Religio Medici (1642) Thomas Browne, 2017-01-23 The Religio Medici is the apologia of a learned physician who was proud to be a Christian and a member of the Church of England as established by Elizabeth I He recognized that under Henry VIII the Church in England had been the catholic Church in schism whereas the Elizabethan Establishment was regarded as heretical by Rome Yet he wrote courteously about the Pope Unlike many seventeenth century Protestants he never described St Peter's successor as Balthazar the Man of Sin or the Whore of Babylon He foresaw endless divisions in the Churches separated from Rome and to day there are atleast 140 separate Christian churches He found no contradiction between religion and science Religion reveals man's relation to God Science is our partial knowledge of the Laws of Nature whereby the Divine purpose is carried out in creation Being a modest man Sir Thomas Browne never thought his writings would survive his own time As it is they have survived the centuries
