Perfect Love, Imperfect Relationships John Welwood, 2007-03-27 A nationally known couples therapist reveals the single root cause of all relationship problems and offers revolutionary advice on what to do about it While most of us have moments of loving freely and openly it is often hard to sustain this where it matters most in our intimate relationships If love is so great and powerful why are human relationships so challenging and difficult If love is the source of happiness and joy why is it so hard to open to it fully and let it govern our lives In this book John Welwood addresses these questions and shows us how to overcome the most fundamental obstacle that keeps us from experiencing love's full flowering in our lives Perfect Love Imperfect Relationships begins by showing how all our relational problems arise out of a universal wound of the heart that affects not only our personal relationships but the quality of life in our world as a whole This core wound shows up as a pervasive mood of unlove a deep sense that we are not intrinsically lovable just as we are It shuts down our capacity to trust so that even though we may hunger for love we have difficulty opening to it and letting it circulate freely through us This book takes the reader on a powerful journey of healing and transformation that involves learning to embrace these imperfections within ourselves and within our relationships as trail markers along the path to great love It sets forth a process for releasing deep seated grievances we hold against others for not loving us better and against ourselves for not being better loved And it shows how our longing to be loved can magnetize the great love that will free us from looking to others to find ourselves Written with penetrating realism and a fresh lyrical style that honors the subtlety and richness of our relationship to love itself this revolutionary book offers profound and practical guidance for healing our lives as well as our embattled world

God And His Coexistent Relations To The Universe: George D. Shollenberger, 2014 The author says that the social contract theory of John Locke the immortal souls of humans and doubts of the divinity of Jesus by Ben Franklin Thomas Jefferson and John Adams caused the separation of the U S colonists from England on July 4 1776 However the author says that the USA has lost its God and has no facts about the universe in which we live He also says that Locke's social contract theory and the immortal souls of humans were never installed by Congress And he says that the doubts of the divinity of Jesus were never verified In his new book the author opens his widely respected mind to find answers to the above unknowns In his studies of the immortal souls the author concludes that all nations must become equal so that the immortal souls of every Little God can be reborn naturally by God

His study provides answers of all doubts about the divinity of Jesus and says that only one active God exists and governs the immortal souls and the universe forever In time only one religion will exist *The Contradictions of Love* Lena

Gunnarsson,2014-01-03 *The Contradictions of Love* Towards a feminist realist ontology of sociosexuality offers a robust and multifaceted theoretical account of how in contemporary western societies women continue to be subordinated to men through sexual love The book defends and elaborates Anna G J nasd ttir s thesis that men tend to exploit women of their love power by means of an innovative application of critical realism dialectical critical realism and the philosophy of metaReality Gunnarsson also offers a critique of the state of affairs of contemporary feminist theory The author demonstrates that the meta theoretical framework of critical realism offers the tools that can counter the poststructuralist hegemony still prevailing in feminist theory On a general level *The Contradictions of Love* attempts at reconciling theoretical positions which tend to appear in opposition to one another In particular it offers a way of bridging the gap between the notion of love as a locus of exploitation and that of love as a force which can conquer oppression This book is a unique and timely contribution in the field of feminist theory in that it offers the first elaborate assessment and development of J nasd ttir s important but relatively sidestepped work and in that it counters poststructuralist trends from the point of view of a robust critical realist framework that has hitherto been spectacularly absent in feminist theory although it offers solutions to metatheoretical problems at the forefront of feminist debates in the field of critical realism broadly defined in that it elaborates on crucial ontological themes of dialectical critical realism and the philosophy of metaReality via a discussion of the issues of love sexuality gender and power and finally in the field of love studies in that it offers a sophisticated account of how gender asymmetries prevail in love despite norms of gender equality and reciprocity and in that it reconciles feminist conflict oriented perspectives on love with notions of love as transcending conflict A New and Modern Holy Bible with the Intelligent Design of an Active God

George D. Shollenberger,2012-06-08 *THE GENERAL PURPOSE OF THIS BOOK* The general purpose of this book is to build the minds of all Little Gods who were created by God who also created the universe About 4 4 million years ago Little Gods appeared on planet earth Today billions of Little Gods exist and have developed their minds after they found that God and the universe have no end However the minds of all Little Gods did not develop until counting tokens appeared about 9 000 years ago Then 5000 years later the Little Gods added symbols to these tokens These symbols were used in early texts and later in national languages religious scriptures scientific books newspapers etc For the last 4000 years many religious leaders were saying that the symbols in scriptures are sacred and are inspired by God In 2006 I found that God is infinite and unlimited Six years later I found that symbols are finite and limited These findings prove that scriptures cannot be sacred I confirmed these findings with new research on Greek writings and the teachings of Jesus in the New Testament In time I expect all Little Gods to worship the same God The purpose of my book is thus to bring all Little Gods together under one God *The Greatest Books of Spiritual Wisdom* Martin Luther,John Stuart Mill,David Hume,James Allen,Ralph Waldo Emerson,Andrew

Robert A. Graceffo,2022-09-09 The primary purpose of psychotherapy is to improve a patient's subjective experience A Humane Vision of Clinical Psychology Volume I shows readers what this might really mean how it can be achieved and where prevailing views go wrong in achieving it It lays out an alternative idea of human suffering and human healing one that deemphasizes constructs and prioritizes experience itself Early chapters argue that helping people to know new things is the ultimate target of psychotherapeutic change but that our field has not sufficiently reflected on the complications of this task

A theory is then offered which suggests that the unthinkable aspects of human experience are responsible for the very ways in which we human beings think. It invites and outlines a serious reformulation of psychotherapy in which human cognition is not the seat but the beneficiary of human change. This book will be valuable for therapists, psychologists, psychiatrists and other practitioners as well as graduate and undergraduate students in the fields of psychiatry, psychology, psychotherapy, mental health, social work and philosophy. It will be of great interest for clinicians who find themselves disenchanted with the field's current ethos which is stilted by scientific approaches to soothing the suffering of the other.

The Way of the Beloved Robert Arsdale, Diana Van Arsdale, 2016-11-18. The foundation of the Way of the Beloved is discovered in the heart of love itself where there lives and moves a will to exaltation of the other. To truly love another is to will the spiritual ideal upon that beloved one. When there is a mutual intention to exalt, infusing the daily life of a man and woman, they enter into the Way of the Beloved. This handbook is an attempt to put into book form what authors Robert and Diana Van Arsdale have been teaching to small groups of couples since 1976. Their workshops offer an ageless set of protocols for the transformation of the love relationship between a woman and a man into a path of spiritual development. Here they present an integrated body of progressive experiential exercises and meditations that were taught originally taught by Herman Rednick. Simply stated, The Way of the Beloved teaches a couple how to actualize the potential of their relationship through the intensification of love and compassion. Designed for couples in search of spiritual and emotional exploration, this guide offers methods intended to help them realize a vision of love fulfilled.
