant Teresa Mangum, 1998 Examines the life and work of this daring nineteenth century author and women's rights advocate **Unstable Bodies** Jill L. Matus, 1995 While ideas about mutable or ambiguous sexuality provoked fear and fascination they also served Victorian middle class ideology by offering scientific ways of constructing racial class and national identity in terms of the body **Gender/body/knowledge** Alison M. Jaggar, Susan Bordo, 1989 The essays in this interdisciplinary collection share the conviction that modern western paradigms of knowledge and reality are gender biased Some contributors challenge and revise western conceptions of the body as the domain of the biological and natural the enemy of reason typically associated with women

Unveiling the Magic of Words: A Review of "**Regulating Womanhood Reproduction And Motherhood**"

In a world defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their ability to kindle emotions, provoke contemplation, and ignite transformative change is really awe-inspiring. Enter the realm of "**Regulating Womanhood Reproduction And Motherhood**," a mesmerizing literary masterpiece penned by a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word. In this critique, we shall delve into the book's central themes, examine its distinctive writing style, and assess its profound effect on the souls of its readers.
