

New Capacities (cont'd)

- A decreasing emphasis on leaders and an increasing prominence of multi-stakeholder, shared governance regimes that favour effective stewardship;
- An increasing number and frequency of self-organizing groups that operate at scales from local to multi-national to global, and where the participants may be willing to resolve their issues without necessarily having to involve national governments;
- Creating a generation of global citizens who are willing to assume ownership of their lives and contribute to making a collective difference by sharing with others;
- Emphasizing the direct participation of citizens in: the formation of national and international policies; in service delivery; in monitoring and accountability; and in ways that are ongoing; and
- A new model of global governance that focuses on a future that all of humanity is prepared to live into, & not just trying to address past grievances or current wrongdoings

Reimagining The Future Towards Democratic Governance A Report Of The Global Governance Reform Project:

Reimagining the Future Joseph A. Camilleri, Global Governance Reform Project, 2000 Proposals Part I Democratizing global governance Part 2 Governance of global financial flows Part 3 Global peace and security **Reforming UN Decision-Making Procedures** Martin Daniel Niemetz, 2015-03-24 The institutional procedures for the UN's decision making on issues of global peace and security first and foremost the Security Council SC were conceived with the objective of enabling a swift but internationally coordinated response to irregular situations of crises Today however the UN is constantly involved in situations of conflict and has expanded its range of activities This book offers a concrete and practically applicable answer to the question of how to reform the UN and increase the legitimacy of the UN's decision making procedures on issues of global peace and security In order to provide this answer it connects the minutia of institutional design with the abstract principals of democratic theory in a systematic and reproducible method thereby enabling a clear normative evaluation of even the smallest technical detail of reform This evaluation demonstrates that there is a range of feasible proposals for reform that could improve the SC's accountability both to the General Assembly and to the general public that could increase the opportunities for effective input from the UN membership and NGOs This book will be of interest to students and scholars of the United Nations International Organizations and regional governance

Democratizing Global Governance E. Aksu, J. Camilleri, 2002-07-15 Is globalization beyond human control In this thought provoking text the myths and mantras of this apparently irresistible force are challenged and dissembled By examining a number of fundamental questions the contributors put forward a radical reform agenda for global governance Can the global multilateral system be democratic Are security and economic concerns separable Can the development of a global civil society contribute to effective global governance An important and wide ranging study this book will be essential reading for graduates and researchers in international relations *Global Governance, Conflict and Resistance* F. Cochrane, R. Duffy, J. Selby, 2003-11-27 Since the turn of the millennium resistance to the liberal project of global governance has come to occupy centre stage in global and international politics The Battle of Seattle the 9 11 attacks on New York and Washington and the Bush administration's ambivalent attitude towards multilateralism can all be thought of as conspicuous instances of the growing challenge to global governance Global Governance Conflict and Resistance provides a wide ranging series of analyses of such challenges **Civilizing Globalization, Revised and Expanded Edition** Richard Sandbrook, Ali Burak Güven, 2014-05-08 Is it possible to harness the benefits of economic globalization without sacrificing social equity ecological sustainability and democratic governance The first edition of Civilizing Globalization 2003 explored this question at a time of widespread popular discontent This fully revised and expanded edition comes at an equally crucial juncture The period of relative stability and prosperity in the world economy that followed the release of the first edition ended abruptly in 2008 with a worldwide economic crisis that illustrated in dramatic fashion the enduring problems with our global order Yet despite

the gravity of the challenges concrete initiatives for change remain insubstantial Richard Sandbrook and Ali Burak G ven bring together international scholars and veteran activists to discuss in clear nontechnical language the innovative political strategies participatory institutional frameworks and feasible regulatory designs capable of taming global markets so that they assume the role of useful servants rather than tyrannical masters **Modernizing the United Nations System** John E. Trent, 2007-06-20 This book contends that civil society must mobilize its capacities to bring a new will to national and international politics and oblige governments to act It starts by demonstrating the need for institutional change at the UN and then shows how both in the past and the present leading individuals and nongovernmental organizations using their knowledge base and their organizational networks have lead the fight for international organizations After a summary of major UN reform proposals over the years the book concludes by identifying leading global reformers and elaborating a detailed plan for a global reform movement to spearhead the modernization of the UN system *Civilizing Globalization* Richard Sandbrook, 2003-01-09 Discusses the many facets of globalization in easy to understand language **A Fair Globalization** World Commission On The Social Dimension Of Globalization, 2006 UN Peacekeeping Operations and the Protection of Civilians Conor Foley, 2017-09-07 Appendix C UN Security Council and General Assembly Resolutions and Presidential Statements UN Security Council Resolutions UN General Assembly Resolutions UN Security Council Meetings and Presidential Statements Bibliography Books Academic Articles and Opinion Index The Human Rights Treaty Obligations of Peacekeepers Kjetil Mujezinović Larsen, 2012-07-12 Develops a coherent and realistic legal framework which strengthens the human rights protection and the accountability mechanisms in peace operations The United Nations Sven Bernhard Gareis, 2012-03-29 There hardly seems to be a global issue in the world today in which the United Nations UN is not expected to play a key role And indeed despite a persistent gulf between high expectations and the UN s capacities the organization continues to be a unique and indispensable actor in areas such as peace maintenance human rights protection and development Thoroughly revised and updated the second edition of this highly acclaimed text provides a concise analysis of the UN its structure and work achievements and shortcomings and its likely role and prospects in the twenty first century The new edition covers the latest institutional and structural developments including the creation of the Peacebuilding Commission and the establishment of a permanent Human Rights Council and reflects recent debates on UN reform **The Ashgate Research Companion to Non-State Actors** Bob Reinalda, 2016-03-23 How do non state actors matter in international relations This volume recognizes three types of non state actor non governmental organizations NGOs intergovernmental organizations IGOs and transnational corporations It illustrates how they play roles alongside nation states and are interrelated in matters of international regulation and coordination After an introductory part on current qualitative and quantitative sources this comprehensive collection of state of the art essays is comprised of four main thematic parts Part II examines actors other than governments such as transnational religious actors business

representatives and experts and also parliamentarians and agencies set up by IGOs Part III studies the perceptions and understandings in political philosophy international law and international relations theory It questions concepts used civil society NGO governance and covers the limitations to be kept in mind Part IV analyses the nature and impact of non state actors Chapters discuss processes within international bureaucracies diplomacy dynamism bureaucratic power contribution to democracy and the quintessence of deliberation and decision making within NGOs and IGOs and of implementation accountability and dispute settlement Part V studies specific worlds of non state actors humanitarian aid human rights security the North South divide health trade and environment Accessible and articulately written The Ashgate Research Companion to Non State Actors is aimed at a wide readership of scholars and practitioners in international relations

Development Dialogue ,2001 **Ploughshares Monitor** ,2000 **Learning to Seek** James A. Dator,2017-07-12 The accelerating technological transformation in learning has necessitated an ability to search and differentiate among the one billion web pages libraries databases books newspapers magazines radio and television stations and opinion columns available online This volume focuses on the normative challenges that the current technological transformation presents to all professionals engaged in higher education Part I concentrates on the current social and technological trends David Snyder presents an outline of technologies that have made open knowledge systems possible Majid Tehranian argues that the new technological environment has made learning to seek out information more possible than ever before Robert Fuller calls for an egalitarian rather than hierarchical approach to communication systems Harlan Cleveland proposes integrative learning broad thinking and globally aware citizenship through education for wisdom Part II focuses on problems of governance and finance in the new technological environment John Hinchcliff takes up the problem of values and argues for the maintenance of traditional altruistic rather than Promethean goals Karou Yamaguchi comes to the problem of the futures with the tools of system dynamics William Bergquist calls for a reorganization of higher education to meet the needs for creation transfer and inculcation of knowledge and skills Hamid Shirvani calls for the core values of transparency integrity open communication and dignitarian approach as the guideposts in educational leadership Walter Truett Anderson concludes by attempting to bring the complex technological social economic and political variables into a holistic approach for the management of higher education In 2005 at the Universities of the Future Conference participants were asked to envision the future of higher education Part III presents their visions **Journal of Peace Research** ,2001 *International Labour Documentation* International Labour Office. Central Library and Documentation Branch,2001 **Globalization** Robert Goehlert,2003 Refugee Survey Quarterly ,2000 *Critical Perspectives on the Crisis of Global Governance* S. Gill,2015-01-02 The contributors highlight alternative imaginaries and social forces harnessing new organizational and political forms to counter and displace dominant strategies of rule They suggest that to address intensifying economic ecological and ethical crises far more effective legitimate and far sighted forms of global governance are required
