It establishes a principled basis for determining the proper scope of religious freedom at work and considers the interaction of freedom of religion with the right not to be discriminated against on grounds of religion and belief. The book locates the debates surrounding religion and belief equality within a philosophical and theoretical framework in which the importance of freedom of religion and its role within the workplace are fully debated. This second edition is fully revised and updated in the light of recent case law from the UK and the European Court of Human Rights which deals with religious discrimination and freedom of religion.

Human Rights in Northern Ireland Brice Dickson, Brian Gormally, 2015-02-26 This Handbook is the latest version of a book that was last published in 2003 and has been completely revised to take account of the innumerable legal developments since then. The book contains 26 chapters on topics ranging across the full spectrum of civil political social economic and environmental rights with particular emphasis on the right not to be discriminated against. It is currently the most comprehensive and practical publication on the state of human rights in Northern Ireland. This is a part of the world where as well as ongoing issues arising out of the conflict emergency laws are still in place. For example, there are familiar questions concerning the rights of people with poor mental health, the law relating to family and sexual matters, children's rights, education rights, employment rights, housing rights and social security rights. The contributors to the book are all experts in their field, most of them with years of experience as human rights activists and advisers. The book provides precise information about relevant legislation and case law on which there are tables and is fully indexed.

The Faith Community and the Law Temitope Olodo, 2008-09-09 Understanding the concept of religious freedom is essential for policy writers, faith practitioners and more importantly anyone eager to engage with the faith community. An effective faith engagement and implementation strategy must take account of the legal development in the field of religious discrimination. This author takes the readers on a journey that provides an explanatory legal etymology of the concept of religious discrimination within the international scene and the United Kingdom before the arrival of HRA 1998. This book also examines protections available in other common law countries like USA, Australia, Nigeria and South Africa.

Northern Ireland's Troubles Marie-Therese Fay, Mike Morrissey, Marie Smyth, 1999-03-20 This work provides a background to the Northern Ireland conflict. The authors investigate the human effect of the violence, looking at the geographical, religious, gender and age distribution of deaths due to the troubles. They analyse the impact of the activities of the various armed participants and examine the relationship between deprivation and levels of violence. Looking at suicide rates, levels of prescribed drug use and mental health admissions, they examine the social impact of the conflict. They then compare this with the impact on the economy, GDP, unemployment levels and public expenditure, putting forward a positive

agenda for dealing with the effects of conflict and for moving away from violence towards peace **The European Convention on Human Rights and the Conflict in Northern Ireland** Brice Dickson, 2010-03-04 This book charts the role played by the European Convention on Human Rights during the conflict in Northern Ireland from 1968 to the present day It offers a systematic case study of the Convention's capacity to protect human rights in a society wracked by terrorism and political conflict Religion and the Law St. John Anthony Robilliard, 1984 *Law, Religious Freedoms and Education in Europe* Myriam Hunter-Henin, 2016-04-22 This collection considers how contemporary cultural and religious diversity challenges and redefines national constitutional and legal frameworks and concepts within the context of education It offers a critical reflection on the extent and meanings given to religious freedom in education across Europe The contributions deal primarily with Western Europe although the book also includes a study of the US vibrant debates on Creationism This volume considers issues such as religious expression faith schooling and worship in schools in a multidisciplinary and comparative approach The book first examines key concepts before presenting national models of religion and education in Europe and analyzing case studies relating to religious symbols worn at school and to the teaching of religious education Legal questions are examined in a wider context in the light of the intentions of state policy and of current national and transnational debates Controversies on the legal implications of personal and national identities are for example analyzed From a comparative perspective the chapters examine the possible converging power of human rights and anti discrimination discourses and reveal the difficulties and risks involved in seeking to identify the best model for Europe This topical study of a highly sensitive area of education presents a valuable insight for students researchers and academics with an interest in cultural and religious diversity human rights and education *Annual Report, International Religious Freedom* United States. religion or belief identities with other aspects of people's identity including characteristics such as age disability race sex and sexual orientation which can also be legally protected This volume is a benchmark publication on religion discrimination and equality It includes data and insights derived from the fieldwork focus groups and questionnaire survey of a recent national research project in Britain Its analysis presents a unique insight into continuity and change in people's reported experience over a decade of equalities legislation and political and social change of unfair treatment on the basis of religion or belief Grounded in empirical and contextualized data its findings are placed in the context of European and international human rights law Its findings will be of special interest to both scholars and practitioners working in the specific fields of education employment the media criminal justice and immigration housing health care social services and funding as well as in the broader fields of religion or belief the law and public policy Religious Discrimination and Cultural Context Kerry O'Halloran, 2017-11-23 Uses a comparative analysis of case law in leading common law nations to demonstrate how religious discrimination is culturally determined **Congressional Record** United States.
