A Secular Age

Charles Taylor, 2007-09-20 Taylor takes up the question of what happens when a society in which it is virtually impossible not to believe in God becomes one in which faith even for the staunchest believer is only one human possibility among others

Guide to Christian Living George V. Lobo, 2004-09-28 Among all the theological disciplines perhaps moral theology has felt the impact of the conciliar renewal most There has been a mass of excellent literature calling for a synthetic presentation At the same time a more flexible and dynamic ethic based on the Gospel values of love and freedom while it has undoubtedly deepened the Christian life of many has also caused not a little confusion in the minds of many There are endless discussions on burning issues like contraception and abortion which often do not end in any satisfactory conclusion because the general principles for ethical decision are not clear There is also a polarization between conservatives and progressives which leaves the neutral observer puzzled This book is written to clarify the basic issues in Christian ethics in an age of secularism and pluralism Although it can be taken as a treatise on General Moral Theology this book is addressed to a wider audience than students of theology It is meant to be a guide to Christian Living according to Vatican II It seeks to transcend the unfortunate dichotomy between moral and spiritual theology as the Council clearly wanted when it spoke of the subject of moral theology as the Christian vocation of the faithful and their obligation to bring forth fruit in charity for the life of the world While discussing the basic principles of Christian ethics the main preoccupation has been to discover an approach to moral decision that would safeguard all the moral values in a given situation The broad orientations for moral guidance today have been brought out in several places Special attention has been given to the question of moral absolutes as it is central to ethical discourse now The ecumenical spirit common preoccupations and a shared respect for the Word of God have brought Catholic and Protestant moral theology closer Hence an effort has been made to have a dialogue with the theologians of the Reformed tradition The strong influence of Protestant ethical writers on current Catholic moral theology has been brought out

Queer Faith Melissa E. Sanchez, 2019-08-20 Honorable Mention 2020 Aldo and Jeanne Scaglione Prize given by the Modern Language Association Uncovering the queer logics of premodern religious and secular texts Putting premodern theology and poetry in dialogue with contemporary theory and politics Queer Faith reassesses the commonplace view that a modern veneration of sexual monogamy and fidelity finds its roots in Protestant thought What if this narrative of history and tradition suppresses the queerness of its own foundational texts Queer Faith examines key works of the prehistory of monogamy from Paul to Luther Petrarch to Shakespeare to show that writing assumed to promote fidelity in fact articulates the affordances of promiscuity both in its sexual sense and in its larger designation of all that is impure and disorderly At the same time Melissa E Sanchez resists casting promiscuity as the ethical queer alternative to monogamy tracing instead how ideals of sexual liberation are themselves attached to nascent racial and economic hierarchies Because discourses of fidelity

and freedom are also discourses on racial and sexual positionality excavating the complex historical entanglement of faith race and eroticism is urgent to contemporary queer debates about normativity agency and relationality Deliberately unfaithful to disciplinary norms and national boundaries this book assembles new conceptual frameworks at the juncture of secular and religious thought political and aesthetic form It thereby enlarges the contexts objects and authorized genealogies of queer scholarship Retracing a history that did not have to be Sanchez recovers writing that inscribes radical queer insights at the premodern foundations of conservative and heteronormative culture **A Synodal Church** Susan K.

Wood,2025-04-23 Beyond the occasional events of synods in the Catholic church and beyond practices of synodality stands a church that is synodal in its very nature This ecclesial identity has its roots in baptism and the formation of the people of God prior to any subsequent division into laity and clergy These baptismal roots also point to the missional orientation of the church indicating that a synodal church is not self referential but serves the proclamation of God s saving mercy to a world thirsty for hope and healing A synodal church is a church on pilgrimage a church in movement that finds its path by drawing on the accumulated wisdom of the whole people of God as they journey together This book shows that the path forward only becomes clearer step by step through a process of dialogue conversion and co responsibility The journey takes place in different locales and different contexts consequently requiring adaptation to accommodate the circumstances of local churches Yet this diversified and de centered church also requires structures to keep it in communion and unity Any reform of church structures including practices of synodality serves the communion and mission of the church Other Christian communions Anglicans and Lutherans among them have traveled the path of synodality The Catholic Church can learn from their experience in the spirit of receptive ecumenism **Why the Cross?** Ligita Ryliskytė,2023-01-05 In this book Ligita

Ryliskyte addresses what is arguably the most important and profound question in systematic theology What does it mean for humankind to be saved by the cross Offering a constructive account of the atonement that avoids pitting God s saving love against divine justice she provides a biblically grounded and philosophically disciplined theology of the cross that responds to the exigencies of postmodern secular culture Ryliskyte draws on Bernard J F Lonergan s development of the Augustinian Thomist tradition to argue that the justice of the cross concerns the orderly communication and diffusion of divine friendship It becomes efficacious in the dynamic order of the emergent universe through the transformation of evil into good out of love Showing how inherited theological traditions can be transposed in new contexts Ryliskyte s book reveals a Christology of fundamental significance for contemporary systematic theology as well as the fields of theological ethics and Christian spirituality **Apologetics at the Cross** Joshua D. Faith Without Belief Derek S. King, 2024-11-01 What do I do when I can t believe By nature and nurture we re trained to doubt We re fluent in skepticism It s no surprise then many of us struggle to believe the basic claims of Christianity Does God exist Was Jesus God Did Jesus rise from the dead Without convinced right answers to these questions many bump into a seemingly immovable barrier to Christian faith But this book offers another way Centered on faith as trust this book offers the way of hope for those who struggle to believe in Christian claims Engaging Scripture and the Christian tradition it proposes a way of faith without belief

Jesus Christ, Hermeneutics, and Scripture Hans Burger, 2024-04-18 Soteriology not epistemology is the best entrance to theological hermeneutics and to the doctrine of Scripture The triune God uses Scripture to make the community of believers live in Christ We hear the words of Scripture in the light of Easter and Pentecost We understand Scripture from faith in Christ and with the mind of Christ At the same time we come to know Christ in Scripture and we receive the mind of Christ by reading Scripture We remain in Christ by remaining in the Word Understanding Scripture and Christlikeness mutually reinforce each other Living a Christian life with God and our neighbor in God s world will deepen our understanding of Scripture This book explores the complex relationships between Jesus Christ participation in Christ theological hermeneutics and the doctrine of Scripture It shows the necessity of a holistic approach of life knowledge understanding and renewal

The Fellowship of the Beatific Vision Norm Klassen, 2016-11-09 In The Canterbury Tales Geoffrey Chaucer asks a basic human question How do we overcome tyranny His answer goes to the heart of a revolutionary way of thinking about the very end of human existence and the nature of created being His answer declared performatively over the course of a symbolic pilgrimage urges the view that humanity has an intrinsic need of grace in order to be itself In portraying this outlook Chaucer contributes to what has been called the palaeo Christian understanding of creaturely freedom Paradoxically genuine freedom grows out of the dependency of all things upon God In imaginatively inhabiting this view of reality Chaucer aligns himself with that other great poet theologian of the Middle Ages Dante Both are true Christian humanists They recognize in art a fragile opportunity not to reduce reality to a set of dogmatic propositions but to participate in an ever deepening mystery Chaucer effectively calls all would be members of the pilgrim fellowship that is the church to behave as artists interpretively responding to God in the finitude of their existence together

Globalization and the Mission of the Church Neil J. Ormerod, Shane Clifton, 2011-10-27 Various social political economic and cultural commentators are presently arguing that human history is reaching a decisive stage in its development a stage marked by increased interconnection between peoples the compression of space and time a sharing of ideas at unprecedented levels global trade and finance and so on The shorthand word used to encompass these phenomena is

globalization Some embrace it others reject it while still others dispute its existence But with the abundance of literature and debate that it generates the topic cannot be ignored From its inception in the missionary mandate of Jesus Matthew 28 Christianity has had a global dimension to its mission Christianity is not a spectator to globalization but one of its agents one of the forces at work which have extended interconnection between peoples shared ideas and promoted social political and cultural links The purpose of the present work is not to provide a complete response to the question of the mission of the church in a globalizing world but to establish a framework within which answers may be sought Grounded in the writings of Bernard Lonergan and Robert Doran it develops a theology of history and addresses the churches response to the impact of globalization on vital social cultural personal and religious values The project brings together the perspectives of Catholicism and Pentecostalism the former providing a depth of wisdom and tradition the latter drawing on the insight of a newly emerging movement that has taken root in every continent with remarkable energy and enthusiasm **Ancient Sins . . .**

Modern Addictions R. Scott Sullender, 2013-07-05 There is a virtual epidemic of addiction in the United States both traditional addictions to drugs and alcohol but also newer addictions like sex gambling rage work and food eating Some authorities have labeled addictions the number one mental health problem in America We are spending millions of dollars annually trying to prevent understand and treat this epidemic and yet by any measure of success we are losing this war In this cultural context Dr Sullender invites us to look again at the spiritually based scheme of the Seven Deadly Sins which originated at the dawn of Western civilization He suggests that what our spiritual forebears meant by deadly is best captured in the modern concept of addiction Based on this thesis this book explores what is addictive about the sins of pride envy anger greed gluttony sloth and lust and suggests that these sins are all obsessive and as such become the mental component in the addictive cycle Each chapter concludes by offering some spiritual resources practices and insights that can help us win the battle against addiction which is ultimately won or lost on a mental or spiritual plane **The Seven Deadly Sins Today**

Henry Fairlie, 2015-11-30 Sin like death is an unassailable fact of life It is also one of the last great taboos for public debate In this compelling book the Henry Fairlie shows that it is possible and necessary to talk about sin in ways that enrich our societies and our personal lives Fairlie relates these ancient sins to the central issues of contemporary life liberal vs conservative politics discrimination pornography abortion the vistas of modern science and especially the pop psychologies that confirm the narcissism of our age **The Soul of Doubt**

Dominic Erdozain, 2016 It is widely assumed that science represents the enemy of religious faith The Soul of Doubt proposes an alternative cause of unbelief the Christian conscience Dominic Erdozain argues that the real solvents of orthodoxy in the modern period have been concepts of moral equity and personal freedom generated by Christianity itself **The Trauma of Doctrine**

Paul Maxwell, 2021-01-12 The Trauma of Doctrine is a theological investigation into the effects of abuse trauma upon the experience of Christian faith the psychological mechanics of these effects their resonances with Christian Scripture and neglected research informed
