

Reining:

A man wearing a white t-shirt with "TEXAS" on it, sunglasses, and a cap is riding a brown horse. The horse is in a reining pattern, kicking up a large cloud of dust. The background is a clear blue sky and some distant trees.

Allegory in Enlightenment Britain Jason J. Gulya, 2022-12-02 This Palgrave Pivot argues for the significance of allegory in Enlightenment writing While eighteenth century allegory has often been dismissed as an inadequate form both in its time and in later scholarship this short book reveals how Enlightenment writers adapted allegory to the cultural changes of the time It examines how these writers analyzed earlier allegories with scientific precision and broke up allegory into parts to combine it with other genres These experimentations in allegory reflected the effects of empiricism secularization and a modern aesthetic that were transforming Enlightenment culture Using a broad range of examples including classics of the genre eighteenth century texts and periodicals this book argues that the eighteenth century helped make allegory the flexible protean literary form it is today

A Companion to Twentieth-Century Poetry Neil Roberts, 2008-06-09 In the twentieth century more people spoke English and more people wrote poetry than in the whole of previous history and this Companion strives to make sense of this crowded poetical era The original contributions by leading international scholars

and practising poets were written as the contributors adjusted to the idea that the possibilities of twentieth century poetry were exhausted and finite. However, the volume also looks forward to the poetry and readings that the new century will bring. The Companion embraces the extraordinary development of poetry over the century in twenty English speaking countries, a century which began with a bipolar transatlantic connection in modernism and ended with the decentred heterogeneity of post colonialism. Representation of the canonical and the marginal is therefore balanced, including the full integration of women poets and feminist approaches and the in depth treatment of post colonial poets from various national traditions. Discussion of context, intertextualities and formal approaches illustrates the increasing self consciousness and self reflexivity of the period, whilst a Readings section offers new readings of key selected texts. The volume as a whole offers critical and contextual coverage of the full range of English language poetry in the last century.
