Literary Criticisms of Law Guyora Binder,Robert Weisberg,2000-02-22 In this book the first to offer a comprehensive examination of the emerging study of law as literature Guyora Binder and Robert Weisberg show that law is not only a scheme of social order but also a process of creating meaning and a crucial dimension of modern culture They present lawyers as literary innovators who creatively interpret legal authority narrate disputed facts and hypothetical fictions represent persons before the law move audiences with artful rhetoric and invent new legal forms and concepts Binder and

Weisberg explain the literary theories and methods increasingly applied to law and they introduce and synthesize the work of over a hundred authors in the fields of law literature philosophy and cultural studies Drawing on these disparate bodies of scholarship Binder and Weisberg analyze law as interpretation narration rhetoric language and culture placing each of these approaches within the history of literary and legal thought They sort the styles of analysis most likely to sharpen critical understanding from those that risk self indulgent sentimentalism or sterile skepticism and they endorse a broadly synthetic cultural criticism that views law as an arena for composing and contesting identity status and character Such a cultural criticism would evaluate law not simply as a device for realizing rights and interests but also as the framework for a vibrant cultural life

The Unitarian Jabez Thomas Sunderland, Brooke Herford, Frederick B. Mott, 1895 *Serving Two Masters* Elisabeth W. Sommer, 2021-12-14 The eighteenth century was a time of significant change in the perception of marriage and family relations the emphasis of reason over revelation and the spread of political consciousness The Unity of the Brethren known in America as Moravians experienced the resulting tensions firsthand as they organized their protective religious settlements in Germany A group of the Brethren who later settled in Salem North Carolina experienced the stresses of cultural and generational conflict when its younger members came to think of themselves as Americans The Moravians who first immigrated to America actively maintained their connections to those who remained in Europe and gave them the authority for deciding religious social and governmental issues But as the children born in Salem became acclimated to more freedoms particularly in the wake of the American Revolution a series of disputes intensified the problems of transatlantic governance While the group's leadership usually associated Enlightenment principles with rebellion and religious skepticism the younger Brethren were drawn to its message of individual autonomy and creative expression Elisabeth Sommer traces the impact of this generational and cultural change among Moravians on both sides of the Atlantic and examines the resulting debate over the definition of freedom and faith

Resonance Russell Ganim,1998 Reversing the predominant critical interpretation of La Cepp de and the Th or mes this study claims that literary contexts and avatars act as a point of entry into devotion The book reads La Cepp de from the inside out asking principal question How does the literary initiate an exploration of the theological Focusing on the ways in which the Th or mes transform literature into a potential instrument of salvation the text looks at La Cepp de s adaptation of different Renaissance lyric types Modulation of the formal and thematic traits of lyric subgenres such as the blason the baiser the pastoral and pastourelle as well as the emblem allow La Cepp de to develop and exploit literature as a contemplative framework The goals in taking this approach are to emphasize La Cepp de s originality in terms of representing the Christian body and spiritually erotic imagery This methodology also highlights La Cepp de s use of lyric subgenre as a means of unifying the first and second volumes of the Th or mes In its final chapter the book compares and contrasts La Cepp de s appropriation of lyric forms with that of other Renaissance poets such as Lazare de Selve Jean de Sponde and Marguerite de Navarre The work concludes by arguing that the contribution of La Cepp de s text lies in the singularity of its narrative structure its poetic mission and its depiction of Christ s humanity Literary structure becomes meditative structure as lyric form becomes a vehicle toward redemption **The Church School Journal** ,1914
