Kahn, 2011 Originally published in 1975 as a memorial to the Kimbell Art Museum s architect Louis I Kahn *Light Is the Theme* provides an extended expression of the major themes articulated in his design for the museum The text consists solely of Kahn s own words and explores his innovative use of natural light and playful employment of materials which achieve their most refined state in the Kimbell widely regarded as the architect s crowning achievement and admired as one of the greatest museum buildings of the 20th century Marking the 40th anniversary of the Kimbell Art Museum this is the first time this classic book updated with a new bibliography and a foreword by director Eric M Lee has been available outside of the museum Distributed for the Kimbell Art Museum

The Art Museums of Louis I. Kahn Patricia Cummings Loud, Louis I. Kahn, 1989 *Construction of the Kimbell Art Museum* , 1998 **In Pursuit of Quality** Kimbell Art Museum, 1987 *Louis I. Kahn* Louis I. Kahn, David M. Robb, Marshall D. Meyers, 1978 **Louis I. Kahn** David Bruce Brownlee, David Gilson De Long, 1997 *The Museum of Contemporary Art* **Louis I Khan Beyond Time and Style** Carter Wiseman, 2007-02-27 The first in depth biographical study of the brilliant but elusive architect who fundamentally redefined twentieth century architecture Now ranked with Frank Lloyd Wright Le Corbusier and Mies van der Rohe Louis I Kahn brought a reverence for history back into modern architecture while translating it into a uniquely contemporary idiom Drawing on more than one hundred interviews with colleagues coworkers clients and family members and illustrated with many previously unpublished photographs this book documents the uniquely American rise of a poor immigrant to the pinnacle of the international architectural world It illuminates the richly diverse personal relationships Kahn had with such clients as Jonas Salk and Paul Mellon and the romantic entanglements that mystified even those closest to him While celebrating the genius of Kahn s art the book provides

an invaluable portrait of the man who created it *The Art of Ambiguity* David Christopher Sledge, 2001 This thesis examines the Kimbell Art Museum in Fort Worth Texas designed and executed between 1966 and 1972 by the architect Louis I Kahn This study responds to a series of design related questions raised in the author's mind upon visiting the Kimbell museum on June 22 2000 The work will evaluate the building's major design elements beginning with the overall site and building organization and end with the relationship between structure space and natural light The building is documented with numerous photographs taken during my visit to illustrate its experiential aspects This study examines how the Kimbell Art Museum prompts readings and re-readings associations symbolisms and meanings that may initially appear elusive contradictory or even obscure My analysis suggests that Louis Kahn designed the Kimbell to generate obscure readings or to be more precise he utilized ambiguous design features capable of being understood in two or more possible senses My analysis also raises questions such as What types of ambiguity are employed in this museum and why and How does the Kimbell Art Museum as both building and experience compare to Kahn's stated design goals The lens through which this examination takes place is my own experience of the building tempered by an examination of the building's documentation compared to what Kahn wrote sketched and built This project aims to offer plausible insights into the building's numerous seemingly ambiguous design features The process of reading and re-reading the Kimbell reveals elusive aspects of the building that to date have not been adequately considered and articulated The object of this study is twofold first enhance understanding and appreciation of Louis I Kahn's design methodology and second offer alternative evaluations of the Kimbell Art Museum that include a wide palette of design attributes which bridge the gap between the building and its experience the tangible and intangible or to use Kahn's words the measurable and unmeasurable *Air-Conditioning in Modern American Architecture, 1890-1970* Joseph M. Siry, 2021-02-01 Air Conditioning in Modern American Architecture 1890 1970 documents how architects made environmental technologies into resources that helped shape their spatial and formal aesthetic In doing so it sheds important new light on the ways in which mechanical engineering has been assimilated into the culture of architecture as one facet of its broader modernist project Tracing the development and architectural integration of air conditioning from its origins in the late nineteenth century to the advent of the environmental movement in the early 1970s Joseph M Siry shows how the incorporation of mechanical systems into modernism's discourse of functionality profoundly shaped the work of some of the movement's leading architects such as Dankmar Adler Louis Sullivan Frank Lloyd Wright Ludwig Mies van der Rohe Gordon Bunshaft and Louis Kahn For them the modernist ideal of functionality was incompletely realized if it did not wholly assimilate heating cooling ventilating and artificial lighting Bridging the history of technology and the history of architecture Siry discusses air conditioning's technical and social history and provides case studies of buildings by the master architects who brought this technology into the conceptual and formal project of modernism A monumental work by a renowned expert in American modernist architecture this book asks us to see canonical
