BOOK JACKET Modern Black Writers Michael Popkin, Steven Serafin, 1995 **Monthly Catalog of United States Government Publications** United States. Superintendent of Documents, 1991 *Another Place* Andrew Elkins, 2002

Contending that many good poets live and write in the American West, Andrew Elkins suggests that the western landscape, be it New Mexico desert or Alaskan wilderness, shapes the work that is created there. The place's essence and spirit inevitably become part of the work that flows from the poet's creativity. Elkins examines the work of Peggy Pond Church, John Haines, Adrian C. Louis, Richard Hugo, Jane Hirshfield, and several cowboy poets. Texas Christian University Press

Ellingtonia W. E. Timmer, 2000-01-01

Edward Kennedy Duke Ellington (1899-1974) is recognized as one of the great composers and orchestra leaders of the twentieth century and is credited for raising jazz to its highest plateau. He remained musically active through his entire life, creating a prolific musical output. *Ellingtonia: The Recorded Music of Duke Ellington and His Sidemen* compiles Ellington's entire musical catalog from the first recording session in July 1923 to the last concert in March 1974. More than a discography, the book comprises all the activities of these musicians, including studio recordings, movie soundtracks, concerts, dance dates, radio broadcasts, telecasts, and private and unissued recordings, as well as recordings made by Ellington's sidemen under their own names or with other bands. W. E. Timmer provides the date, location, and personnel for each session, the label, first issue, master, and take numbers, if available, and song title, including alternate titles and derivatives. Containing a comprehensive guide for users and indexes of titles, musicians, cities, venues, and general subjects, this completely revised and updated 5th edition also contains a new section listing Ellington's radio broadcasts and telecasts. Complete with extensive footnotes, *Ellingtonia* remains an indispensable and easy-to-use reference source for jazz collectors and scholars.

Shock Waves Zonglin Jiang, 2010-05-30

The 24th International Symposium on Shock Waves (ISSW24) was held at the Beijing Friendship Hotel during July 11-16, 2004, in Beijing. It was a great pleasure for the Local Organizing Committee to organize the ISSW in China for the first time, because forty-seven years have passed since the First Shock Tube Symposium was held in 1957 at Albuquerque. The ISSW24 had to be postponed for one year because of the SARS outbreak in Beijing shortly before the Symposium was scheduled to be held in 2003, but it has achieved success due to the continuous support and kind understanding from all the delegates. It is very heart-warming to have had such an experience, and I am very happy to have served as chairman for the Symposium. I would like to thank all for the contributions and help that they have given us over the past three years without which we would not have had the Symposium. A total of 460 abstracts were submitted to the ISSW24. Each of the abstracts was evaluated by three members of the Scientific Review Committee, and the decision on acceptance was made based on the reviewers' reports. 195 oral papers, including 9 plenary lectures, were accepted to be presented in three parallel sessions, and 135 poster papers in three dedicated poster sessions.

Topics discussed in these papers cover all aspects of shock wave research **The Vortexian** ,1928 **Official Gazette of the United States Patent and Trademark Office** ,1995 **World Literature Today** ,1992 *Monthly Weather Review* ,1971 **Engineering and Philosophy** Zachary Pirtle,David Tomblin,Guru Madhavan,2021-05-14 Engineers love to build things and have an innate sense of wanting to help society However these desires are often not connected or developed through reflections on the complexities of philosophy biology economics politics environment and culture To guide future efforts and to best bring about human flourishing and a just world Engineering and Philosophy Reimagining Technology and Progress brings together practitioners and scholars to inspire deeper conversations on the nature and varieties of engineering The perspectives in this book are an act of reimagination how does engineering serve society and in a vital sense how should it *Applied Mechanics Reviews* ,1995 Louis Vortex Jean Métellus,2005-03-15 **30th International Symposium on Shock Waves 1** Gabi Ben-Dor,Oren Sadot,Ozer Igra,2017-08-09 These proceedings collect the papers presented at the 30th International Symposium on Shock Waves ISSW30 which was held in Tel Aviv Israel from July 19 to July 24 2015 The Symposium was organized by Ortra Ltd The ISSW30 focused on the state of knowledge of the following areas Nozzle Flow Supersonic and Hypersonic Flows with Shocks Supersonic Jets Chemical Kinetics Chemical Reacting Flows Detonation Combustion Ignition Shock Wave Reflection and Interaction Shock Wave Interaction with Obstacles Shock Wave Interaction with Porous Media Shock Wave Interaction with Granular Media Shock Wave Interaction with Dusty Media Plasma Magnetohydrodynamics Re entry to Earth Atmosphere Shock Waves in Rarefied Gases Shock Waves in Condensed Matter Solids and Liquids Shock Waves in Dense Gases Shock Wave Focusing Richtmyer Meshkov Instability Shock Boundary Layer Interaction Multiphase Flow Blast Waves Facilities Flow Visualization and Numerical Methods The two volumes serve as a reference for the participants of the ISSW30 and anyone interested in these fields
