Healing Through Love: Miracle or Science? Cristian D. Blendea,2020-01-13 The book Healing Through Love Miracle or Science is a collection of philosophy essays about life four in number like the arms of a cross In the first two chapters we find out how should we relate to both religion and science how to understand creation and evolution how to perceive the essence of a human being We talk about energy information fields As well as about soul mind spirituality body We are our feelings our thoughts our words and our deeds Software and hardware We obey the cybernetic laws of the Universe we are a manifestation of the holographic principle and we have a fractal like behavior The last two essays offer a more practical and easier to understand approach of author s self improvement model We are working with the seven cardinal virtues to correct the seven deadly sins that are blocking our energy information fields This is the quick fix that everybody s looking for

'Love' in "A Course in Miracles" Theodore L Kneupper Phd,2015-03-19 An illuminating examination of A Course in Miracles This book offers a clear and penetrating explanation of the profound teachings claimed to have been given by Jesus to psychologist Helen Schucman as A Course In Miracles It gives coherent and insightful clarifications of its crucially important topics particularly its four meanings of love as absolute Love as the creative energy present in God and all perfect minds and the nature of what Love creates to produce a Universe of Love illusory love as the distorted form of love that rules the lives of most people based primarily on the attachment to ego which results in the experience of suffering both physical

and psychological particularly as a part of special relationships imperfect love as the first stage of realizing genuine love particularly the nature and role of miracles as a way of bringing complete inner and outer healing through total forgiveness or letting go perfect love as the highest stage of love's realization possible for human beings which centers on the experience of the holy instant and the maturing of special relationships into holy relationships Especially illuminating is how the Course's teachings on absolute Love resolve one of traditional Christianity's and Judaism's and Islam's most serious logical problems that although God is infinite and all powerful Love He created a universe in which evil pain and suffering exist The Course sees this as a serious misconception based primarily on the inclination of ego dominated minds to construct religious doctrines that preserve their ego centeredness It thus proposes a radically different view The author brings a lifetime of experience to A Course in Miracles using philosophical methods to examine and clarify its teachings scrutinizing them to determine whether they are consistent and coherent comparing them with other spiritual teachings Whether you are new to A Course in Miracles or you have already integrated it into your spiritual path this book is a uniquely valuable adjunct to understanding its teachings on love
