ISABELLE NABOKOV
(RELIGION AND SOCIETY SSA18)

The book "Religion Against the Self" by Isabelle Nabokov delves into the intricate realm of Tamil rituals, particularly focusing on the practice of exorcism and possession among Tamil women. Nabokov challenges the notion that women are empowered in these rituals, highlighting the coercive nature of exorcisms that aim to resocialize women within patriarchal structures. She discusses how possession offers women a platform to voice feelings of loneliness and disappointment but ultimately serves to reinforce societal norms and suppress individual agency. Nabokov's ethnographic study sheds light on the complexities of religious practices and their impact on gender dynamics within Tamil culture.

The main argument of "Religion Against the Self" by Isabelle Nabokov is that Tamil rituals, particularly exorcism and possession, do not empower women as is often believed. Instead, these rituals serve to reinforce societal norms and suppress individual agency. Nabokov argues that women are coerced into these rituals and are subjected to extreme forms of pressure to conform to patriarchal expectations. While possession may offer women a platform to voice feelings of loneliness and disappointment, the overall function of these rituals is to eradicate any desires or thoughts that deviate from the traditional role of women within the patriarchal family fold. Nabokov emphasizes that women are not passive or voiceless victims, but the ritual itself is coercive and operates as an assertive pedagogy, silencing women through interrogation, symbolic decapitation, and invasive practices that imprint societal expectations on their bodies.

The introduction of "Religion Against the Self" by Isabelle Nabokov reveals a significant shift in the author's research focus. Initially intending to investigate the meanings attributed to the past by Tamil people, Nabokov's direction changed dramatically after witnessing seances at the Mel

Religion Against The Self:

Religion Against the Self Isabelle Nabokov, Isabelle Clark-Decès, 2000 This study based on the author's fieldwork among rural Tamil villagers in South India focuses on the ways in which people in this society interact with the supernatural beings who play such a large role in their personal and corporate lives Isabelle Nabokov looks at a spectrum of ritualized contexts in which the boundaries between the natural and spiritual worlds are penetrated and communication takes place Throughout Nabokov's meticulous analysis sheds new light on this hitherto almost unknown domain and entire range of fascinating phenomena basic to South Indian religion as it is really lived

Lifes Preservative against self-killing: or, an useful treatise concerning life and self-murder, etc John SYM (Minister of Leigh.), 1637 **Transformations of the Inner Self in Ancient Religions** Jan Assmann, Guy Stroumsa, 2018-11-13 This collection of papers from two workshops held in Heidelberg Germany in July 1996 and Jerusalem Israel in October 1997 is concerned with anthropological rather than theological aspects of the Near Eastern and Mediterranean religions ranging from the primary religions of the archaic period and their complex developments in Egypt and Mesopotamia to the soteriological movements and secondary religions that emerged in Late Antiquity The first part of the book focuses on Confession and Conversion while the second part is devoted to the topic of Guilt Sin and Rituals of Purification The primary purpose of this volume is to convey a sense of the dynamics and dialectical relationships between the various Near Eastern and Mediterranean religions from the archaic period to Late Antiquity

Religion Against the Self : An Ethnography of Tamil Rituals Isabelle Nabokov Assistant Professor of Anthropology Princeton University, 2000-08-28 In this comprehensive analysis of South Indian village Hinduism Isabelle Nabokov shows that a wide spectrum of Tamil rituals effects transformations of identity through similar processual and symbolic operations She reveals that such operations may lead participants to adopt personalities which are at odds with themselves

What the Bible Says about the Dangers of Self-Deception Joseph K. Pak, 2024-10-17 How do people know if they are deceiving themselves Self deception is something everyone practices to one degree or another and it is closely related to other deception deceiving

other people and Satan's deception as the father of lies John 8:44 How dangerous is self-deception? It can cost people their eternal destiny if they are deceiving themselves about their salvation. Self-deception has been a topic of keen interest among philosophers, theologians, and psychologists and is also a significant theme in the Bible. This book first introduces what the fields of philosophy, theology, and psychology say about self-deception and then examines many Bible passages that address the topic of self-deception to gain a biblical understanding of what it is and how to prevent it.

Suicide by Self-Immolation César A. Alfonso, Prabha S. Chandra, Thomas G. Schulze, 2021-02-02 This book addresses biopsychosocial and transcultural determinants of suicide by self-immolation populations at risk throughout the world and prevention strategies specifically designed for young women in fragile environments. Self-immolation, the act of burning oneself as a means of suicide, is rare in high-income countries and is usually a symbolic display of political protest among men that generally receives international media coverage. In contrast, in low and middle-income countries, it is highly prevalent, primarily affects women, and may be one of the most common suicide methods in regions of Central and South Asia and parts of Africa. Psychiatric conditions like adjustment disorders, traumatic stress disorders, and major depression, and family dynamics that include intimate partner violence, forced marriages, the threat of honor killings, and interpersonal family conflicts in a cultural context of war-related life events, poverty, forced migration, and ethnic conflicts are important contributing factors. Written by over 40 academic psychiatrists from all continents, sociologists, and historians, the book covers topics such as region-specific cultural and historical factors associated with suicide, the role of religion and belief systems, marginalization, oppression, retraumatization, and suicide risk, countertransference aspects of working in burn centers, responsible reporting, and the media, and suicide prevention strategies to protect those at risk.

Religion and Nothingness Keiji Nishitani, 1982 In *Religion and Nothingness*, the leading representative of the Kyoto School of Philosophy lays the foundation of thought for a world in the making for a world united beyond the differences of East and West. Keiji Nishitani notes the irreversible trend of Western civilization to nihilism and singles out the conquest of nihilism as the task for contemporary philosophy. Nihilism or relative nothingness can only be overcome by being radicalized to Emptiness or absolute nothingness. Taking absolute nothingness as the fundamental notion in rational explanations of the Eastern experience of human life, Professor Nishitani examines the relevance of this notion for contemporary life and in particular for Western philosophical theories and religious beliefs. Everywhere, his basic intention remains the same: to direct our modern predicament to a resolution through this insight. The challenge that the thought of Keiji Nishitani presents to the West as a modern version of an Eastern speculative tradition that is every bit as old and as variegated as our own is one that brings into unity the principle of reality and the principle of salvation. In the process, one traditional Western idea after another comes under scrutiny: the dichotomy of faith and reason, of being and substance, the personal and transcendent notions of God, the exaggerated role given to the knowing ego, and even the Judeo-Christian view of history itself. *Religion and Nothingness* represents the major work of one of Japan's most powerful

Science vs. Religion: Guido O. Perez, 2015-04-01 Most people look to religion and science faith and reason for an explanation of everything that is but neither the scientific nor the religious system can actually provide all the answers to life's questions Is that really what we're looking for The author

examines both science and religion in some detail and from a variety of standpoints A life long educator he indicates many avenues for further reading so that no one has to simply accept whatever his family or community traditions may have proposed One sticking point in most discussions of religion vs science is that few of us really have enough information about both positions and the myriad hybrid beliefs in between in order to make a proper evaluation As a professor of medicine and an avid investigator of these questions Dr Guido Perez offers some background and guidance The author explores the basics of theism and today s largest religions and gives a solid grounding in the facts and theoretical basis for evolution and the scientific approach to knowledge He then explores a possible place to stand in both morally and intellectually grounded while we puzzle out our existence a rational belief system that accounts for what we can account for while recognizing those mysteries and existential questions we humans just can t seem to stop asking Dr Perez proposes a rational belief system grounded in natural science and humanism an approach where morality comes naturally not because we fear divine punishment but because we inherently understand what is good for humanity
