

¿QUÉ ES EL SINGULAR?

Singular (1 gato)

Plural (3 gatos)

En gramática, **el singular** es una categoría que se aplica a sustantivos, adjetivos, pronombres y verbos cuando hacen referencia a un solo objeto, persona o entidad.

Es el opuesto del plural, que se refiere a más de uno. En el **singular**, las palabras se utilizan cuando se habla o se escribe sobre una sola cosa o persona.

Por ejemplo, "gato" es singular, mientras que "gatos" es plural.

El **singular** es esencial para la concordancia gramatical en una oración, ya que los elementos de la misma deben estar en armonía en número para formar una estructura coherente.

Lagopoulos, Karin Boklund-Lagopoulou, Maria Giulia Dondero, Jacques Fontanille, Maria Ilia Katsaridou, Rea Walldén, 2024-11-18 This book represents a unique collaborative effort to bring together the multiple aspects of the semiotics of images into a coherent approach based on Greimasian and post Greimasian theory Starting with a critical discussion of epistemological and theoretical issues and continuing with methodology and numerous examples of applied analysis it aims to provide the educated reader with a consistent and unified theoretical framework for the semiotic study of visual cultural texts It offers a comprehensive overview of the semiotics of static images such as painting drawing sculpture and photography but also dynamic images such as cinema animation and digital games Readers will benefit from the special emphasis placed on the analysis of the pictorial signifier visual syntax and the structuring of the semantic universe The Versatile Image Alexandra Moschovi, Carol McKay, Arabella Plouviez, 2014-01-07 New insights into the shifting cultures of today s hypervisual digital universe With the advent of digital technologies and the Internet photography can at last fulfill its promise and forgotten potential as both a versatile medium and an adaptable creative practice This multidisciplinary volume provides new insights into the shifting cultures affecting the production collection usage and circulation of photographic images on interactive World Wide Web platforms Image Analysis and Recognition Aurélio Campilho, Mohamed Kamel, 2006-09-22 The two volume set LNCS 4141 and LNCS 4142 constitutes the refereed proceedings of the Third International Conference on Image Analysis and Recognition ICIAR 2006 The volumes present 71 revised full papers and 92 revised poster papers together with 2 invited lectures Volume I includes papers on image restoration and enhancement image segmentation image and video processing and analysis image and video coding and encryption image retrieval and indexing and more *Image and Inscription* Gallery 44, 2005 Image and Inscription features the work of many of Canada s distinguished authors critics curators and artists who are recognized for their contribution to the discourse and practice of

photography it presents the diversity and the changeable milieu of photographic practice and evokes an unanticipated moment in Canadian photography It also represents an important step in expanding the contemporary authorship on photography in Canada adapted from the Introduction by Robert Bean *9/11 in American Culture* Norman K. Denzin, Yvonna S. Lincoln, 2003-01-29 In response to the events following September 11 2001 a number of leading cultural studies and interpretive qualitative researchers write from their own experiences and hearts These essays by noted scholars Kellner Fine McLaren Richardson Denzin Giroux and others were written in crisis within days and weeks of September 11 The immediacy of their writing is refreshing and reflects the varied emotional and critical responses that bring meaning to this event From the poetic to the personal the theoretical to the historical these contributions represent intelligent and reflective responses to crises This collection of essays allows the contributors to tell us how they made sense of these tragic events and predicts what the place of the humanities and the social sciences might hold in an age of terror The articles were originally published in journals *Qualitative Inquiry* and *Cultural Studies* *Critical Methodologies* *Envisioning the Word* Richard A. Jensen, 2005 In this one volume resource kit Jensen helps preachers use visual images creatively and responsibly How how much when what equipment use of teams relationship to exegesis different varieties of images sources all the essential topics and concerns are addressed here Jensen first discusses how vital if controversial image making has always been in Christian tradition and then demonstrates how preaching with images is both profoundly traditional and necessary to contemporary proclamation His work combines practical advice with religious reflection to enable preachers to help their congregations envision the Word anew The accompanying CD ROM contains not only the full text of the book and helpful study guide but links to the most helpful Websites and Web based sources of images *The Early Image of Black Baseball* James E. Brunson III, 2009-09-12 This volume examines early black baseball as it was represented in the artwork and written accounts of the popular press From contemporary postbellum articles illustrations photographs and woodcuts a unique image of the black athlete emerges one that was not always positive but was nonetheless central in understanding the evolving black image in American culture Chapters cover press depictions of championship games specific teams and athletes and the fans and culture surrounding black baseball **Deconstruction and the Work of Art** Martta Heikkilä, 2021-07-29 The contemporary idea of the work of art is paradoxically both widely used and often unexamined Therefore we must re evaluate the concept before we can understand what the deconstruction of aesthetics means for thinkers like Jacques Derrida Jean Luc Nancy and Philippe Lacoue Labarthe By examining their analyses of works of visual art and contextualizing their thinking on the matter Martta Heikkilä asserts that the implications of the work of art and the aesthetic apply not only to philosophical questions but also to a broader area Instead of the totality represented by the historical concept of Art poststructuralist thinkers introduce the idea of the radical multiplicity of art and its works From this notion arises the fundamental issue in Derrida and the poststructuralist tradition how can we speak philosophically of art which always exists

as singular instances as works In Deconstruction and the Work of Art Visual Arts and Their Critique in Contemporary French Thought Heikkil shows that the deconstructionist notions of art are still influential in the discourses of contemporary art in which artworks proliferate and the concept of work is open ended and expanding This book offers an introduction to the deconstructionist theory of art and brings new perspectives to the complex undecidable relation between philosophy and art

Orthogonal Image Moments for Human-Centric Visual Pattern Recognition S. M. Mahbubur Rahman,Tamanna Howlader,Dimitrios Hatzinakos,2019-10-11 Instead of focusing on the mathematical properties of moments this book is a compendium of research that demonstrates the effectiveness of orthogonal moment based features in face recognition expression recognition fingerprint recognition and iris recognition The usefulness of moments and their invariants in pattern recognition is well known What is less well known is how orthogonal moments may be applied to specific problems in human centric visual pattern recognition Unlike previous books this work highlights the fundamental issues involved in moment based pattern recognition from the selection of discriminative features in a high dimensional setting to addressing the question of how to classify a large number of patterns based on small training samples In addition to offering new concepts that illustrate the use of statistical methods in addressing some of these issues the book presents recent results and provides guidance on implementing the methods Accordingly it will be of interest to researchers and graduate students working in the broad areas of computer vision and visual pattern recognition

The Rhetoric of Outrage Jeff Rice,2023-05-25 An accessible and important look at what is truly behind our digital outrage On any given day at any given hour across the various platforms constituting what we call social media someone is angry

Facebook Instagram Twitter Reddit 4Chan In The Rhetoric of Outrage Why Social Media is Making Us Angry Jeff Rice addresses the critical question of why anger has become the dominant digital response on social media He examines the theoretical and rhetorical explanations for the intense rage that prevails across social media platforms and sheds new light on how our anger isn't merely a reaction against singular events but generated out of aggregated beliefs and ideas Captivating accessible and exceedingly important The Rhetoric of Outrage encourages readers to have the difficult conversations about what is truly behind their anger *Jean-Luc Godard* Douglas Morrey, 2019-01-11 This volume offers a new interpretation of one of the most innovative directors in the history of cinema It is the first book to cover the whole of Godard's career from the French New Wave to the recent triumphs of *Histoire(s) du cinéma* and *Eloge de l'amour* Drawing on a wide range of literary filmic and philosophical texts the book places Godard's work within its intellectual context examining how developments in French culture and thought since 1950 have been mirrored in and sometimes anticipated by Godard's films Numerous sequences from Godard's films are singled out for close analysis demonstrating how the director's radical approaches to narrative editing sound and shot composition have made the cinema into an analytical tool in its own right The book will be essential to all students of Godard's films and of interest to scholars of modern and contemporary French cinema culture and thought *Uncertain Images: Museums and the Work of Photographs* Elizabeth Edwards, Sigrid Lien, 2016-02-17 Almost all museums hold photographs in their collections and museum professionals and their audiences engage with photographs in a myriad of ways Yet despite some three decades of critical museology and photographic theory and an extensive debate on the politics of representation outside art museums almost no critical attention has been given specifically to the roles purposes and lives of these photographs within museums This book brings into focus the ubiquitous yet entirely unconsidered work that photographs are put to in museums The authors' argument is that there is an economy of photographs in museums which is integral to the processes of the museum and integral to the understanding of museums The international contributors drawn from curators and academics reflect a range of visual and museological expertise After an introduction setting out the range of questions and problems the first part addresses broad curatorial strategies and ways of thinking about photographs in museums Shifting the emphasis from curatorial practices and anxieties to the space of the gallery this is followed by a series of case studies of exhibitionary practices and the museum strategies that support them The third section focuses on the role of photographs in the museum articulation of difficult histories A final section addresses photograph collections in a digital environment New technologies and new media have transformed the management address and purposing in photographs in museums from cataloguing practices to streaming on social media These growing practices challenge both traditional hierarchies of knowledge in museums and the location of authority about photographs The volume emerges from PhotoCLEC a HERA funded project on museums and the photographic legacy of the colonial past in a postcolonial and multicultural Europe *The Interface Effect* Alexander R. Galloway, 2013-05-20 Interfaces are back or

perhaps they never left The familiar Socratic conceit from the Phaedrus of communication as the process of writing directly on the soul of the other has returned to center stage in today's discussions of culture and media Indeed Western thought has long construed media as a grand choice between two kinds of interfaces Following the optimistic path media seamlessly interface self and other in a transparent and immediate connection But following the pessimistic path media are the obstacles to direct communion disintegrating self and other into misunderstanding and contradiction In other words media interfaces are either clear or complicated either beautiful or deceptive either already known or endlessly interpretable Recognizing the limits of either path Galloway charts an alternative course by considering the interface as an autonomous zone of aesthetic activity guided by its own logic and its own ends the interface effect Rather than praising user friendly interfaces that work well or castigating those that work poorly this book considers the unworkable nature of all interfaces from windows and doors to screens and keyboards Considered allegorically such thresholds do not so much tell the story of their own operations but beckon outward into the realm of social and political life and in so doing ask a question to which the political interpretation of interfaces is the only coherent answer Grounded in philosophy and cultural theory and driven by close readings of video games software television painting and other images Galloway seeks to explain the logic of digital culture through an analysis of its most emblematic and ubiquitous manifestation the interface
