Nature, Place, and Story Claire Elizabeth Campbell, 2017-08-09 National historic sites commemorate decisive moments in the making of Canada. But seen through an environmental lens, these sites become artifacts of a bigger story: the occupation and transformation of nature into nation. In an age of pressing discussions about environmental sustainability, there is a growing need to know more about the history of our relationship with the natural world and what lessons these places of public history, regional identity and national narrative can teach us. *Nature, Place, and Story* provides new interpretations for five of Canada's largest and most iconic historic sites, two of which are UNESCO World Heritage Sites: L'Anse aux Meadows, Newfoundland; Grand Prêtre, Nova Scotia; Fort William, Ontario; the Forks of the Red River, Manitoba; and the Banff Railway, Alberta. At each location, Claire Campbell rewrites public history as environmental history, revealing the country's debt to the power and fragility of the natural world and the relevance of the past to understanding climate change, agricultural sustainability, wilderness protection, urban reclamation and fossil fuel extraction. From the medieval Atlantic to modern ranchlands, environmental history speaks directly to contemporary questions about the health of Canada's habitat. Bringing together public and environmental history in an entirely new way, *Nature, Place, and Story* is a lively and ambitious call for a fresh perspective on natural heritage

Jameson Jr.,2004-01-13 To reconstruct or not to reconstruct That is the question facing many agencies and site managers throughout the world While reconstructed sites provide a three dimensional pedagogic environment in which visitors can acquire a heightened sense of the past an ethical conflict emerges when on site reconstructions and restorations contribute to the damage or destruction of the original archaeological record The case studies in this volume contribute to the ongoing debates between data and material authenticity and educational and interpretive value of reconstructions Discussing diverse reconstruction sites from the Golan Region to Colonial Williamsburg the authors present worldwide examples that have been affected by agency policies divergent presentation philosophies and political and economic realities **Reconstructing Fort Union** John Austin Matzko,2001-01-01 Here is the Crow Flies High band of Hidatsa who lived on the site in the late nineteenth century here is the wild west town of Mondak founded in 1904 to peddle alcohol to North Dakotans and here are the Park Service personnel whose mission to preserve what is left of the historic fort puts them in direct conflict with civic leaders who want the entire site reconstructed to draw more tourists Matzko chronicles the struggle with all the political plays bureaucratic snags and chance twists that led to the reconstructionists victory and to one of the largest archaeological excavations ever mounted by the National Park Service Time Travel Alan Gordon,2016-04-15 In the 1960s Canadians could step through time to eighteenth century trading posts or nineteenth century pioneer towns These living history museums promised authentic reconstructions of the past but as Time Travel shows they revealed more about mid twentieth century interests and perceptions of history than they reflected historical fact An appetite for commercial tourism led to the rise of living history museums They became important components of economic growth especially as part of government policy to promote regional economic diversity and employment Alan Gordon explores how these museums were shaped by post war pressures personality conflicts funding challenges and the need to balance education and entertainment Ultimately the rise of the living history museum is linked to the struggle to establish a pan Canadian identity in the context of multiculturalism competing anglophone and francophone nationalisms First Nations resistance and the growth of the state **Conservation of Ruins** John Ashurst,2007 Despite growing international awareness of the presence and significance of ruined buildings and

archaeological sites these sites continue to be at risk across the globe This book defines and describes these risks which range from neglect to destructive archaeology and even well meaning intervention in the name of tourism **Canadian Books in Print. Author and Title Index** ,1975 **Endgame 1758** A. J. B. Johnston,2007-12-01 The story of what happened at the colonial fortified town of Louisbourg between 1749 and 1758 is one of the great dramas of the history of Canada indeed North America This book presents the dramatic military and social history of this short lived and significant fortress seaport and community and the citizens who made it their home The Centennial Cure Meaghan Elizabeth Beaton,2017-01-01 This book examines the intersection of state policy cultural development and commemoration during Canada s 1967 centennial celebrations It explores four initiatives that were undertaken in Nova Scotia to mark this anniversary and demonstrates one province s response to Lamontagne s appeal to stem Canada s cultural poverty These initiatives also reflected those larger social cultural economic and political transformations that took place in postwar Nova Scotia Further they help us understand the province s experience within the broader context of the development of modern Canadian cultural and social history **Celebrating Canada** Raymond B. Blake,Mathew Hayday,2018-02-05 Popular and government funded anniversaries and commemorations combined with national symbols play significant roles in shaping how we view Canada and also provide opportunities for people to challenge the pre existing or dominant conceptions of the country Volume 2 of Celebrating Canada continues the scholarly debate about commemoration and national identity Raymond B Blake and Matthew Hayday bring together emerging and established scholars to consider key moments in Canadian history when major anniversaries of Canada s political social or cultural development were celebrated The contributors to this volume capture the multiple and multi layered meanings of belonging in the Canadian experience investigate various attempts at shaping and re shaping identities and explore episodes of groups resisting or participating in the identity formation process By considering the small voices and those on the margins of Canada s many commemorative anniversaries the contributors to Celebrating Canada reveal how important it is to think not only about anniversary moments but also about what they can tell us about our history and the shifting function of nationalism **British Forts and Their Communities** Christopher R. DeCorse,Zachary J. M. Beier,2018-03-14 This book is about the diverse communities associated with English and British forts of the seventeenth eighteenth and nineteenth centuries It casts new light on forts and their communities by asking new questions and applying innovative methodological approaches *Canadian Book Review Annual* ,1995 *From Ruins to Reconstruction* Karl D. Qualls,2018-07-05 Sevastopol located in present day Ukraine but still home to the Russian Black Sea Fleet and revered by Russians for its role in the Crimean War was utterly destroyed by German forces during World War II In From Ruins to Reconstruction Karl D Qualls tells the complex story of the city s rebuilding Based on extensive research in archives in both Moscow and Sevastopol architectural plans and drawings interviews and his own extensive experience in Sevastopol Qualls tells a unique story in which the periphery bests the

Stalinist center the city's experience shows that local officials had considerable room to maneuver even during the peak years of Stalinist control. Qualls first paints a vivid portrait of the ruined city and the sufferings of its surviving inhabitants. He then turns to Moscow's plans to remake the ancient city on the heroic socialist model prized by Stalin and visited upon most other postwar Soviet cities and towns. In Sevastopol, however, the architects and city planners sent out from the center went native, deviating from Moscow's blueprints to collaborate with local officials and residents who seized control of the planning process and rebuilt the city in a manner that celebrated its distinctive historical identity. When completed, postwar Sevastopol resembled a nineteenth-century Russian city with tree-lined boulevards, wide walkways, and buildings, street names, and memorials to its heroism in wars both long past and recent. Though visually Russian and still containing a majority Russian-speaking population, Sevastopol was in 1954 joined to Ukraine, which in 1991 became an independent state. In his concluding chapter, Qualls explores how the Russianness of the city and the presence of the Russian fleet affect relations between Ukraine, Russia, and the West.

Material History Review, 1999 **Seeds of Discontent** J. Revell Carr, 2008-10-14 Carr locates the roots of the American Revolution a century earlier than most historians and argues that the cumulative effect of more than 100 years of British disrespect, mismanagement, and exploitation prepared the minds of the colonists for revolution.
