animal bears and bees and asks what existence these species have maintained in juridical thought Uncovering surprising roles that the animals play in the imagination of and solution to jurisprudential problems the book offers a counter argument to the view that juridical thought reduces one's appreciation for the singularity and independence of their lives It shows rather that the animals exert a remarkable influence on the creative dimensions of law offering a liveliness to it that is worthy of close attention Contributing to new directions at the intersection of jurisprudence and human animal studies this book will appeal to those with interests in either of these areas **Birds and Nature Magazine**, 1900 *Rachel Harrison Life Hack*

Elisabeth Sussman, David Joselit, 2019-01-01 The work of the sculptor Rachel Harrison is both the zeitgeist and the least digestible in contemporary art It may also be the most important owing to an originality that breaks a prevalent spell in an art world of recycled genres styles and ideas Peter Schjeldahl *The New Yorker* In her sculptures room sized installations drawings photographs and artist's books Rachel Harrison b 1966 delves into themes of celebrity culture pop psychology history and politics This publication created in close collaboration with the artist explores twenty five years of her practice and is the first comprehensive monograph on Harrison in nearly a decade Its centerpiece is an in depth plate section which doubles as a chronology of Harrison's major works series and exhibitions Objects are illustrated with multiple views and details and accompanied by short texts This thorough approach elucidates Harrison's complicated eclectic oeuvre in which she integrates found materials with handmade sculptural elements upends traditions of museum display and injects quotidian objects with a sense of strangeness Six accompanying essays cover Harrison's earliest works to her most recent output The book also includes a handful of photo collages that the artist created specifically for this project Published here for the first time these pieces superimpose found images with reproductions of Harrison's own past work On Certain Relations
