Gilroy, 2013-06-21 The purpose of this book is to shed some light on the process of purchasing income producing property and to introduce you to a technique of making money derived from public information available in the Probate Court System that not one in one hundred people are aware In other words I will explain in detail two different ways of making money using real estate as the vehicle The first and most popular way being of investing is to purchase real estate to hold for the long term The other method consists of purchasing updating and selling property within a 6 month time frame and generating a 30% return on investment This method can also be expanded into an options situation whereby the investor puts a property under contract to be sold to him by giving the seller a 1 000 00 deposit while signing a P S agreement After the agreement is signed by both

parties and the investor has legal footing the investor locates a contractor and proceeds to sell the contract The time for performance in most agreements is ninety days Within that time frame the investor collects the difference between what his agreement says that he is paying and what his purchaser is paying him This transaction is accomplished by using an assignment If the investor sells his agreement for 5 000 00 in ninety days he will have effectively gotten an annualized profit ratio of 20 to 1 The other section of the book explains how to track and capitalize on public information available in the Probate Court System to generate a fantastic income

**Race for Profit** Keeanga-Yamahtta Taylor,2019-09-03 LONGLISTED FOR THE 2019 NATIONAL BOOK AWARD FINALIST 2020 PULITZER PRIZE IN HISTORY By the late 1960s and early 1970s reeling from a wave of urban uprisings politicians finally worked to end the practice of redlining Reasoning that the turbulence could be calmed by turning Black city dwellers into homeowners they passed the Housing and Urban Development Act of 1968 and set about establishing policies to induce mortgage lenders and the real estate industry to treat Black homebuyers equally The disaster that ensued revealed that racist exclusion had not been eradicated but rather transmuted into a new phenomenon of predatory inclusion Race for Profit uncovers how exploitative real estate practices continued well after housing discrimination was banned The same racist structures and individuals remained intact after redlining s end and close relationships between regulators and the industry created incentives to ignore improprieties Meanwhile new policies meant to encourage low income homeownership created new methods to exploit Black homeowners The federal government guaranteed urban mortgages in an attempt to overcome resistance to lending to Black buyers as if unprofitability rather than racism was the cause of housing segregation Bankers investors and real estate agents took advantage of the perverse incentives targeting the Black women most likely to fail to keep up their home payments and slip into foreclosure multiplying their profits As a result by the end of the 1970s the nation s first programs to encourage Black homeownership ended with tens of thousands of foreclosures in Black communities across the country The push to uplift Black homeownership had descended into a goldmine for realtors and mortgage lenders and a ready made cudgel for the champions of deregulation to wield against government intervention of any kind Narrating the story of a sea change in housing policy and its dire impact on African Americans Race for Profit reveals how the urban core was transformed into a new frontier of cynical extraction
