The Oxford Handbook of Religion and Emotion John Corrigan, 2008 This volume collects essays under four categories religious traditions religious life emotional states and historical and theoretical perspectives They describe the ways in which emotions affect various world religions and analyse the manner in which certain components of religious represent and shape emotional performance

The Routledge Handbook of Language and Emotion Sonya Pritzker, Janina Fenigsen, James Wilce, 2019-12-06 The Routledge Handbook of Language and Emotion offers a variety of critical theoretical and methodological perspectives that interrogate the ways in which ideas about and experiences of emotion are shaped by linguistic encounters and vice versa Taking an interdisciplinary approach which incorporates disciplines such as linguistic anthropology sociolinguistics applied linguistics psychology communication studies education sociology folklore religious studies and literature this book explores and illustrates the relationship between language and emotion in the five key areas of language socialisation culture translation and transformation poetry pragmatics and power the affective body self and emotion communities situates our present day thinking about language and emotion by providing a historical and cultural overview of distinctions and moral values that have traditionally dominated Western thought relating to emotions and their management provides a unique insight into the multiple ways in which language incites emotion and vice versa especially in the context of culture With contributions from an international range of leading and emerging scholars in their fields The Routledge Handbook of Language and Emotion is an indispensable resource for students and researchers who are interested in incorporating interdisciplinary perspectives on language and emotion into their work

The Oxford Handbook of the Study of Religion Michael Stausberg, Steven Engler, 2016 The Oxford Handbook of the Study of Religions provides a comprehensive overview of the academic study of religions Written by an international team of leading scholars its fifty one chapters are divided thematically into seven sections The first section addresses five major conceptual aspects of research on religion Part two surveys eleven main frameworks of analysis interpretation and explanation of religion Reflecting recent turns in the humanities and social sciences part three considers eight forms of the expression of religion Part four provides a discussion of the ways societies and religions or religious organizations are shaped by different forms of allocation of resources i e economy Other chapters in this section consider law the media nature medicine politics science sports and tourism Part five reviews important developments distinctions and arguments for each of the selected topics The study of religion addresses religion as a historical phenomenon and part six looks at seven historical processes Religion is studied in various ways by many disciplines and this Handbook shows that the

study of religion is an academic discipline in its own right The disciplinary profile of this volume is reflected in part seven which considers the history of the discipline and its relevance Each chapter in the Handbook references at least two different religions to provide fresh and innovative perspectives on key issues in the field This authoritative collection will advance the state of the discipline and is an invaluable reference for students and scholars Women, Religion, and Emotions in Modern Germany and Beyond Lisa Fetheringill Zwicker, Martina Cucchiara, 2025 Analyzes the role of emotions in the religious lives of women from across Germany and Europe from the nineteenth century to the 1970s Scholarship on women and religion has focused primarily on the intersection between women's religious engagement and their emancipation This volume goes beyond that to examine the vital role religion has played in the private and public lives of German and European women Because emotions are central to the expression of religiosity it draws on approaches from the history of emotions to examine how women understood felt and practiced religion in their search for meaning Spanning from the nineteenth century to the 1970s the volume's essays show how religion helped women make sense of their lives It also illuminates the degree to which women used religion and its attendant emotional scripts to shape modern society and how religious discourses in turn shaped women's emotions and comportment in the public sphere The volume builds on recent research that shows that religion especially the religiosity of women remained a pressing public concern in modern Europe From anxieties over the religiosity of Bavarian servants to restrictive norms imposed on Jewish widows from the interfaith commitments of kindergarten teachers to the autobiographical narratives of aspiring Protestant deaconesses from the suffering of stigmatics in Germany and Belgium to Irish women's public narratives of their religiosity this book reveals how women's faith and attendant religious emotions have been central to their public and private lives Emotions and Religious Dynamics Nathaniel A. Warne, 2016-05-13 We all feel emotions and are moved to action by them Religious communities often select and foster certain emotions over others Without understanding this it is hard to grasp the way groups view the world and each other Often it is the underlying emotional pattern of a group rather than its doctrines that either divides it from or attracts it to others These issues so important in today's world are explored in this book in a genuinely interdisciplinary way by anthropologists psychologists theologians and historians of religion and in some detailed studies of well and less well known religious traditions from across the world **Paul's Emotional Regime** Ian Y. S. Jew, 2020-10-15 In his letters Paul speaks often of his emotions and also promotes certain feelings while banishing others This indicates that for Paul emotion is vital However in New Testament studies the study of emotions is still nascent current research in the social sciences highlights its cognitive and social dimensions Ian Y S Jew combines rigorous social scientific analysis and exegetical enquiry to argue that emotions are intrinsic to the formation of the Pauline communities as they encode belief structures and influence patterns of social experience By taking joy in Philippians and grief in 1 Thessalonians as representative emotions and contrasting Paul's approach with that of his Stoic contemporaries Jew demonstrates that authorized feelings have socially integrating and

differentiating functions by reinforcing the shared theological realities upon which emotional norms are based group belonging is bolstered Simultaneously authorized emotions fortify the theological boundaries between Christians and others which strengthens group solidarity in the Church by accentuating its members insider status Using this framework heuristically Jew explores how the interplay of symbolic ritual and social elements within Paul s eschatological worldview reinforces emotional norms and demonstrates that attention to emotion can only deepen our understanding of the social formation of the early believers

Mormonism and the Emotions Mauro Properzi, 2015-05-21 Mormonism and the Emotions An Analysis of LDS Scriptural Texts is an introductory Latterday Saint LDS theology of emotion that is both canonically based and scientifically informed It highlights three widely accepted characteristics of emotion that emerge from scientific perspectives namely the necessity of cognition for its emergence the personal responsibility attached to its manifestations and its instrumentality in facilitating various processes of human development and experience In analyzing the basic theological structure of Mormonism and its unique canonical texts the objective is to determine the extent to which LDS theology is compatible with this three fold definition of emotion At this basic level of explanation the conclusion is that science and Mormon theology undoubtedly share a common perspective The textual investigation focuses on unique Mormon scriptures and on their descriptions of six common emotions hope fear joy sorrow love and hate For each of these emotional phenomena the extensive report of textual references consistently confirms an implied presence of the outlined three fold model of emotion Thus the evidence points to the presence of an underlying folk model of emotion in the text that broadly matches scientific definitions Additionally the theological examination is enlarged with a particular focus on the Mormon theology of atonement which is shown to play a significant role in LDS understandings of emotions A broad exploration of such areas as epistemology cosmology soteriology and the theological anthropology of Mormonism further contextualizes the analysis and roots it in the LDS theological worldview

Picart, John Edgar Browning, 2012-07-16 Employing a range of approaches to examine how monster talk pervades not only popular culture but also public policy through film and other media this book is a one stop shop of sorts for students and instructors employing

various approaches and media in the study of teratologies or discourses of the monstrous *Protestant Empires* Ulinka Rublack,2020-09-10 Through its wide geographical and chronological scope Protestant Empires advances a novel perspective on the nature and impact of the Protestant Reformations **Religion of Fear** Jason C Bivins,2008-08-29 Jason C Bivins offers close examinations of several popular evangelical cultural creations including the Left Behind novels church sponsored Halloween Hell Houses Jack Chick s sensational comic tracts and anti rock and rap rhetoric and censorship Bivins depicts these fascinating and often troubling phenomena in vivid detail and shows how they seek to shape evangelical cultural and political identity Crossing and Dwelling Thomas A. TWEED,2009-06-30 A deeply researched and vividly written study this book depicts religion in place and in movement dwelling and crossing Drawing on insights from the natural and social sciences Tweed s work is grounded in the gritty particulars of distinctive religious practices even as it moves toward ideas about cross cultural patterns It offers a responsible way to think broadly about religion a topic that is crucial for understanding the contemporary world **John Owen between Orthodoxy and Modernity** ,2019-02-11 This volume offers fresh reflections on John Owen a leading Reformed theologian who sat on the brink of a new age His seventeenth century theology and spirituality reflect the growing tensions and pre modern and modern tendencies Exploring Owen in this context helps readers better understand the seventeenth century dynamics of individualization and rationalization the views of God and self community and the world The authors of this volume investigate Owen s approach to various key themes including his Trinitarian piety catholicity doctrine of scripture and public prayer Owen s international reception and current historiographical challenges are also highlighted Contributors are Joel R Beeke Henk van den Belt Gert A van den Brink Hans Burger Daniel R Hyde Kelly M Kapic Reinier W de Koeijer Ryan M McGraw David P Murray Carl R Trueman Willem van Vlastuin **"Martyr to the Truth"** Charles J.T. Talar,2012-10-18 In his autobiography Joseph Turmel 1859 1943 has left an intensely personal account of his struggles to reconcile his Catholic faith with the results of historical critical methods as those impacted biblical exegesis and the history of dogma Having lost his faith in 1886 he chose to remain as a priest in the Church even while he worked to undermine its teachings He did so initially in writings published under his own name and as his conclusions became increasingly radical under a veritable team of pseudonyms He was excommunicated in 1930 His account of his life is less a discussion and defense of his ideas than it is a moral justification of his conduct Turmel is associated with the left wing of Roman Catholic Modernism along with Albert Houtin Marcel Hebert and Felix Sartiaux **Religion, Media and Culture: A Reader** Gordon Lynch,Jolyon Mitchell,Anna Strhan,2012-02-13 This Reader brings together a selection of key writings to explore the relationship between religion media and cultures of everyday life It provides an overview of the main debates and developments in this growing field focusing on four major themes Religion spirituality and consumer culture Media and the transformation of religion The sacred senses visual material and audio culture Religion and the ethics of media and culture This collection is an invaluable resource for students academics and

researchers wanting a deeper understanding of religion and contemporary culture *Faith and Revivalism in a Nordic Romani Community* David Thurfjell, 2013-03-19 A Pentecostal revival is sweeping the Romani communities of Europe The dominant religious orientation of European Roma Pentecostalism has become one of the major factors behind Romani social development in the wake of the discrimination marginalisation and growing anti ziganist sentiments of the latest decades Through this form of charismatic Protestant Christianity Roma have overcome social problems and internal conflicts as well as battle against the hostility and exclusion of the macro gajo non Roma society Based on interviews and field work this original ethnographic study offers a unique presentation and analysis of the Pentecostal revival in one of Europe's many Romani communities the Kaale Roma of Finland and Sweden Through individual life stories historical exposes sociological interpretation and ritual and discourse analysis Thurfjell provides a vivid accurate portrait of the multifaceted and complex situation of contemporary Roma Despite the efforts of the Nordic welfare state over the past decades to counteract poverty and to integrate their Romani communities into society these groups are persistently problematic Inspired by postcolonial theory Thurfjell's study addresses the failure of the integration politics of the Roma he highlights the discursive pressure the hegemonial society places on outsiders as it reaches out to help them Romani individuals it is argued are caught in a deadlock between the pressure to assimilate themselves into the majority society and that of their community to remain Romani This study of the Pentecostal movement is of interest to anyone who seeks to understand the religious historical social and discursive processes that underlie the complex and difficult situation of European Roma today *Reading with an "I" to the Heavens* Angela Kim Harkins, 2012-07-04 This book examines the collection of prayers known as the Qumran Hodayot Thanksgiving Hymns in light of ancient visionary traditions new developments in neuropsychology and post structuralist understandings of the embodied subject The thesis of this book is that the ritualized reading of reports describing visionary experiences written in the first person I had the potential to create within the ancient reader the subjectivity of a visionary which can then predispose him to have a religious experience This study examines how references to the body and the strategic arousal of emotions could have functioned within a practice of performative reading to engender a religious experience of ascent In so doing this book offers new interdisciplinary insights into meditative ritual reading as a religious practice for transformation in antiquity *The Renaissance of Feeling* Kirk Essary, 2024-01-11 Offering a re-reading of Erasmus's works this book shows that emotion and affectivity were central to his writings It argues that Erasmus's conception of emotion was highly complex and richly diverse by tracing how the Dutch humanist writes about emotion not only from different perspectives theological philosophical literary rhetorical medical but also in different genres In doing so this book suggests Erasmus provided a distinctive if not unique Christian humanist emotional style Demonstrating that Erasmus consulted multiple intellectual traditions and previous works in his thoughts on affectivity *The Renaissance of Feeling* sheds light on how understanding emotions in late medieval and early modern Europe was a multi

disciplinary affair for humanist scholars. It argues that the rediscovery and proliferation of ancient texts during the so-called renaissance resulted in shifting perspectives on how emotions were described and understood and on their significance for Christian thought and practice. The book shows how the very availability of source material coupled with humanists' eagerness to engage with multiple intellectual traditions gave rise to new understandings of feeling in the 16th century. Essary shows how Erasmus provides the clearest example of such an intellectual inheritance by examining his writings about emotion across much of his vast corpus, including literary and rhetorical works, theological treatises, textual commentaries, religious disputations, and letters. Considering the rich and diverse ways that Erasmus wrote about emotions and affectivity, this book provides a new lens to study his works and sheds light on how emotions were understood in early modern Europe.
