Love Letters To The Blue Planet:

Love Letter to the Earth Thich Nhat Hanh, 2013-06-17 World renowned Zen monk Thich Nhat Hanh champions a more mindful spiritual approach to protecting nature and limiting climate change one that recognizes people and planet as one and the same While many experts point to the enormous complexity in addressing issues ranging from the destruction of ecosystems to the loss of millions of species Thich Nhat Hanh identifies one key issue as having the potential to create a tipping point He believes that we need to move beyond the concept of the environment as it leads people to experience themselves and Earth as two separate entities and to see the planet only in terms of what it can do for them Here Thich Nhat Hanh points to the lack of meaning and connection in peoples lives as being the cause of our addiction to consumerism He deems it vital that we recognize and respond to the stress we are putting on the Earth if civilization is to survive Rejecting the conventional economic approach Thich Nhat Hanh shows that mindfulness and a spiritual revolution are needed to protect nature and limit climate change Love Letter to the Earth is a hopeful book that gives us a path to follow by showing that change is possible only with the recognition that people and the planet are ultimately one and the same Love Letters in the Sand Bella Louise Allen, 2016-09-17 Love letters in the sand is a continuation of first time author Bella Louise Allens Miracles among Chaos Experiential theories are explored in the authors search for peace in her heart as she helps a special angel from the other side reach out to all those who have loved and lost an angel or loved one of their own A childs last wishes are echoed in music poetry drawings and communication with a newfound love for God and all his faith in oneself and the unseen glory that God has to offer each one of us A learning center to be built in memory of all missing children and a cry for a special angels mother to connect with her from the other side The Amazing Story of a Small Blue Planet Brian Grogan, 2020-05-09 This booklet offers an unique presentation of the unfolding of our universe It interweaves the insights of contemporary science with Christian faith and reveals the divine orchestration of the Creation Story in a dramatic fresh and appealing way Part One offers a brief background to the new story of creation which has emerged over the past century with the discovery of the expanding universe We now know that the universe is 13.8 billion years old Part Two takes the reader through thirty stages of the development of the cosmos and of our Earth from the big bang to the present day Each stage is succinctly outlined and offers material for prayerful pondering Letters of Hope & Love by "JADE STARBORN": The Space Explorer Ajay Zula, 2024-12-08 How would you feel if you received a heartfelt letter from a friend who is cool and truly gets you This book is a unique compilation of 11 inspiring short notes 16 engaging and full of life letters and 3 amazing positive and motivating stories shared by Jade Starborn and penned down by me Jade is a cheerful and thoughtful young alien with wisdom beyond our imagination Jade is a space explorer who is a master at noticing the unspoken struggles people go through He is around 21 on his home plane but as per Earth s timeline he is millions of years old and carries such experiences and wonderful lessons to share His letters address some of the most overlooked yet deeply painful and
