Religion A Psychological Interpretation:

The Individual and His Religion Gordon Willard Allport, 1960 A man's religion is the audacious bid he makes to bind himself to creation and to the Creator It is his ultimate attempt to enlarge and to complete his own personality by finding the supreme context in which he rightly belongs In these pages I have undertaken the task of discovering the place of religion in the life economy of the individual of seeking a psychological understanding of the nature and functioning of the religious sentiment and tracing the full course of religious development in the normally mature and productive personality *The Individual and His Religion* Gordon Willard Allport, 1976 **Religion, a Psychological Interpretation** Orlo Strunk, 1962

The Individual and His Religion Gordon W. Allport, 1970 **Religion** O. Strunk (jr.), 1962 *Psychology of Religious Experience* Francis Lorette Strickland, 1924 **Religion** Orlo Strunk (jr.), 1962 **The Pragmatics of Defining Religion** Jan G. Platvoet, Arie Leendert Molendijk, 1999 The Pragmatics of Defining Religion is a multidisciplinary volume on the problem of the definition of religion with chapters on the polemics of defining religion in modern contexts the history of the concept of religion the methodology of its definition it includes several definition proposals **Psychology of Religious Experience** Francis L. Strickland, 2013-10 This is a new release of the original 1926 edition [Psychology of religious experience](#) Francis Lorette Strickland, 1926 **Religion and Mental Health**, 1980 **Religion and the Christian Faith**

Hendrik Kraemer, 2003-06 A rich and profound contribution to the debate on the position of modern Christianity opened up Kraemer's The Christian Message in a Non Christian World In Religion and the Christian Faith he deals with many of the criticisms of his position and offers an apologia at once luminous and massive of the Christian religion as the revelation of God to Man and the faith for all mankind There is a decisive Christian finality about Kraemer's writing and his book is a significant contribution to the sharp discipline of faith and action under which the universal Christian community lives All the way through his formidably marshalled arguments run the undertones of Christian involvement in a real world a world which by his astonishing grasp of philosophy Biblical theology and the claims of religion and religions the Author brings alive to the reader The reading of this formative book with its strenuous demands on the reader's intelligence and Christian understanding is a rewarding experience Its significance for the Christian Church throughout the world is obvious but it is also a monumental witness to the Christian religion for all those who ask not only for a faith once delivered but a faith to believe in their own day and generation **Psychoanalysis, Phenomenological Anthropology and Religion** Antoon Vergote, 2023-10-16 In this volume we have brought together some of the most important contributions of Antoon Vergote to the field of what is now called clinical psychology of religion Most of these contributions were not published before in English They cover the field in two ways On the one hand we selected some articles in which Vergote reflects about the foundations of the clinical psychology of religion This first part of the book is about the psychoanalytic and philosophical anthropological approach of some major topics in the study of religion e.g. mythical thinking and symbolisation moral law and the idea of sin

religious experience In this part we also included a critical reflection about the classic psychoanalytic criticism of religion and about the epistemology and the limits of the psychology of religion The second part on the other hand contains clinical empirical and psycho historical studies about concrete religious phenomena The first section of this part is amongst other topics about the psychological approach of the person Jesus about the psychological profile of the priest and about some aspects of folk religiosity The second section deals with problems in the field of mental health and religion the differentiation of true and false mysticism religion and psychopathology and a psychological approach of the experience of visions and apparitions

Explanation Giora Hon, Sam S. Rakover, 2013-04-17 For some years we have been conducting at the University of Haifa an interdisciplinary seminar on explanation in philosophy and psychology We habitually begin the seminar with some philosophical reflections on explanation an analysis of the concept

and its metaphysical underpinnings We discuss the various models and proceed to examine explanation in the setting of psychology Thus from the outset we have focused not only on the concept itself but also on its application The objective that we have set for the seminar attended by students from both departments Philosophy and Psychology has been a critical understanding of the concept of explanation its use and limitations We were keen on deepening our understanding of the concept and on exploring its applications in fields of knowledge other than psychology This was the motivation for convening an international conference on explanation and its application The conference took place in the spring of 1998 under the auspices of the University of Haifa The present book is the fruit of this meeting The reader should note that the second part of the Introduction presents a detailed analytical account of the book We hope that this overview will facilitate efficient use of the book by directing the reader's attention to those issues that might be of interest to him or her

Introduction to the Psychology of Religion Franklin Simpson Hickman, 1926 Bibliography on Religion and Mental Health, 1960-1964 National Clearinghouse for Mental Health Information (U.S.), 1967 *The Interpretation of Religion* John Baillie, 1928 *The Making and Unmaking of the Psychology of Religion* Matei Iagher, 2024-03-18

This book examines the rise and demise of the psychology of religion in the late 19th and early 20th centuries in Europe and the United States It considers the formation of the psychology of religion as an international movement an enterprise whose goal was to refashion the science of religion at the turn of the century Drawing on published sources and archival accounts the chapters engage with the work of notable figures including William James C G Jung and Pierre Janet placing it alongside lesser known practitioners such as Ernest Murisier James Henry Leuba James Pratt and George Albert Coe In addition to probing the intellectual background and professional context for the emergence of this sub discipline the book examines the development of key concepts and methodologies among psychologists of religion and offers arguments both for the rise of the discipline as well as for its demise in the early decades of the 20th century
