Concepts in Middle Kingdom Funerary Culture Rune Nyord, 2019-05-20 *Concepts in Middle Kingdom Funerary Culture* presents a collection of archaeological and philological papers discussing how ancient Egyptians thought and modern scholars may think about Egyptian funerary practices of the early 2nd millennium BCE. Targeting the concepts used by modern scholars the papers address both general methodological questions of how concepts should be developed and used and more specific ones about the history and presuppositions behind particular Egyptological concepts. In so doing the volume brings to the fore occasionally problematic intellectual baggage that have hindered understanding as well highlighting new promising avenues of research in ancient Egyptian funerary culture in the Middle Kingdom and more broadly. New and insightful suggestions are made many of which challenge the basic frames of reference of Western Egyptological study from funerary practice to issues of identity. The methodological models should be of considerable interest to those studying aspects of the HB and ancient Levant related to funerary culture where studies have often tended towards the etic.

David Beadle *Journal for the Study of the Old Testament* 44:5 2020

7. Ägyptologische Tempeltagung René Preys, 2009 Building a temple implies the mastering of different technicalities such as the commissioning and payment of the building process procuring and transporting building material the organization of work and the practical execution of building and decoration projects. But building a temple is also translating a religious idea into stone. From the design to the consecration of the temple every stage in the process answers to a set of rules that enables the building to function as a temple. The aim of the 7th Tempeltagung was to examine the relation between the technical and the theological demands of temple building. How was architecture influencing the ritual how did ritual texts reflect the act of construction? What was the relation between the mythical temple and the actual temple? Who made the decisions and who executed them? What technical

and theological considerations lay at the base of the choice of material and of form In other words how did the technical aspects of building influence the theological ideas how was building a temple structuring religion *Ancient Egyptian Kingship* David Bourke O'Connor, David P. Silverman, 1995 This well illustrated volume represents an extensive analysis of kingship in ancient Egypt Each of the six contributing authors investigates particular areas of his own expertise Among the topics covered are the origin of kingship its distinctive traits and its general nature and its reflection in royal art and architecture *Ancient Egyptian Temple Ritual* Katherine Eaton, 2014-03-14 Large state temples in ancient Egypt were vast agricultural estates with interests in mining trading and other economic activities The temple itself served as the mansion or palace of the deity to whom the estate belonged and much of the ritual in temples was devoted to offering a representative sample of goods to the gods After ritual performances produce was paid as wages to priests and temple staff and presented as offerings to private mortuary establishments This redistribution became a daily ritual in which many basic necessities of life for elite Egyptians were produced This book evaluates the influence of common temple rituals not only on the day to day lives of ancient Egyptians but also on their special events economics and politics Author Katherine Eaton argues that a study of these daily rites ought to be the first step in analyzing the structure of more complex societal processes ***Causing His Name to Live*** Peter Peter James Brand, Louise Cooper, 2009 William J Murnane 1945 2000 dedicated his life to the epigraphic recording and historical interpretation of the monuments of pharaonic Egypt In tribute to his important contributions to Egyptology a prominent group of his colleagues and students offer a range of new studies on Egyptian epigraphy and historiography Amarna studies loom large in the volume as they did in Murnane s own work Several chapters investigate the art history and chronology of the reigns of Akhenaten and his immediate successors Other contributions deal with historical issues especially those connected with the epigraphic and archaeological aspects of the Theban temples of Karnak and Luxor The book is richly illustrated with photographs and drawings ***The Oxford Handbook of the Valley of the Kings*** Richard H. Wilkinson, Kent R. Weeks, 2016 This Handbook offers an invaluable and up to date resource on this critical and fascinating World Heritage site *The Tomb of Parennefer, Butler of Pharaoh Akhenaten* Susan Redford, 2022-10-11 Theban Tomb 188 is the sole archaeological site in the ancient Theban necropolis securely dated to the reign of the heretic pharaoh Akhenaten 1353 1336 BCE The result of several years of clearance and recording by Dr Susan Redford director of the Akhenaten Temple Project s Theban Tomb Survey this richly illustrated book provides a detailed description of the remaining wall scenes and texts of this historically important ancient monument In the fourteenth century BCE Pharaoh Akhenaten attempted to institute a radical religious reform and moved his capital city to Amarna This book publishes important evidence related to the Amarna period in ancient Egypt specifically the plans reliefs and inscriptions of Theban Tomb 188 belonging to Parennefer the tutor and butler of the king Dr Redford s detailed archaeological study traces the rapid evolution of ideology iconography and iconoclasm as revealed in Parennefer s tomb The decoration kept pace with

the momentous changes in the king's thinking so that when dovetailed with the pictorial evidence from the excavations of the great Gempaaten temple at Karnak it becomes possible to chronicle these rapid changes. This definitive study of the tomb of Parennefer will appeal to archaeologists, Egyptologists, historians of religion and art historians working on the ancient Near East.

Servant of Mut Sue D'Auria, 2008 Richard A Fazzini has inspired and mentored many scholars of Egyptology through his tireless efforts as curator and then chairman of the Brooklyn Museum's Department of Egyptian Classical and Ancient Middle Eastern Art. ECAMEA field archaeologist of the Precinct of Mut at Karnak scholar and teacher. The 35 contributions to this volume in his honor represent the variety of Professor Fazzini's own research interests namely in ancient Egyptian art, religious iconography and archaeology particularly of the New Kingdom, Third Intermediate Period and Late Period. Reflections on Professor Fazzini's scholarship and teaching are accompanied by an extensive bibliography of his works.

Egyptology at the Dawn of the Twenty-first Century Zahi A. Hawass, Lyla Pinch Brock, 2003 This comprehensive three volume set marks the publication of the proceedings of the Eighth International Congress of Egyptologists held in Cairo in 2000, the largest Congress since the inaugural meeting in 1979. Organized thematically to reflect the breadth and depth of the material presented at this event, these papers provide a survey of current Egyptological research at the dawn of the twenty-first century. The proceedings include the eight Millennium Debates led by esteemed Egyptologists addressing key issues in the field as well as nearly every paper presented at the Congress. The 275 papers cover the whole spectrum of Egyptological research. Grouped under the themes of archaeology, history, religion, language, conservation and museology and written in English, French and German, these contributions together form the most comprehensive picture of Egyptology today.

Temples of Ancient Egypt Dieter Arnold, 1997 Five distinguished scholars here summarize the state of current knowledge about ancient Egyptian temples and the rituals associated with their use. The first volume in English to survey the major types of Egyptian temples from the Old Kingdom to the Roman period, it offers a unique perspective on ritual and its cultural significance. The authors perceive temples as loci for the creative interplay of sacred space and sacred time. They regard as unacceptable the traditional division of the temples into the categories of mortuary and divine, believing that their functions and symbolic representations were at once too varied and too intertwined. Both informative to scholars and accessible to students, the book combines descriptions of specific temples with new insights into their development and purposes.

Nile into Tiber: Egypt in the Roman World Laurent Bricault, Miguel John Versluys, Paul G.P. Meyboom, 2006-12-01 Interest in all kinds of interactions between Egypt and Rome has grown considerably over the last decade. This debate has not only altered our views on the impact of Rome on Alexandria and Egypt but also strongly put to the fore the reverse direction of this cultural interaction: Egyptian influences on the Roman world. It is this topic, Egypt in the Roman World, that was central to the 13th International Conference of Isis Studies held in Leiden in May 2005. This book, a selection of the papers delivered at the conference, gives a clear overview of the debate as it has developed in recent years. In

G. Manning,2009-11-02 Manning s book is one of the most thought provoking studies on the Hellenistic world to have appeared for quite some time essential reading John Ray Times Literary Supplement The history of Ptolemaic Egypt has usually been doubly isolated separated both from the history of other Hellenistic states and from the history of ancient Egypt The Last Pharaohs the first detailed history of Ptolemaic Egypt as a state departs radically from previous studies by putting

the Ptolemaic state firmly in the context of both Hellenistic and Egyptian history More broadly still J G Manning examines the Ptolemaic dynasty in the context of the study of authoritarian and premodern states shifting the focus of study away from modern European nation states and toward ancient Asian ones By analyzing Ptolemaic reforms of Egyptian economic and legal structures *The Last Pharaohs* gauges the impact of Ptolemaic rule on Egypt and the relationships that the Ptolemaic kings formed with Egyptian society Manning argues that the Ptolemies sought to rule through rather than over Egyptian society He tells how the Ptolemies adopting a pharaonic model of governance shaped Egyptian society and in turn were shaped by it Neither fully Greek nor wholly Egyptian the Ptolemaic state within its core Egyptian territory was a hybrid that departed from but did not break with Egyptian history Integrating the latest research on archaeology papyrology theories of the state and legal history as well as Hellenistic and Egyptian history *The Last Pharaohs* draws a dramatically new picture of Egypt's last ancient state Manning has produced a deep and meaningful study of the social and political relationships inherent in the Ptolemaic economy Timothy Howe Bryn Mawr Classical Review
