Reading Across the Pacific Robert Dixon,Nicholas Birns,2010 Reading Across the Pacific is a study of literary and cultural engagement between the United States and Australia from a contemporary interdisciplinary perspective The book examines the relations of the two countries shifting the emphasis from the broad cultural patterns that are often compared to the specific networks interactions and crossings that have characterised Australian literature in the United States and American literature in Australia In the 21st century both American and Australian literatures are experiencing new challenges to the very different paradigms of literary history and criticism each inherited from the 20th century In response to these challenges scholars of both literatures are seizing the opportunity to reassess and reconfigure the conceptual geography of national literary spaces as they are reformed by vectors that evade or exceed them including the transnational the local and the global The essays in Reading Across the Pacific are divided into five sections National literatures and transnationalism Poetry and poetics Literature and popular culture The Cold War and Publishing history and transpacific print cultures **World War II in the Pacific** Stanley Sandler,2003-12-16 Stanley Sandler one of America s most respected and best known military historians has brought together over 300 entries by some 200 specialists in the field to

Mitchener,2021-07-28 On November 20 1943 the U S military invaded the Tarawa Atoll of the Gilbert Islands as part of the first American offensive in the Central Pacific region during World War II This invasion marked more than one first as it was also the introductory test of a doctrine developed during the interwar years to address problems inherent in situations in which amphibious assaults required support by naval gunfire rather than land based artillery In this detailed study Donald K Mitchener documents and analyzes the prewar development of this doctrine as well as its application and evolution between the years 1943 1945 The historical consensus is that the test at Tawara was successful and increased the efficiency with which U S forces were able to apply the doctrine in the Pacific theater for the remainder of the Second World War Mitchener challenges this view arguing that the reality was much more complex He reveals that strategic concerns often took precedence over the lessons learned in the initial engagement and that naval planners failure to stay up to date with the latest doctrinal developments and applications sometimes led them to ignore these lessons altogether U S Naval Gunfire Support in the Pacific War presents an important analysis that highlights the human cost of misinterpreting strategic and tactical realities *The Pacific Monthly* William Bittle Wells,Lute Pease,1900 Emergent Masculinities in the Pacific Aletta Biersack,Martha Macintyre,2018-10-11 Emergent Masculinities in the Pacific focuses on the plasticity and contingent nature of Pacific Island masculinities over the course of colonial and postcolonial histories The several case histories concern the use of sports to recuperate but also refashion past masculinities in the name of contemporary masculine pride the effects of market participation on younger males how urbanisation and migration set the stage for experimenting with male gender and sexuality the impacts of military and labour histories on local masculinities masculinity and violence in war and gender violence and structural violence and disruptions in male gender identity Depicting contemporary Pacific Island societies as a space of gender invention and pluralism as indigenous gender regimes respond to the stimulations of transnational flows the book asks a key historical question Do emergent masculinities signal a rupture or some continuity with past masculinities
