DAVID MIERS

Regulating Commercial Gambling

John Eglin

Regulating Commercial Gambling:

Regulating Commercial Gambling David Miers, 2004 Three quarters of the British population gamble mainly on the National Lottery and they generate around 46 billion pounds a year This volume sets recent developments in the regulation and deregulation of its three primary forms betting gaming and lotteries against an account of their social and legal history Many of the concerns that excite controversy today are little different from those with which the Home Office grappled for most of the nineteenth and twentieth centuries Based upon Home Office files and contemporary accounts this book begins by evaluating how the law was used to control and suppress popular gambling Miers shows how and why prohibition gave way to the recognition that regulation offered a more effective method of controlling a social pastime that by the mid twentieth century had become a feature of everyday life Concerns over gambling have recently resurfaced as a result of Government proposals to replace the existing strict controls with a regulatory regime that will give greater scope for licensees to adopt more competitive practices Like the introduction of the National Lottery in 1994 these proposals represent a marked departure from the traditional response to permit but not to stimulate commercial gambling The potential for expansion in opportunities to gamble raises concerns about the accessibility of gambling to children and the possibility of increased numbers of problem gamblers Miers examines the implementation and impact of the present law governing gaming and the National Lottery in terms of regulation and the enforcement of regulatory regimes He focusses on how these regimes regulate the probity of the supplier the supply of gambling opportunities the nature of the transaction and the player s participation The book concludes with an evaluation of the Gambling Bill a draft of which was published in 2003 aiming to give effect to the Government s proposals

The Regulation of Gambling Alan David Littler, Cyrille Fijnaut, 2007 In November 2005 Tilburg University hosted for the first time an international Colloquium on the European and National Perspectives of the Regulation of Gambling The results of this exciting day are reflected in this book which brings together a wide range of perspectives from the contemporary debate surrounding the regulation of gambling markets within the context of the European Union Not only does the book encompass both ends of the spectrum of the current discussion it also brings together the perspectives of academics lawyers and operators The debate on the regulation of gambling has been gathering pace following a series of judgments of the ECJ In 2006 gambling was excluded from the proposed Services Directive and the European Commission commenced infringement proceedings against a handful of Member States regarding restrictions on the supply of sports betting services Given these developments and being one of the very few publications concerned with this topic this book will serve as a timely and valuable contribution for all those interested in this emerging and at times decisive debate

Crime, Addiction and the Regulation of Gambling A. Spapens, Cyrille J.C.F. Fijnaut, Alan Littler, 2009-02-28 This is the third book to be produced by members of the Gambling Research Group associated with Tilburg University s Faculty of Law concerning issues closely connected with the debate on the gambling policies that the European

Union and its Member States are pursuing The first book Alan Littler and Cyrille Fijnaut eds *The Regulation of Gambling European and National Perspectives* Leiden Martinus Nijhoff Publishers 2007 mainly considers the legal aspects of gambling regulation at both European Union and Member State level The second book Tom Coryn Cyrille Fijnaut and Alan Littler eds *Economic Aspects of Gambling Regulation EU and US Perspectives* Leiden Martinus Nijhoff Publishers 2008 looks at research conducted in the United States and the European Union into the costs and benefits involved in the regulation of gambling The contributions to this third book turn the spotlight on two social problems crime and addiction both of which play a significant part in the institutional debate in the European Union concerning whether gambling should be treated as a service that like other services should be subject to the laws universally applicable to the internal market This volume is primarily devoted to the research that has been conducted in several Member States into the problems of gambling related crime and addiction It also examines developments at EU level What policy is the European Commission currently pursuing And what stance does the European Court of Justice take these days Crime and addiction problems that can arise in the context of online gambling and at possible ways of keeping them under control are also examined **Regulating Obesity?**

The Gambling Century John Eglin, 2023 Gambling captures as nothing else the drama of the long eighteenth century between the age of religious wars and the age of revolutions The society that was confronted with games of chance pursued as commercial ventures also came to grips with unprecedented social mobility floated by new wealth from new sources that created fortunes from trade in sugar cotton ivory silk tea or enslaved human beings Likewise play for money was prominent in the public imagination as money itself deployed through an ever expanding and ever more sophisticated range of mechanisms increasingly invaded public awareness as when prospective spouses in period fiction were rated in terms of annual income as if they were municipal bonds Similarly the archetypal figure of the gambler captured the imagination of the public in fiction media and politics At the same time new interest in science technology engineering and mathematics encouraged and bankrolled by those in power fostered a new and unprecedented appreciation for mathematical probability and its applications opening the possibility that games of chance might be pursued as a profitable commercial venture The Gambling Century focuses like no previous work on those who enabled facilitated and profited from gambling as well as on efforts to regulate or outlaw it Using extensive archival material as well as printed sources it follows its subjects from the Court to the coffeehouse to private clubs and at homes in townhouses all of which prefigure that quintessentially modern gambling space the casino

The Entertainment Indust... Stuart Moss, *The Rise of Mass Advertising* Anat Rosenberg, 2022-08-25 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations The Rise of Mass Advertising is a first cultural legal history of advertising in Britain tracing the rise of mass advertising c 1840 1914 and its legal shaping The emergence of this new system disrupted the perceived foundations of modernity The idea that culture was organized by identifiable fields of knowledge experience and authority came under strain as advertisers claimed to share values with the era's most prominent fields including news art science and religiously inflected morality While cultural boundaries grew blurry the assumption that the world was becoming progressively disenchanted was undermined as enchanted experiences multiplied with the transformation of everyday environments by advertising Magical thinking a dwelling in mysteries searches for transfiguration

affective connection between humans and things and powerful fantasy disrupted assumptions that the capitalist economy was a victory of reason The Rise of Mass Advertising examines how contemporaries came to terms with the disruptive impact by mobilizing legal processes powers and concepts Law was implicated in performing boundary work that preserved the modern sense of field distinctions Advertising s cultural meanings and its organization were shaped dialectically vis vis other fields in a process that mainstreamed and legitimized it with legal means but also construed it as an inferior simulation of the values of a progressive modernity exhibiting epistemological shortfalls and aesthetic compromises that marked it apart from adjacent fields The dual treatment meanwhile disavowed the central role of enchantment in what amounted to a normative enterprise of disenchantment One of the ironies of this enterprise was that it ultimately drove professional advertisers to embrace enchantment as their peculiar expertise The analysis draws on an extensive archive that bridges disciplinary divides It offers a novel methodological approach to the study of advertising which brings together the history of capitalism the history of knowledge and the history of modern disenchantment and yields a new account of advertising s significance for modernity

Member States versus the European Union Alan Littler,2011-04-11 Since the 1990s the European Court of Justice has provided an institutional backdrop from which the requirements of EU law regarding gambling regulation are evolving Given the total absence of harmonisation Member States are competent to regulate gambling conditional upon such regulation being compatible with EU law This book analyses the regulatory approaches undertaken in France the Netherlands and the United Kingdom regarding a variety of forms of online and offline gambling with a view to assessing the compatibility of these approaches Furthermore it illustrates prevailing commonalities between the regimes and injects a degree of realism into the debate softening the hard stance taken by stakeholders at opposite ends of the policy spectrum
