*The Image of Society and Women in Louisa May Alcott's "Little Women"* Ines Hermeling, 2010-04-13 Seminar paper from the year 2004 in the subject English Language and Literature Studies Literature grade 2-3 University of Münster Englisches Seminar course Literaturwissenschaftliches Proseminar language English abstract When Louisa May Alcott wrote part one and two of her famous novel *Little Women* in 1868-69 the main reason for this was money Being already 35 and having a lot of experience with writing in different genres she tried to produce a girl's story and followed her editor's request She never expected it to be such a success Until today the story about Jo Meg Beth and Amy has never been out of print and has been translated into twenty-seven languages In 19th-century New England it was regarded modern and unique in children's literature and despite time has changed it is still popular with young readers today But what is it that distinguishes Alcott's work from that of other children authors of that period and makes her so unique One central aspect in *Little Women* is the education of the four March sisters and their growing up into womanhood They are accompanied by their loving mother who introduces them into society by giving helpful advice In how far does this process and the novel at all reflect real life and cultural values of Victorian age What picture of family life society and the position of women within it did Alcott develop To solve this question special attention shall be paid to educational values and sexual definitions of the 19th century described in the book the importance of work on the one hand and domesticity on the other the different characters with their individual features especially of Alcott's alter ego Jo March Education plays a very important role in solving the question because it sets the foundation of every individual life and might define the development of a whole society It will be interesting to analyse the children's novel and perhaps find both modern and contemporary components in it With the help of secondary literature biographies critical essays statements of the author herself it will be possible to answer the question what role society and feminist ideas play in *Little Women* Since Alcott obviously used her own autobiographical background as an inspiration for writing the novel it is sometimes necessary to look at the author's life acquaintances and surroundings as well as to consider the customs mores and the situation of women and society at all in the 19th century      *U.S. History As Women's History* Linda K. Kerber, Alice Kessler-Harris, Kathryn Kish Sklar, 2000-11-09 This outstanding collection of fifteen original essays represents innovative work by some of the most influential scholars in the field of women's history Covering a broad sweep of history from colonial to contemporary times and ranging over the fields of legal social political and cultural

Abel,2022-10-25 Explains why there is a crisis in caring for elderly people and how the COVID 19 pandemic exacerbated it Because government policies are based on an ethic of family responsibility repeated calls to support family members caring for the burgeoning elderly population have gone unanswered Without publicly funded long term care services many family caregivers cannot find relief from obligations that threaten to overwhelm them The crisis also stems from the plight of direct care workers nursing home assistants and home health aides most of whom are women from racially marginalized groups who receive little respect remuneration or job security Drawing on an online support group for people

caring for spouses and partners with dementia Elder Care in Crisis examines the availability and quality of respite care which provides temporary relief from the burdens of care the long tortuous process through which family members decide whether to move spouses and partners to institutions and the likelihood that caregivers will engage in political action to demand greater public support When the pandemic began caregivers watched in horror as nursing homes turned into deathtraps and then locked their doors to visitors Terrified by the possibility of loved ones in nursing homes contracting the disease or suffering from loneliness some caregivers brought them home Others endured the pain of leaving relatives with severe cognitive impairments at the hospital door and the difficulties of sheltering in place with people with dementia who could not understand safety regulations or describe their symptoms Direct care workers were compelled to accept unsafe conditions or leave the labor force At the same time however the disaster provided an impetus for change and helped activists and scholars develop a vision of a future in which care is central to social life Elder Care in Crisis exposes the harrowing state of growing old in America offering concrete solutions and illustrating why they are necessary
